

"FALL WHISPERS"

The weather is likely to turn cool almost any day now, and when it does you'll not want to wear your old Summer Suits, will you?

Well, You Needn't!

It'll be your fault if you do. Come in to-day and try on one of our New Fall Suits. We've lots of new ideas to show you.

"Young Men's Specials" in half a dozen smart and handsome cuts and in many stylish fabrics.

Suits for men of quieter tastes, in many varieties of shape, color, etc. Never mind your price notion. Be it

\$10, \$20 or \$30

We believe that we can give you all and more for your money than you'd be expecting. This is the Clothing House that never has any disappointments in store for any one.

"Come on in."

OAK HALL CLOTHIERS

Right Opposite the "Chimes," King St. East.

J. Coombes, Manager.

YOUR COLUMN

CLEANLINESS AT FAIR.

Editor World: In your paper of Sept. 10, giving an account of the directors' meeting on Saturday last at the exhibition grounds, Aid Fleming is quoted as having given the park commissioner and his son great praise for the remarkable cleanliness of the grounds.

The writer's experience is that the grounds were a disgrace to the grand exhibition. No doubt the commissioner went to a much greater expense this year in employing more men and boys to try and gather up the constant rain of paper, fruit peelings and pieces of lunch, etc., which the people everywhere were throwing on the lawns and streets of the fair grounds. Surely, nearly all of this waste would have been placed in waste barrels if the managers had given the people the opportunity to use them, as nearly all Canadians are clean and tidy in their own houses and lawns. I am sure everyone that threw waste on the grounds was ashamed to do so, but what else could they do? The writer attended the fair on two days of last week, and on each occasion took a seat near the band stand to eat his lunch, and on each occasion the lawn and street were a disgrace to the great exhibition and our Canadian people, as they were constantly littered with paper, peelings, pieces of lunch, etc., so much so that the air was tainted with decayed wastes, trampled into the soil. The writer was ashamed that our American guests should see and hear Canadian people so unclean as to throw their waste on those streets and beautiful lawns, decorated with beautiful flowers, but the people were not to blame; they had to get rid of the waste and the managers had made no provision for waste. Now, Mr. Editor, suppose the manager next year places sufficient waste barrels on the grounds and erects several large signs on the grounds, and especially near the entrance, so that every one would see them on entering the exhibition. Signs worded as follows, or similar: "Place your waste paper, peelings, pieces of lunch, etc., in the waste barrels; help us to be clean and tidy here as you are at your own homes." N. D. G.

THE FLAG QUESTION.

Editor World: Having read the "weird" of "Political Liberty" an answer is in order. Of course the opponents of this view are narrow and bigoted, but the view is not. Persons of his ilk always talk that way, because they are so conceited. They think their view the only right one, regardless of circumstances. It is easy to talk peace and disarmament, since nobody here is in a position of war. Sir William Mulock is indulging in that cheap mode of advertising himself. All these people are great peace-makers, but if anyone ruins them they fly to abuse. Now, if "Political Liberty" wants a field for his labors in peace and good will to the American congress, which hung up an arbitration treaty between the United States and England years ago, or to President Roosevelt, who is always brandishing the big stick or reviewing a large fleet of American men-of-war in Oyster Bay or some other old place.

The flag question lies in a nutshell. Americans are aggressive and ever haunting their flag. It is largely a matter of national conceit. They are the people they want the world to know it. At heart they respect no flag but their own. That is seen on almost every occasion when they have to do with a foreign flag. They make flag incidents, and then complain if their plain insults are not overlooked. On the slightest provocation some of them draw out their flag and blow and bluster about it. They are the stiff breeders and they are aided and abetted by weak knees such as stand under the brain which wrote the common-place about so-called political liberty.

As a Canadian, born and bred in the Dominion, and loving it as none but a native can; as a Canadian democrat in hearty sympathy with true democracy the world over, but whose democracy doesn't run to unpatriotic sear, I protest against the use of the American flag by citizens or corporations at any time or place in this Dominion. A flag is an emblem of sovereignty, and while I believe in reciprocity in courtesy, we are in a peculiar position in our relationship to the States. It is because the American mind is not yet clear of some of its old-time political dreams that it delights in flaunting its emblem in the territory of the coming power of the north. We are engaged in nation-building. We have our ideals. Nothing, especially not a foreign flag, should be allowed to come between them and our fruits. I say that any American who raises the Stars and Stripes in Canada commits a deliberate insult to any Canadian who so far

forgets himself, perhaps without knowing it, is an enemy to his country. Toronto, Sept. 12.

GO TO ITALY.

