FOUNDER AND MANAGER, John Cameron.

London, Monday, January 24, 1898.

## East Middlesex.

Representative Liberals of East Middlesex met in convention in London on Saturday, and, after considering all the circumstances, agreed that it would be wiser to postpone the convention until next Saturday. This was deemed the more discreet as the Patron convention meets this week, and it was thought well to survey the whole situation carefully before arriving at a conclusion.

The convention on Saturday was the largest held in East Middlesex for many years, and was a good indication of the interest and enthusiasm in the cause prevailing throughout the riding. The extent to which the convention was not a success, paradoxical though it may seem, arose from the very success of the gathering itself. It happened this way: Arrangements had been made for an ordinary convention at the Liberal club rooms, but the attendance proved so unexpectedly large that it was found impossible to get the people into the building, so that at very short notice the Grand Opera House had to be engaged. Into that large hall, the members of the convention poured, accompanied, as was natural under the circumstances, by a considerable number of political opponents and reporters of newspapers opposed to Liberal success.

For the unexpected overflow of attendance and enthusiasm the officers of the East Middlesex Liberal Association had in any sense been held responsible. What, however, is absolutely necessary if they desire to have the opportunity for proper consideration of questions coming up at their next meeting, and also to prevent annoying interruptions arising from the presence of political opponents, is that proper arrangements be made in good time to secure a place of meeting where the delegates may meet in the usual way, and where the accustomed scrutiny of those having the right to participate may be made.

The decision to withhold for one week final decision as to a candidate was, under all the circumstances, undoubtedly wise. By a prudent course, it ought to be possible to defeat the Opposition nominee by as large a majority as was given to the Petron-Conservative candidate in 1894.

## The New Senator.

Mr. R. Dandurand, of Montreal, who has been appointed to the Dominion Senate, was during the last four general elections one of the chief organizers of the Liberal party in the district of Montreal. He is one of the youngest Senators, having been born in 1861. He is author of a work on "Criminal Law," and a "Manual for Justices of the Peace," and was president of the Club National in 1885. In 1891 he was decorated a knight of the Legion of Honor of France. Mrs. Dandurand, his wife (nee Josephine Marchand), is an esteemed authoress and vice-president of the National Council of Women. She is a daughter of Premier Marchand of Quebec.

## Fair Play for Premier Hardy.

There is a strong feeling throughout the Province that it is only a matter of fair play that Premier Hardy and his Government should be sustained in the ensuing contest.

Mr. Hardy has represented the constituency of South Brant continuously for a quarter of a century. Again and again opposition has been organized against him. At one time a Conservative has been put up, than an "Independent," and then some other stamp of opponent; but never once has the honorable gentleman been defeated. Where he is best known his sterling qualities as a man and as a statesman have been most fully recognized, and in the present contest it is asserted with confidence that his majority will be larger than ever.

Though he was one of Sir Oliver Mowat's most trusted lieutenants, an able and hard-working administrator of several departments, a worker for the advancement of the interests of his native Province at all times, the deviser of some of the best laws on the statute book, Hon. A. S. Hardy has been Premier for but eighteen months. In that capacity he has certainly begun well. Political friends and foe alike concede it. Therefore it seems just that he should be given a longer trial, for his many estimable qualities as a leader, as a promoter of means to advance the interests of this fair Province, which has been so well governed by the Ministries of which he has been a member.

## Commercial Travelers and the Prospects.

A Conservative contemporary gives currency to the statement that certain commercial travelers are reporting that the outlook for the Opposition in the coming Ontario elections is brighter than for the Government. No doubt such reports are put in circulation, but if they are viewed in the proper spirit by the friends of good government they can do no harm, as they are ill-founded.

Our readers will remember that these commercial travelers who are now predicting the defeat of the Ontario Government were just as certain that the Liberals would be hopelessly defeated on June 23, 1896. But they were proved the veriest of false prophets. The fact is that commercial travel-

ers, like other sections of the community, are divided politically, and the Advertiser representatives have found the majority of travelers returning from the rural constituencies ready to acknowledge belief that the Government will be sustained by a handsome majority in the ensuing contest. That Traveler Wm. Gray, president of London Conservative Club, and those of a similar stripe of politics, return with a different story, and see nothing but defeat for the Liberals, is no evidence on which to base an estimate of the probabilities.

At the same time, we desire to impress upon the friends of the Administration that their opponents are working with the energy of desperation, and that Liberal success must be achieved by thorough organization and early attention to every needed precaution.

It behooves every elector of Ontario who is grateful because the great northwestern section of the Province was fought for and retained by the present Administration, and who prize the good government carried on so successfully by the Liberal Ministers now in power, which has been the remark of the civilized world, to buckle on his armor.

## In Lambton.

The Sarnia Post, a no-party journal, has this to say of the prospects in Lambton county:

"Considerable of a change has come over the vision of the dream of the average Lambton politician within the fortnight, brought about mainly by the action of the East Lambton Conservatives, with the result that in both ridings the Reform candidate will likely go in hands down."

Our information is that Messrs. Pardee and Pettipiece will be elected by handsome majorities in any case. If their friends put up the necessary work for them, there can be no doubt of their triumph. The Lambtons were lost to the Liberals at the last general election by a "hulk." They will be into line for good government this time.

"The Gentleman Who is Going to Die" is the caption for a forthcoming story in the Ladies' Home Journal, by Clara Morris. Talk about cleverness in titles, what magazine is such a past-master in the art as the Ladies' Home Journal? And a newspaper man knows how difficult this art of title-making is. But nothing is so valuable in attracting the eye of the public.

