

the Delegates from Nova Scotia, and report thereon at the next meeting of the Association, and that, in the mean time, they be authorized to act in conjunction with the aforesaid Delegates, as an Executive Committee, for the purpose of carrying out such objects as may be jointly agreed upon.

RESOLVED, That the above Report be adopted by this Association.

The Committee on Domestic Missions report, That all the places from Bay Verte to the Restigouche River, a distance of about 300 miles, and from Tobique to the head of the Saint John River, a distance of about 150 miles, and likewise from the River Saint John to Saint George, are destitute of the preaching of the Gospel, and with the Islands of the Bay, form a very inviting field for Missionary labor. They recommend the Town of Saint Andrews to the notice of the Association; and further recommend that Missionary Meetings be held within the limits of each Local Board as often as every three months, and that collections be taken at every such Meeting for Missionary purposes.

The following Domestic Missionary Report from the Treasurer of the General Board, was then received:—

The Rev. J. Blakeney, and Brethren M'Adam and Miles have been employed by the General Board, in accordance with arrangements made at the Association last year, to labor in the Northern part of the Province. The former has labored for 43 weeks and 5 days; Brother M'Adam, 6 months; and Brother Miles 20 weeks and 4 days, in that neglected region. A reference to the Accounts will shew the amounts collected by them while on their Missionary tours, in aid of the Funds of the Board, and also the sums received from other sources towards sustaining those Missions.

The Reports of these Missionaries shew that their pious and faithful labors have been signally owned of God in the conversion of sinners, and in the general advancement of the cause of the blessed Redeemer in the several places where they travelled.

Through the instrumentality of these Missions one new Church has been organized, 85 persons have been baptized, and it is hoped that many precious souls have been savingly converted to God.

The Report of the Fredericton Board shows that a good degree of activity, and a considerable amount of Missionary feeling exist in that section of the Province.

Twenty five weeks of Missionary labor by Ordained Ministers, and 10 weeks by Licentiates, have been performed under the supervision of the above Board, and there is reason to believe the labors of the Missionaries have been blessed. The Quarterly Meetings have been regularly attended to in this district, and proved deeply interesting. They have produced union of feeling and action among the Ministers and Churches, and had a strong tendency to increase Missionary efforts among the people generally.

The Treasurer's Account of the Saint John Board shews that 15