Editor World: I notice in this morning's paper that Dr. Fyne, minister of education, has brought from the old country complete sets of school books for the information of the textbook commission. So far well. Another step in advance would be to secure a complete set of Italian schoolbooks, which are probably unequalled for terseness and directness by any in the world. They are prepared by a government board composed of the best-educated men in the kingdom, and are indeed models. Pathfinder.

Toronto, Sept. 12, 1906.

"WIRELESS" IN THE ALLAN LINE.

"Constant Reader" is informed: (1) That, of the Allan Line of steamships, the Victorian, Virginian, Ionian and Tuscan, all have wireless equipment, and in advance would be to secure a complete set of Italian schoolbooks, which are probably unequalled for terseness and directness by any in the world. They are prepared by a government board composed of the best-educated men in the kingdom, and are indeed models. Pathfinder.

COAL.

Editor World: My attention has been called to the following paragraph, appearing in the Coal Trade Journal: "It looks as if the coal situation is not so bad as it is being made out to be. It will be clear and simple, it will undoubtedly help the trade, for many are not clear upon the line of demarcation between the two. Some bony has been pained off on purchasers as good coal, for which they paid standard prices; it is coal received and delivered for the use of consumers—slaty, bony, stony stuff, poorly prepared, altogether inferior, and pronounced by experts unmarketable, but good enough to send over to the Indians, as one Yankee coal consumer, in speaking of Canadian coal, said: 'There is altogether much shelly-looking, clinking stuff in evidence on this side the line, and, unfortunately, the coal is not so good as delivered to any address in Hamilton before 7 a.m.; daily, 25c a month. Sunday, 1c per cwt. Hamilton office, Royal Hotel, Phone 965. Mr. William C. O'Connell, 5c a ton today, at Billy Carroll's Opera House Cigar Store."

Canada has too long been the dumping-ground for the refuse of the products of the United States coal mines, and either ignorantly or good-naturedly, dealers have accepted whatever has been sent. The day will come when the price of anthracite coal, like postage stamps, will be within the easy reach of the people of the United States; and again, the day will come when no one will care where or how it is fixed, as it will be used by the millions of the American continent—the American coal trust—additional wealth, for which we do not receive any price, but for which we are considering the price of war.

In soft coal, too, for steam purposes, so poor has the quality been that Buffalo brokers—and all other brokers so far as the Canadian market is concerned—have already seen photographs of their finish. It would be much safer to depend on responsible local dealers for good grades of soft coal, even were there a rigid application of the B. T. U. test, as at some centres to save being bitten in contract coal, requiring a guarantee of the highest grade of coal, it is the man of the London market, and within 15,000 B. T. U. (British thermal units), and ash within 3 per cent, then to respond either to fulsome circulars, advertising goods that reach the purchaser, or to the solicitations of brokers' drummers, who effect small sales of the coal, and are never seen again.

Knowing the lively interest The Toronto World takes, not only in public ownership, but in anything that will ensure justice to the masses of our people. A Country Dealer.

To Fit the Crime.

"The best punishment we can give you is to order you to eat the peaches," said the chairman of the London magistrates to Daniel Todd, a schoolboy who was charged with stealing a quantity of green peaches from an orchard. "It would be too cruel, however, so we will blind you over."

HAMILTON HAPPENINGS

PASTOR FROM ROCHESTER CALLED TO KNOX CHURCH

Unanimous—Third Arbitrator Not Yet Agreed Upon.

Hamilton, Sept. 12.—(Special).—The congregation of Knox Church this evening chose Rev. S. B. Nebo of Rochester as their pastor. The following four names were submitted: Rev. S. B. Nebo, Rev. B. McLeod, Truro, N.S.; Rev. W. J. Knox, Strathroy, and Rev. Robert Pogue, Philadelphia. On the first ballot Mr. Nebo got two more than all the other candidates combined, and the congregation decided to issue a unanimous call. He will be offered \$2500 a year, with six weeks leave every year.

The third street railway arbitrator has not yet been chosen. The two arbitrators say that they have run out of names, but that the company, another effort to-morrow to secure a man from the list that has already been rejected. The men agreed to that only at the last moment when they came to ask him to accept, laughingly he said he was quite willing, but that he would not leave his home in the city. Roy Livingston, 82 Wilson-street, had the tops of a couple of his fingers bandaged at Walker's "Sugar Bowl" to-day. He got his hand caught in an ice cream freezer.

Dr. Leslie T. Hess and Miss Emily R. Dow were married this afternoon in the McNab-street Presbyterian Church.

A Distinguished Increase. At the meeting of the fire and water committee the question of an increase in wages, to be dated from Oct. 1, for the firemen, will be considered. It is the firemen's wish to have a 10 per cent. increase, but the committee will be revivified.

