The "London Last" Oxford is very
popular with men having rather long, narrow
feet, or men who favor the more conservative
type of shoe.

THE T. EATON CO LIMITED

SOUTH AFRICANS TO HOLD CENTENARY

Residents of Toronto to
Honor Famous Arrival of
British Settlers.

Among the thirty residents in Toronto who have signified their readiness to take part in the celebration of the hundredth anniversary of the arrival of the famous British settlers' expedition in Cape Colony on April 10, 1820 are representatives of Cape Town, Kimberley, Pretoria, Port Elizabeth, Durban, Stellenbosch, Beaufort West, Basutoland and other parts of the South African Union. The influence of this historic movement upon the church and civic life, and upon the commercial and political conditions of the Cape, makes it one of the finest illustrations of the colonizing genius of the British people. It was one of the earlier, if not the earliest, emigration schemes fostered and financed by the British house of commons. There were many features of likeness and contrast with the Pilgrim Fathers and centuries earlier, in 1620. The former South Africans now in Toronto are warmly interested in the local celebration. It is expected that the celebration will be a grand one, and that the South African delegates will be exchanged at the celebration. The commemorative address will be spoken by Rev. Dr. Alfred Hall, formerly of Port Elizabeth, who has lectured South Africa lecturing on the "Cape story." Former members of the Cape Government railways and the Cape service staffs will be present at the celebration. General Smuts has sent a message to the celebration committee in Grahamstown, the settlement in Cape Province, near

the original site of their allocated district in Albany.

PAYMASTER SENTENCED ON CONSPIRACY CHARGE

Evidence was resumed in the charges preferred against Capt. Daniel T. Booth and Russell L. Parr, of conspiring to defraud the government of Canada, before Judge Coatsworth and a jury in the sessions yesterday. Booth, who pleaded guilty on Tuesday, was sentenced by Judge Coatsworth to six months in jail on the conspiracy charge. Sentence was not to have been pronounced for two weeks, but as Booth could not be a witness in the Parr case, this was done yesterday. The prosecution alleged that there was systematic padding of the books and returns connected with the administrative office of the soldiers' fund re-establishment on Spadina avenue, where Booth was paymaster and Parr was medical officer. Parr's defence is that all the signatures on the certificates are not his, and that they are forgeries. Booth, in the witness box, gave evidence as to how Parr, a man named Wilson and himself co-operated to withdraw certain files of men not likely to have later treatment or to come for pay or allowances. Wilson passed the certificates, Parr authorized them, and Booth issued the cheques. The hearing was adjourned till tomorrow.

CALLAGHAN OWNS CHICORA.

Mr. Justice Orde has decided that Frank W. Callaghan owns the steamer Chicora absolutely, and not as trustee for Fred Torno, who brought action against Callaghan and others to have the boat for him. Torno pays all costs.

LEGISLATURE NOTES

H. H. Dewart asks what was the nature of the legal services re Nicu Steel Corporation, for which the firm of Tilley, Johnston, Thompson & Partners were paid \$1671.50. Mr. Lang wishes to know who is F. M. Stafford, in respect of whom the public accounts show that he was paid in the year 1918-19 the sum of \$15,759.34 for materials furnished for use at the Industrial Farm, Burwash. Col. Cooper (Toronto) wishes to know the names of all deputy ministers, chief clerks and clerks, who, during the calendar years 1916, 1917, 1918 and 1919, applied upon medical certificates for leave of absence from their duties. Mr. Stover inquires: Is it the intention of the government to open government liquor dispensaries at such central points in the province of Ontario as St. Thomas, Welland, Barrie, Peterboro, Belleville, Kingston, North Bay and Sudbury? Mr. Hall, Parry Sound, wishes to be informed whether orders-in-council approved by the lieutenant-governor, legalizing the payment of the sum of \$40,000 by the Canadian Copper Company (now the International Nickel Company of Canada, Limited) for any year or years in lieu of the amount as provided by the mining tax act and amendments thereto, or under the agreements entered into by the minister of lands, forests and mines during the month of December, 1913. Mr. Pinard asks what were the professional services for which the Pinkerton National Detective Agency was paid the sum of \$156.92, in connection with the Meredith commission? Premier Drury assumed an air of injury in the legislature yesterday, when crawling out of a wrong position with regard to the appointment of Justices Riddell and Latchford to investi-

gate the department of lands, forests and mines. He admitted that the commission had been appointed two weeks ago—March 9. But he complained of the announcement of it in the press, and said of the source of leakage he had no knowledge.

The judges have, as a fact, been at work two weeks on the inquiry entrusted to them. Mr. Drury's annoyance apparently was assumed to cover a retreat from his extraordinary admission that he had appointed a secret commission.

