

GOT \$10 FROM LIBERAL ALSO SIGNED STATEMENT

Evidence Presented at the Sault Ste Marie Election Petition Trial Yesterday.

Sault Ste. Marie, Jan. 13.—(Special)—The trial of the Sault election petition began this afternoon before Judge O'Leary and N. Simpson appeared for the appellant, C. N. Smith, while Edmond Bristol was associated with Moses McFadden for Andrew MacCampbell, M.L.A., the respondent.

Conservative Organization.—The afternoon was chiefly spent in inquiring into the Conservative organization for the campaign, J. A. Hand, president of the Liberal-Conservative Association, and S. L. Penhorwood, its secretary, were the first to be called. Mr. MacCampbell's evidence, given in his examination for discovery, was read.

He testified that M. Moreault, a Montreal lawyer, had helped him in his campaign among the French residents of the town. He did not give him any money, but thought Mayor Thompson had presented him with \$25, but had not been reimbursed.

Did Not Honor Draft.—F. D. Monk of Montreal, who had come to the Sault to speak for him, had drawn on him for \$100 for expenses, but he had not accepted the draft. Homer Parent said Albert Roy had been offered \$3 or \$4 by Moreault, to assist the latter, but was told he could vote as he pleased.

Voted as He Liked.—On the charge that Roy was bribed by Moreault, Roy gave evidence. He stated Moreault asked him, on May 25, three days before the election, if he would work for him, and promised him \$5 a day. Witness agreed to work in the day time. He just checked off the names in Ward 3. He did not get all the money he was promised. Only \$6 or \$7. He did not go only to work, he could vote as he liked.

Got \$10 From Reformers.—Mr. Bristol drew out of Roy that he had secured \$10 from the Reform organization for work, and that he had signed a statement for a Reform meeting at the trial. Mr. Bristol asked that this statement be produced in court. Mr. Aylesworth objected. This was as far as the case got when the court rose.

CIGARETS LED TO SUICIDE.—A man who smoked 100 a Day Preferred Death to Life Without 'Em.—New York, Jan. 13.—Excessive cigarette smoking, which brought on nervous prostration, caused the suicide yesterday of James Forster, a pawnbroker's clerk, 20 years old, of No. 50 Diamond street, Greenpoint. He shot himself while embracing his only child, a girl of two years. Forster, with his wife and child, lived in a small private house. It was not unusual for him to smoke 100 cigarettes a day. When he became ill a few weeks ago and put himself under the care of a physician, he was warned that unless he ceased smoking altogether he would find an early grave. Forster told his friends that he would rather die than live without cigarettes.

THE RICH FIGHT.—A Population Nearly as Large as the Whole City of Toronto.—Only a few of Toronto's advertisers have gone into the question of telling their daily store news to the residents of the four counties about the city. Ontario County has a population of 54,205, and Halton and Peel have 34,222 between them, making 200,427 in all. This is the World's particular territory. There is the richest and most populous of the four counties which do not receive its bundles of Worlds. It is a territory with a population nearly as large as the whole city. Ten thousand copies of the World circulate in this field, or about one-third of the daily issue of the World.

THE COAL SITUATION.

At a meeting of the Canadian Pacific Railway Club at Toronto Junction, last night, which was largely attended by engineers, firemen, trainmen, shopmen and employees of the building and bridging department, it was announced that the committee appointed to interview the management of the railway, that the C.P.R. would supply all its employees on the Ontario Division with soft coal at \$3.50 per ton, with prospects of getting hard coal at close rates. The meeting was unanimous in accepting this generous offer, and a committee was appointed to weigh out coal. The fuel will be on sale this morning.

The World has received a communication from Gould Bros., coal dealers, of Uxbridge, which is interesting in view of the discussion of fuel prices. They say: "We cannot see why coal should be so much dearer in Toronto than here, when it costs us 50 cents more than the city dealer, neither can we understand why one should get coal at \$8.50 and another pay \$12. Surely one man's money is as good as another's, and if ever there was a time when the poor should be put on equal footing with the rich it is now, when they are in need and have the money to pay. As we have been quoted several times as selling coal for little or no profit, it might interest you to know that we have a better profit than ever before."

