urday evening, June 19, in the town hall. The two questions are the most im-portant that have ever come up for dis. cussion in the town, and in calling a public meeting. President Banton of the North Toronto Extepayers' Asso-ciation and his executive have done a wise thing. Everybody will be invited to express an opinion, and, in view of the tact that the Ontario Railway Board will meet in a few days to used on the question, it is imperative that the citi-zens rally to the meeting. If pressure can by any means be brought to bear on the Ontario Railway Board to fully acquaint them with the facts, now is the time to do it. If the property own-ers of the town fail to rise to the occasion and register a big protest against the encroachments of the Metropolitan Railway Board, they have no-body to blame but themselves. The trouble is that the farmers and others living up in the country, who drive up and down the highway, will suffer WESTON. living up in the country, who drive up and down the highway, will suffer WESTON. Solicitor Gibson and Engineer James will be heard from, and it is probable that the mayor and certain members of the town council, together with a few private citizens, will also have emathing to say. appeals against the assessment, practically no changes were made. Proper-

ago. The village shows marked prosfew private citizens, will also have something to say. "We will put up the fight of our lives on this switching question when the Ontario Rallway Board meets." said Mr. Gibson to-night. A lot of valuable data have already been secured, and no stone will be left unturned from a legal and engineering standpoint. It remains now, for the people of the town to supplement the work of their officials by a big popular demonstra-tion sgainst the insidious policy of the Metropolitan Rallway. The matter is to a certain extent in the hands of the citizens.

ago. The village shows marked pros-perity. Hugh McDougall, the man who was so seriously injured a week or so ago by having his foot cut off, is making good progress and is believed to be out of danger. The death occurred suddenly this morning of Thomas Best, a man about 45 years of age, at Camp Hydro, where he was employed as a tree cutter on the line between Port Credit and Weston. Best is said to have lived at Hamilton, and was unmarried. The tuneral will take place to Hz milton.

is to a certain extent in the hands of the citizens. The question of the final location of Duplex-avenue is still an open one, a motion to reconsider the question hay-ing been carried. The plan as at pres-ent proposed would, it is said, necessi-tate the purchase of three houses at big expense, whereas, if run parallel with Yonge-street, only one small house would require, to be expropriated. Councillor Eeld made a vigorous fight against the settlement when it was going thru, and it looks' as the there was good ground for looking further into the matter. The reference in The World of this morning to the unfortunate and irri-tating conditions which surround the passage of the eastern parallel read thru Mount Pleasant' Cometery has evoked a lot of comment in town and out in York Township, and the state-ments made have been strongly com-mended and endorsed. The time has arrived, if ever, when the city must take a hand in the matter or see its northern outlet barred for all time to come. Work on the good roads system may be well under way within a month, that is if the plans of the commission unfold as the members expect.

arrived, if ever, when the city must take a hand in the matter or see its northern outlet barred for all time to come. "The World was absolutely right in that presentation of the case, and the that presentation" said a well-known legal gentleman living in North To-ronto to The World to-day." unfold as the members expect. Engineer James came down from North Toronto yesterday morning and made the pleasing announcement to Secretary Ramsden, that he was pre-pared to enter at once on his duties, having accepted the conditions. He will get \$2500 a year and free office, rent and lighting in the York Countly municipal building on Adelaide-street. which the work will be carried on. The commission propose to at once
