CAPTURE OF KAICHOU MAKES IT SURI

Prepare to Close In on the Enemy -Kuropatkin Being Forced Northward.

JAPS ON THE YINKOW ROAD SAKHAROFF REPORTS FIGHT

St. Petersburg, July 10.-Lieut.-Gen. Sakharoff, in a despatch to the general staff, confirms the report of the Japanese occupation of Kaichou. He says that the Russian loss did not exceed 150 killed or wounded. Gen. Sakharoff adds that the Japanese are on the

ment remained during July 8 at Kaichou station, having its advance posts on the right bank of the Kantakhe River, the enemy occupving the heights on the left bank and fortifying themselves thereon.

opened fire at the enemy's patrols. Towards noon a fusilade occurred between a detachment of the enemy and our company and our losses were six

Along the Seashore. "Towards the evening of July 8 the enemy's force, consisting of four diviout in front of Kaichou, extending Does Not Show Intimate Knowalong the seashore. At dawn, July 9, the enemy resumed the offensive upon the rear-guard of our detachment, which retired about 6.30 in the morning from Kinchou to nine and one-half miles northward.

"At 10 o'clock, under heavy pressure, our rear guard retired on our presider.

panese hurried up fresh troops and attacked them at dawn with a superior force. The Russians retired fighting. Their losses numbered 300. The Japanese also suffered severely.

Another forward movement of the taken to the Western Hospital sufficiency a representative of the district Balley, a representative of the district Russian Rifle Brigade began during the now fallen back. Similar backward his departure, clad only in his night-movements are reported from other points. Chinese report that Gen. Ku-

OPERATIONS FOCUSED.

London, July 10.—The capture of Kaichou (Kaiping) by General Oku establishes a Japanese line clear across the Liaotung peninsula and brings the operations of the mikado's forces against Kuropatkin

The evacuation of Newchwang by the Russians seems the only logical move, and with the fall of this town and its port, Yinkow, the Japanese will secure a harbor close to the centre of operations for landing men and supplies for an immediate attack on Kuropatkin's

That these men and supplies are even now in transports in the Gulf of Pechili is shown by the reports which have come in during the last few days, which state that a large fleet of Japanese steamers is

Despatches from St. Petersburg indicate that Kuropatkin is expected to retire from Tatchekiao, and even Haicheng, and concentrate his forces in Liaoyang, which has been fortified elaborately.

This he may not be able to accomplish, however, as the Russian official reports indicate the presence of a great body of Japanese within striking distance of the fortifications. It may be that the great battle of the war will be fought in the open.

frozen. A casus belli can, any time when required, be found thru a colli-sion between Russian and Afghan out-

General Kuropatkin's alleged plan' for the invasion of British India will not be taken very seriously, and if it be genuine, goes far to explain his fiasco in Manchuria. It is of course conceivable that the Russians if they were so disposed could without much difficulty capture Herat, which is situated in the extreme west of Afghanistan and within easy distance of the Russian frontier. But as the integrity of Afghan territory is a cardinal fac-

fering from delirium tremens. He was attorney's office, and a coroner are in-Russian Rine Brigade began during the right of July 6. The Russians attacked the Japanese position in the darkness. London, July 10.—The Sportsman, referring to Winnipeg's victory at Kingston regatta by two lengths and a quarter, heads the article: "Well Rowed, Canada." and declares that the first-class style in which the race was won proves third Trinity to have been an extraordinarily good four.

AND ABOUT 100 INJURED Regular N.Y. Passenger Train Crashes Into an Excursion Train

17 KILLED IN A COLLISION

New York, July 10.—Seventeen persons were killed and about 100 were injured in a collision which occurred at Midvale, N.J., just before noon today, when a regular passenger train on the Greenwood Lake branch of the Erie Railroad ran into an excursion train which had stopped to take water. All of the dead and injured lived in

The accident is believed to have resulted from a tower operator having lowered his signal too soon, and this was admitted by D. W. Cooke, general

was admitted by D. W. Cooke, general passenger agent of the Erie Rafiroad, who gave out a statement, in which he said: "The operator in the tower failed to set the block signal against the train following."

The train which was run into was a special carrying members of the First Plattdeucher Association of Hoboken on their annual outing, and had 800 passengers. The train consisted of twelve cars and two engines. The first engine had taken water and the train had moved up and stopped with the second engine beside the tank when the regular train drew near.

The flagman of the special signalled the engineer of the oncoming train, but owing to a curve in the road his flag was not seen until too late. It is claliued that the engineer of the regular train had slowed down to about ten miles an hour before he crashed into the special, but his engine tore thru the rear car the greater part of its length and drove the forward end of that car into the car ahead. The killed and injured were in these two cars.
