### Kuropatkin Expected to Attack Ovama Ere Nogi's Veterans Can Re-Enforce Him.

St. Petersburg, Jan. 8.-General Kuro patkin reports the frustration of a Japanese attempt to surprise his centre front on the night of Jan. 6. and the hayoneting of twenty-one Japanese the night of Jan. 3 by a cavalry recommaissance in the valley of Taitse River, in the direction of Sianchan.

It is expected here that the czar will order Kuropatkin to take the offensive immediately before Nogi's veterans can join the Japanese forces on the Shakhe, and at any expense to gain some success to offset the effect of the less of Port Arthur upon the Russian Such instructions will place Kuropatkin in a most difficult position. The severity of the winter in Northern Manchuria makes extensive miltary operations next to impossible, even with troops having the best equipment It is known that the Russian army is suffering great deprivation of such necessaries as boots and overcoats, owing wholesale robberies of supplies and a battle fought solely for pontical reasons would be with advantage strongly on the side of the Japanese.

### LEFT FOR PORT SAID.

Suda Bay, Jan. 8. -Vice Admiral Bosky's division of the Russian sectors of ond Pacific squadron, consisting of the cruisers Oleg, Izmrud, Dnieper and Rien, and the torpedo boat destroyers Gromski and Rezity, which had been delayed in Suda Bay, left this after-noon for Port Said.

# ONE CENT IS HUGH BLAIN ELIGIBLE

## Firm of Eby, Blain Co. Figures in Public Accounts to Extent of Thousands of Dollars.

The question of the eligibility of Hugh Blain as a candidate in the Ontario elections has arisen, owing to the alleged existence of a contract between the government and the firm of Eby, Blain Co., of which Hugh Blain, the government candidate in North Toronto, is a member. It appears from the public accounts of the province that Eby, Blain Co. have been beneficiaries of the government for some years past, to the extent of thousands of dollars, and this contract, it is held, destroys the independence of the member, should he be elected to represent North Toronto in the legislature.

The statutes are quite explicit on this point. Section 9 of chapter 12 of the Revised Statutes of Ontario reads as joying, undertaking or executing directive or indirectly, alone or with any other, by himself or by the interposi-

tion of a trustee, or third party, any contract or agreement with his ma-jesty or with any public officer or department with respect to the public service of Ontario, or under which any public money of Ontario is to be paid for any service or work, matter or thing, shall be eligible as a member of the legislative assembly, nor shall he sit or vote in the same." Sub-section 2 of section 10 of chapter 12, R.S.O., also touches the eligibility of candidates in these words:

"Nor is any person ineligible nor shall any person be deemed to have been ineligible as aforesaid by reason of his being or having been a share-holder or stockholder in an incorporated company, having any such contract or agreement as aforesaid; unless such contract or agreement is for the building of a public work for the province, or such person is a shareholder or stockholder for a sum ex-ceeding \$1000 in a company having a contract or agreement os aforesaid for the supply of goods to any of the public institutions of the province which are under the management of the government or of any department thereof, or for the supply of goods to the king's printer or for any depart-
