At the Annette-street Methodist Church, Toronto Junction, to-night, Rev. Dr. Hazelwood made a strong plea for a higher standard of citizenship. "We wax enthusiastic," said he, "about the all-road route, about increased transportation facilities, about immigration, about tariff, about education. These, of course, are important, but they should not occupy a foremost place in our considerations. What we need to-day is a more moral, more ethical, and more spiritual type of citizenship. In no sphere of life is there more need for reform than in politics, and our duty is to use our voice and vote for a more purification of political life. We love our country, we are proud of her achievements and her future possibilities."

There were three baptisms at the Annette-street Baptist Church last evening—a lady and two gentlemen.

TYPHOID ON INCREASE HEALTH BOARD'S WARNING

Eighty-One Cases of Smallpox in May With No Deaths—Consumption Declines.

The number of deaths reported to the provincial board of health in May is thirty-nine in excess of the corresponding month of 1906, and seventy-seven in excess of May, 1905, of the deaths from all causes.

The contagion group shows an increase in the cases of smallpox, scarlatina, diphtheria, measles and typhoid, with a falling off in whooping cough and consumption. It is quite evident, however, that with the same number of deaths from whooping cough and smallpox, the number of cases, but rather that in those municipalities where the deaths occur there is a laxity on the part of householders in reporting cases, in contradiction to the evidence that measles has been fairly well reported.

The two most serious diseases of this group, except smallpox, viz. scarlatina and diphtheria, both show an increase in cases and deaths over the corresponding months of 1906.

A warning note in regard to the increase in the number of deaths from typhoid says the secretary's report, "The cases of typhoid fever are being supplied from a public source or where the supply is from household wells. Typhoid fever is now to be found at all seasons, and in every month, in the year. The twenty-three deaths from typhoid in May should be taken as a warning to look to the wells and take care of how you dispose of your sewage."

TO INSTALL SEPTIC TANKS FOR DISPOSAL OF SEWAGE

Provincial Board of Health Will Make Experiment at One or Two Cheese Factories.

Dr. C. A. Hodgetts, secretary of the Provincial Board of Health, is making arrangements to test at one or two representative cheese factories, septic tanks and any other appliances necessary for the disposal of sewage.

This subject has heretofore received very little attention from a scientific standpoint, and the necessity for better provision for disposal of sewage is becoming more and more apparent. In fact, many of the factories will be required to make better provision for keeping the plant and surroundings in a more sanitary condition, and this can only be done by installing suitable equipment.

The cost will not be great, and it is expected that the department of agriculture, in conjunction with the Provincial Board of Health, will be prepared, later in the season, to make some experiments in this regard as to the most suitable methods for the disposal of factory sewage.

THE GREAT HOLIDAY RESORT.

The citizens of Toronto have always evinced great interest in the Dominion Day within the borders of their own city, and this year they have an added reason for staying at home through the celebration of Scarborough Beach. The Toronto Railway Company is putting on a special service on both King and Queen-streets to the beach every two minutes and a fast ride to the grounds. For the price of admission the visitor will see the Curzon Sisters, who alone are worth the cost of a ticket to the circus. These girls have won great admiration by their grace and beauty, as well as the nature of their act. There will also appear to-day, Marcello and Wolfe, the great acrobats and wire-walkers. Handmaster Raven has prepared an especially attractive program that will greatly enhance the reputation of his muscular team. He has been called the "best" coast band that has ever been in Toronto. For those who love the peace and quietude of a day in the woods there is the beautiful natural grove just east of the "beach" where there is ample room for picnic parties.
