The gli exhibited by this issue has reflected by such stocks as New Central Rock Island, Baltimore Central, Rock Island, Baltimore tio, and in the industrial section Central Leather, Republic Steel, son-Chalmers and others, all of the have made new high prices durthe last few days, and this has had not influence on the whole market. The continued easiness of money, which has given no signs of hardening, has also had an effect all its own on sentiment, low rates of interest in the majority of cases being more than counterbalanced by the dividend returns at present quotations.

The most outstanding incident of the week was the declaration of the quarterly dividend of % of 1 per cent. on the common stock of the Steel Corporation, heads common stock of the Steel Corporation, placing this stock on a 3 per cent. basis, an increase of one per cent. from the former refers While centification of the Steel Corporation.

The firm tone displayed by the Steel issues later in the week amply justifies the opinion that speculators and traders, who have accumulated large holdings in the recent past, are perfectly willing to retain this stock, until better prices at least are realized.

While we cannot advise permanent investments at this level we do not hesitate to express the opinion that the market will continue on its upward trend for a considerable period.

Still another outstanding feature of he week was the reaching of the coveted "double-par" mark by Union Paci-fic. This stock has exhibited consider-

made. Strength in the Canadian securities has been in past due to the buoyang that has marked operations on Wall Street recently, and to the increased purchasing power of the local market. Trading has been somewhat restricted, but a good undertone has been in evidence through and the week like the definition of the tariff and by the fine crop prospects. Realizing sales by the professional element tended to check the advance, it being inferred that some inside selling as well was going on, but renewed buying the following is a compari

ATTACKS BROTHER MINISTER

ATLANTA, Ga., Aug. 1.—Representative Slade, a Baptist minister, astounded the members of the state legislature by an attack on what he temperated "long-haired, loud-mouthed prohibition extremists," whose attacks on the liquor traffic "did more to harm the temperance cause than all the distillers in the world."

The cause of the attack is said to be rumors concerning the relations of a certain high government official with Nodarse's wife. The publication of a scandalous cartoon to-day is believed to have induced Nodarse to attack Torriente.