H. H. Dewart called attention to a newspaper report of the appointment of Justices Riddell and Latchford to investigate the records of the department of lands, forests and mines. He said the announcement was definite. He did not wish to embarrass the government, but if the announcement was an official one, asked is this the way the government chooses? Premier Drury: It is not by any means a correct announcement. It is the sort of newspaper announcement we have been treated to for the past couple of months, and from which we have all suffered. I have no idea how that announcement found its way into the press. To show how inaccurate the report is, I have today ordered the publication of the order-in-council which was issued two weeks ago. It will explain to the public exactly the scope of the commission.

He laid a copy of the order-in-council on the table. In answer to a question, Hon. Peter Smith said he had no idea when he would announce his budget. J. W. Curry said he had received no notification that he had been appointed chairman of the public accounts committee.

Kingston.—(Special.)—Mrs. Sparks, wife of Dr. R. E. Sparks, for many years very prominent in church and social welfare work here, is dead, following a lengthy illness.

REAL ESTATE NEWS

The Ontario Association of Architects have raised their fees and the new scale will be as follows:
1. In the case of factories and large plain buildings involving no detailed interior finish, five per cent. of the total cost, in place of the former charge of four per cent.
2. In the case of public buildings, office buildings, warehouses, banks, and ordinary buildings, six per cent. in place of five.
3. In the case of residences, from eight to ten per cent., according to the amount of special detail work required, in place of the former charge of from seven to ten per cent.
Max Wall has sold to Samuel Yermainsky the properties at 93 and 103 Parliament street, having a frontage of 112 feet, for \$12,000.

Mr. J. F. Nieser, representing the Arco Company of Cleveland, is in Toronto arranging for the opening of a manufacturing plant here, which will, it is expected, be operating within 30 days. The company has leased a couple of buildings of the old Central prison property but they are already negotiating for a ten-acre site on which to erect a permanent plant. The company uses millions of pounds of asbestos a year from the Theford mines, and the difficulty in getting supplies from the mines was one of the chief reasons for opening in Canada. Owing to the car shortage here Canadian cars are not allowed to cross the boundary at present. When fully established the company will manufacture here for the export trade. They manufacture chiefly, paints, varnishes, enamels and roofing cements, and are now exporting to 27 countries. The manufacturing of iron

barrels for the shipment of stocks will be a subsidiary industry of considerable magnitude.

MILK PERMITS WERE CANCELED BY AUTHORITIES

The city health authorities since February 10 have canceled the permits of 35 persons who were shipping milk to Toronto, on the ground that their shipments were dirty, diluted and of poor quality. Out of 161 cans tested on Wednesday only three were returned to the shippers, and on the day previous three cans were so bad that they were dumped into the sewer. The department recently caught a western shipper both watering and skimming his milk and his permit has been canceled. The latest records of average milk supplied Torontonians are as follows:

	Butterfat	Solids
Wholesale	3.39	11.77
Retail	3.35	11.68
Certified	3.87	12.74
Restaurant	3.57	12.03

The standard for butterfat is 3.25. Average supplies therefore show a slightly higher percentage of butterfat than the standard, but in solids they fall slightly below the standard of 12 per cent.

BLOOR STREET LAND INCREASES

Assessment Commissioner Forman has reported that the high school site on Bloor street has a valuation of \$23,733, or \$900 per foot frontage, which is 299 feet 8 inches by an average depth of 720 feet. He states that there is a gradual enhancement of value taking place on Bloor street; its potential value is entirely a matter of speculation, and the further enhancement of the land will depend upon the early improvement of the present Bloor street. The assessment of the high school site last spring was \$106,788.

HOUSING GUILD IS QUITE POPULAR

Building Trades Council
Likely to Endorse It on
Monday.

The new idea of a housing guild, subject of comment for some time past, is becoming a factor to be reckoned with in the minds of Toronto's citizens. The policy committee of the Toronto Building Trades Council has recommended on the project to the council itself. The council will take action in the matter at its session next Monday night. John Doggett, a well-known official of the council, stated yesterday afternoon that this was a project which would do more to solve the question of "homing" the citizens of Toronto than anything yet undertaken. "If properly carried out the scheme will tend to unify the work of construction," said Mr. Doggett. "It will also serve to give work during the lean months of the year in this way, that while one set of homes and stores is being completed another set can be partly done, by say, next November, all the inside in the remaining buildings being ready for the late fall months. For instance, we might take as a suppositious case the erection of 1,200 houses during the next twelve months. Six hundred of these could be completed by say the beginning of November and another six hundred partly completed. During November, December, January and February, much inside work could be done on these, and by the following May the 1,200 could be completed. I am not saying this would be done, I am merely pointing out the benefit of the scheme, which is, I am sure, patent to everyone."

Kingston.—(Special.)—The thimble who have been getting seventy cents an hour, put in a request to the bosses for sixty cents, and the bosses for fifty cents, and the thimble for forty cents.