The Hamilton Health Association will take steps immediately to build a hospital for incurable consumptives. The funeral of the late Rev. Father Thomas J. McGeehan, took place this afternoon from St. Peter's Church, at 3.30. Rev. J. Francis and Canon Henderson conducted the service, and the pallbearers were Mr. J. Buchanan, Mr. Hazell, Mr. J. Christian, Henry Taylor, George Lay and H. J. Bonny.

John Patterson, who is grading for his Hamilton, Waterloo and Guelph Railway, to both Galt and Guelph, will be completed this year, and that the lines will be in operation early next year. City Engineer Barrow has recommended the most southerly route for the road, through Dundas and Harvey Parks. The company has promised to place a retaining wall on the sloping bank of Harvey Park, so that only a narrow strip will be taken off the park. The company will tunnel under the bank in rear of the castle and the bridge to the river.

The "diary" of Miss Hunting, the man in charge of the filtering basins, has been submitted to the investigation committee. The diary shows that the basins are not doing as well as they should, and that the water is not so clean as it should be. The committee has decided to investigate the matter further.

The board of health has asked for a ruling in the Stroud hog case for the attorney-general's department. A. J. Shaver, for the third time, has been summoned on the charge of annoying Dennis and Mrs. Kelly. John Sanders, postmaster at Chedoke, was seriously injured in a runaway accident this morning.

Miss Gertrude Stanley and O. T. Burke of the United States coal mines, will be married Wednesday. The funeral of Edward Murphy was held this morning. Rev. Father Donovan and Rev. Father Savage officiated. The pallbearers were John Sullivan, John Roach, Richard Quinn, Richard Quinn, Jr., W. McGinnis, and W. D. Daly.

Assessor F. B. Hutton is threatened with an attack of typhoid fever. The Toronto Daily Star has a world delivered to any address in Hamilton before 7 a.m.; daily, 25c a month. Sunday, 1c per cwt. Hamilton office, Royal Hotel, Phone 965. Mr. William C. O'Connell, 5c a ton today, at Billy Carroll's Opera House Cigar Store.

New Cable Company. Albany, Sept. 12.—Certificates of incorporation of the Commercial Cable Company of Cuba was filed to-day with the secretary of state. It is organized with a capital of \$100,000 to operate telegraphic communication between New York and Havana by way of Florida and Key West.

The day will come when the price of anthracite coal, like postage stamps, will be within the easy reach of the people of the United States; and again, the day will come when no one will care where or how it is fixed, as it will be used by the millions of the American continent—the American coal trust—additional wealth, for which we do not receive any price, but for which we are considering the price of war.

We are equipped to use anthracite coal, that's why it is used. Even though it will not be used in the future, it will be pointed out in museums as a relic of primitive days, when the forefathers heated houses by means of lighting the stuff in rude furnaces, the best of which wasted 90 per cent. of the heat.

In soft coal, too, for steam purposes, so poor has the quality been that Buffalo brokers—and all other brokers so far as the Canadian market is concerned—have already seen photographs of their finish. It would be much safer to depend on responsible local dealers for good grades of soft coal, even were there a rigid application of the B. T. U. test, as at some centres to save being bitten in contract coal, requiring a guarantee of the highest grade of coal, it is the man of the London market, and within 15,000 B. T. U. (British thermal units), and ash within 3 per cent, then to respond either to fulsome circulars, advertising goods that reach the purchaser, or to the solicitations of brokers' drummers, who effect small sales of the coal, and are never seen again.

TEST OF ISLAND FIRE BOAT. Capt. Goodwin's fireboat was tested yesterday in the presence of Fire Chief Thompson, Chairman Fleming and Ald. Harrison of the fire committee and Controllers Hubbard and Jones.

The run from the city to the foot of St. Andrew's-avenue, in the lagoon, was made in 13 minutes, and 250 feet of hose were laid and splendid pressure secured within 5 minutes thereafter. Firemen Doughty and Lowrey were at the pipe. Chief Thompson expressed himself as well pleased with the work of the boat, which he said would prove a useful adjunct to the present facilities for fighting fire at the island.

BY-LAW CARRIES. Niagara Falls, Sept. 13.—The vote in the Township of Stamford to pass a bylaw to grant a bonus for a site to the Ramaposition Works, with a fixed taxation of \$1000 for ten years was taken to-day, and was carried by vote of 446 for and 6 against.

For Governor. Sacramento, Cal., Sept. 12.—Former Congressman Theodore A. Bell was nominated for governor by the state Democratic convention here to-day.
