Mimico and New Toronto Representatives Confer With \* Engineer Gaby.

MAY SUBMIT BYLAW

Proposed to Test Feelings of Municipalities at Next Election.

Representatives of the Villages of Mimico and New Toronto, and the Township of Etobicok yesterday conferred with Engineer Gaby of the Ontario Hydro Commission, and after hearing the plans of the proposed To-Farmers who study the fine points of their work state that fall plowing is often more important than fertilizer in fresh plowed ground. A striking case in point is that of a piece of land in the horticultural farm of the college of agriculture. In the fall of 1914 a strip was broken up from virgin soil for use in experimenting with fertilizer, and allowed to lie fallow until the next August. It was then replowed, along with the adjoining land, and results showed quite clearly that the fall-plowed ground produced twice the grain that the latter did.

Thos. Oburn, a farmer residing near Uxbridge, was killed instantly by falling from his wagon, which was loaded with the Grand Trunk from Toronto to London hydro radial, which is to pass thru these municipalities, unanimously endorsed the proposed Toronto to London hydro radial, which is to pass thru these municipalities, unanimously endorsed the proposition. They also proposed that each of the municipalities should submit a bylaw to the ratepayers on January next. A feew weeks before voting day Sir Adam seck will address a meeting of the ratepayers of the combined municipalities and explain the plans.

While the commission will construct the power lines it will be up to the locality itself to supply equipment within the town. According to the survey, the route will run parallel with the Grand Trunk from Toronto will the survey. to Mimico roundhouse, and then strike south thru New Toronto and north again parallel to the railway to Port Credit. Another power line is pro-posed along Queen stret, beginning at the Humber, which will be for local and passenger traffic only. In answer to a question from a Mimi-co representative, Engineer Gaby said that full information as to the cost, etc., would be supplied the ratepayers
