A DOLLAR PER MONTH FOR SHOES.

THAT is about all it should cost you! But - it depends upon the Sole leather in the shoe as to what it actually does cost you. Some shoe Soles wear only forty days.

Others wear one hundred and forty days. Some shoe Soles soak water through to your feet in less than one hour's walking:

One other kind - "Quick-Oak" Soles - can't be soaked through in less than four hours steeping in a basin of water. How are you to know which kind of Sole leather you are

getting in shoes. Well, - the Slater Shoe Company control the new process "Quick-Oak" brand of Sole leather for Canada. You may test this leather in a basin of water, and prove what is claimed for it.

It is the toughest, close-textured, wire-fibred and most water-resisting Sole leather ever tanned.

It is used in genuine Slater Shoes, and in no other shoes.

If you find the slate-frame trade-mark of "The Slater Shoe" woven on the lining of the shoe top, with the retail price (\$3.50 or \$5.00) you'll know positively that you are then getting "Quick-Oak" Sole leather, and the most reliable shoemaking

GARRISON IS CROWDED.

Poor Accommodation at Halifax for Canadian Troops. Halifax, N.S., Oct, 6.-(Special.)-In Charcoal is a remedy that the more ther.

My acceptance of a case for treatment is equivilent to a cure, because I never accept incurable cases. I am satisfied to receive the money for the value I have given the patient, but I expect to prove my worth and show positive and satisfactory results before I ask for the fee. So, should I fail to cure the case, the patient loses nothing, while when I cure him I have given what is worth much more than money—I have given him his health again. I am the very first specialist in the Unites States who has had sufficient confidence in his ability to say to the afflicted,