The lowest temperature recorded at the Observatory yesterday was 8 degrees above zero. Jan. 9 still holds the record for this season, when a temperature of 5 degrees below was noted. TARTE FEARS "JIM" HILL AND HIS RAILWAY PLANS

Finds Fault With Ex-Premier Greenway and Hon. Mr. Sifton's Newspaper.—Montreal, Jan. 13.—Hon. Mr. Tarte, commenting on the attitude of Hon. Mr. Greenway in seeking to influence the Roblin government in favor of "Jim" Hill's railway projects in Manitoba, and the support given to the movement by The Free Press, which La Patrie calls the personal organ of Mr. Sifton, says: "We sincerely regret the attitude of that paper. It is an anti-Canadian and an anti-national policy. Instead of cultivating local projects, The Free Press should apply itself to the development of better means of transportation on Canadian soil and within the limits of our own territory. The Northern Pacific and the Great Northern threaten us in British Columbia as in Manitoba and the Territories, and if we do not with the St. Lawrence route to be destroyed and that Montreal, Quebec, Three Rivers and St. John shall lose their trade, which nature intended they should have, then we must adopt a Canadian policy and not permit Mr. Hill and his partisans to carry out their projects."

ST. JOHN BOARD OF TRADE OPPOSED TO SUBSIDIES

Intercolonial Should be Extended and Railway Franchises Should Revert to People.—St. John, Jan. 13.—The St. John Board of Trade this afternoon, at a largely attended meeting, held to take action in regard to the proposed Grand Trunk line across Canada, and the Quebec scheme of the trans-Canada line, passed the following resolutions: Moved by James J. Robertson: "That the St. John Board of Trade places itself on record as favoring the extension of the Intercolonial Railway from Montreal across the continent thru Canadian territory, and improvement of harbor facilities, particularly on the Gulf of St. Lawrence and on the Maritime Province coast."

It was also moved by Mr. Frank Hatheway: "That in granting charters to transcontinental railway lines, it should be the policy of the government not to grant a subsidy, either of money or lands, to such railway lines, but rather to consider that the right of way given by such charter is a valuable franchise owned by the people and should be guarded so that within a definite term of years it would revert to the people, if so desired; and further, that all such transcontinental railway charters should specify that the eastern terminus in winter and summer must be a Canadian port."

SULTAN AGAIN DEFEATED.—Escaped to the Westward—War Minister Menebbi Killed.—London, Jan. 14.—The Tangier correspondent of The Morning Leader reports serious fighting outside of Fez. He says the Sultan has been defeated and that he escaped to the westward. War Minister Menebbi, one of the Sultan's strongest supporters, was killed. All the consuls excepting the British representative have left Fez. Fighting among the tribes is also proceeding near enough to Tangier for the sound of shooting to be heard in the city. The population of Tangier is alarmed and is asking for the protection of warships. A pasha took out a force to restore order, but he found it impossible to proceed and has returned to Tangier.

SULTAN HARD PRESSED.—Madrid, Jan. 13.—Fighting is proceeding between the troops of the Sultan of Morocco and the forces of the Pretender to the throne, according to a despatch received by El Globo from Fez. The followers of the Pretender are said to be overcoming the Imperial forces. The correspondent of El Globo adds that the Imperialists would have been against the Sultan, and the anxiety of the Sultan is increased by the fact that the Sultan's representative at Tangier has been ordered to seize arms, and to despatch reinforcements to the Sultan.

GOVERNMENT PARALYZED.—London, Jan. 14.—In a despatch from Tangier, dated Jan. 13, the correspondent of The Times says: "A serious fight occurred to-day, two miles outside of Tangier. Successive attacks on a tribemounted village defended by only sixty men. The attackers were repulsed and four of them were killed. The fighting may be resumed at any moment. It does not involve any danger to Europeans, but it shows that the Moorish government is paralyzed by the rebellion and incapable of maintaining order."

EUROPEAN COMPLICATIONS.—Vienna, Jan. 13.—The 'Allgemeine Zeitung, which is well informed in political matters, expresses apprehension of a collision between British and France in Morocco. The paper says that after the Spanish-American war France and Spain negotiated a special arrangement to take common military and political action in Morocco and secure Italy's neutrality by promising her a free hand in Tripoli. France, irritated by the disturbance of the balance of power in Africa by Great Britain's conquest in the Transvaal, says the 'Allgemeine Zeitung, has an opportunity of revenge and restoration of the balance of power in Morocco. In this connection Great Britain appears to be isolated unless she obtains the support of Germany, whose attitude is unknown.
