The business for the year shows marked improvement. Deposits have in- creased by over fifty per cent. (50 per cent.) The branches are all making en- couraging progress; several branches, however, are not yet self-supporting, and it has not been deemed wise to open any new offices during the year. A dividend of one per cent. for the past three months has been declared, payable 2nd January, 1909. The head office and branches have been carefully inspected, and the officers. have discharged their duties satisfactorily. All of which is respectfully submitted. SAMULE EARKER, President. Considering the heavy deliveries a week, there was a fair trade. P. Bickell & Co. say at the close: Wheat-Wheat was dull, but the under- one was strong, leaders apparently add- ag to their line on all slight recessions. Receipts are running light, and cash pre- mium is well maintained. A scaiping market will probably be experienced tem- porarily. The situation is a strong one, and on breaks buy it. Erickson, Perkins & Co. wired J. G. Beaty, 14 West King-street, the follow- ng: Wheat-Demand was urgent to-day on several occasions, indicating continued un- easiness on the part of shorts. It was not as persistent, however, as it was the day	PROFIT AND LOSS ACCOUNT. 31st December, 1908. J. R. Heintz & Co, wired R. B. Holden : Wheat-There is a large short interest in wheat; in fact, much greater than the majority of traders have any idea of, and on any favorable news would cause a scramble to cover. Corn-The country offerings are increas-ing a little but we don't believe they will be large enough to cause any ma-terial decline, and on the setbacks favor buying some corn.