Dr. Nansen will contribute an article to the February number of McClure's Magazine, giving his ideas and hopes for the future of North Polar exploration. As no other man has yet got so near the Pole, by 195 miles, as Dr. Nansen himself, with his companion, Johansen, everybody will be eager to read what he has to say on this subject. The article will be fully illustrated with photographs and drawings from life (most of them hitherto unpublished), by Nansen, Greely, Peary, the Arctic artists, William Bradford and Albert Opert, and others.

Mr. Russell Sturgis, the eminent architect and architectural writer, contributes to the February Atlantic an article upon the "Education of Architects," which is of great general interest, and will attract widespread attention. He takes very good ground as to the decadence of the art at the present time, claiming that practically nothing has been done since the beginning of the century that is worth preserving, still less studying and imitating.

A BREED THAT WILL REMAIN. If you want a good speculation buy monkeys. The African monkey is giving out—London Advertiser.

But the men who make monkeys of themselves are in no danger of immediate extinction.—Ottawa Free Press.

## COMMENT SUPERFLUOUS.

Messrs. Whitney, Matheson, St. John & Co. asserted on public platforms quite recently that there would be a deficit of about \$500,000 in the government accounts ending Dec. 31, 1897. The balance sheet now published shows a balance of \$372,172 over expenditure. Comment on our part is needless.

## CAUSE FOR SATISFACTION.

[Ottawa Free Press.] The London Advertiser not unreasonably refers in a jubilant tone to the fact that for the first time in the history of the city there was no suburban elections this year. The last of them had come in and formed a grocer in London. It may reasonably be hoped that the same will ere long be recorded of Ottawa. A necklace of village municipalities carries with it elements of public danger from the sanitary standpoint, as well as injustice. These suburbs benefit by the advantages offered by the city without any of the responsibilities and cost.

## EXPLAINED TO EDITH.

[New York Press.] Rev. Edith Booker is delivering a lecture through Kansas on "What is Man?" A man, dear Edith, is a tender, shrinking creature, whose wide fawn eyes look out into the great world about him with startled inquiry—an innocent, trusting dove, nestling upon the neck of a hard world—a sweet field flower, lifting up its face for the sunlight of your womanly affection. That is what a man is, Edith. You yourself are the sturdy oak. Don't forget that.

## NEW NAMES FOR THE SAME OLD THINGS.

[New Orleans Times-Democrat.] "New names for old things," remarked a gentleman yesterday, "are the order of the day. There are from time to time heavy rainfalls in this country, which in the old time were characterized as 'downpours,' or something of that kind. Now, however, we hear of 'cloudbursts' everywhere. Every time a mill creek overflows or a hay drop gets suddenly spoiled, it is attributed to a 'cloudburst.' People have been dying from the stoppage of the heart's action since the beginning of mortality, and yet it is but recently that we began to hear of 'heart failure.' A heated term is now produced by the doctors cannot understand the doctors' 'Bright's disease,' and living cheaply in summer is called 'going into the country.' The nomenclature is different, but the old things are the same."

One day recently while Mr. Eli Snell, of Exeter, was sharpening a saw in the bush, the saw suddenly slipped, and in attempting to catch it he sustained a cut on the back of the hand. The wound was apparently trifling, but in a few days it became very serious and turned to blood poisoning, threatening serious results. Fortunately, Mr. Snell's hand was saved.

Mr. M. T. Burn, the Hilsburg poultry fancier, attended the Brantford Poultry and Pet Stock Association. He secured 50 prizes in 12 sections and 5 birds. There were 800 entries, and he secured two special prizes, one for the best silver-colored cock, and one for the highest scoring bird in the show.

A young boy named Sholtz, went into the electric light station at Watford recently, and backed up against the switch-board. His coat was damp, and he received a shock that rendered him unconscious, and the current ran down the other side of the room. The boy has several burns on his back. Every light connected with the circuit was put out by the contact.

The Essex county council will build two steel bridges this year at a cost of \$1,800—one over the Canada River and another over the second section of the Kent river. The latter bridge will pay half the cost of the latter. It also proposes to assume proprietorship of the toll road in the opinion of the council, forfeited its charter by neglecting to keep the roads in good condition.

Stratford has lost an esteemed and popular young business man in the person of F. F. Foley. Mr. Foley was a partner with Thomas Hilday, Jun., in the firm known as the Stratford bridge and iron works. On Monday last he became very ill, and died at his home, after a short illness. The cause of death was malignant scarlet fever developed. He passed away at the early age of 29 years. He leaves a young widow, who has the sympathy of all in her sad affliction.

At Tilsonburg, on Friday, a serious runaway occurred. Mr. James McConarty, a farmer, was driving over the overhead bridge that crosses the G. T. R., when his horse became frightened and unmanageable. The animal swung off the main street, and overturned the sleigh. Mr. McConarty and his daughter Josephine were thrown out. The old gentleman clung stubbornly to the lines, and was dragged for some distance, until he struck some obstruction, and was rendered unconscious. He was severely bruised and sustained some flesh injuries on the head and face. The young lady escaped unhurt.

Two years ago George Whitel, of Ridgegton, lost a handsome black robe which he had purchased for \$16. It was taken from the church sheds in town, on Thursday last, and Colman Ferguson went armed with a search warrant and discovered his missing robe at the residence of one Newcombe, at or near McKay's Corners. The possessor of the robe had it relined, and the former lining put in a blanket. Before George Watson, Whitel swore to his robe, and the defendant, Newcombe, said he had bought the robe from one Allen, near Duart. Mr. Watson gave the prisoner ten days to prove how he came into possession of the robe.
