

RETURNS \$200 TO BOARD OF HEALTH

School Health Inspector For Parish of Simonds Says He Did Not Earn It

The outstanding feature of the routine meeting of the board of health yesterday afternoon was the return of a check for \$200 by Dr. J. R. Nulsen to the board of health of the parish of Simonds. The young physician said he could not conscientiously accept the stipend as he felt he had not rightly earned it. Fortunately this parish has had a pretty clean bill of health during the late term and the doctor's services were not in demand. This commendable action establishes somewhat of a precedent in health official circles and it was with a special kind of thrill the meeting was advised of the inspector's decision. In other parishes, however, physicians have put in considerable time most effectively in checking up the children and their bodily well-being and are therefore justly entitled to their allowance.

It was disclosed by the report of Dr. Mabel Hanington, medical inspector of schools for the city, that during a scattered few cases of chickenpox the health situation among the eight thousand scholars is quite clear and satisfactory. The average number of disbursements from school and re-admissions were noted.

Mr. Edmund Flewelling, whose duties take her among the shops and other food centres, hotels and restaurants, reported a tendency on the part of some bakers to disregard the bread-wrapping regulation in the retail stores. This is as contrary to the law as if the bread were being delivered about the town and is sometimes just as dangerous to public health. There are no half measures in the regulation and it was intimated that persistent violators may some day receive an unpleasant surprise. Several notably flagrant cases of badly kept stores and unprotected perishes in food have been cleaned up to the satisfaction of the inspector and the public. The educational campaign along these lines is bearing much fruit after a year of rotating visits it was reported.

Miss S. E. Brophy, nurse for the St. John Society for the Prevention of Tuberculosis, made her usual monthly statement which showed that there are 208 regular patients enrolled, 103 under observation and that 207 visits have been made. Two patients were sent to the County Hospital and two to the River Glade Sanatorium in accepting this report, the members of the board discussed the possibility of overlapping in some of these visits.

Dr. T. Fred Johnston, dairy, food and slaughter house inspector, gave figures relative to visits to milk producing farms in the country and of the drastic measures now in process of enforcement, relative to manure heaps and other unsanitary farm drawbacks adjacent to cattle barns. Dr. Warwick, sub-district health officer, observed that offending milkmen had been warned that, after subsequent inspections, these bad practices of long standing must cease or licenses would be revoked.

During the month of December there were sixty deaths in the city of St. John, sixteen of which were due to chickenpox and ten of tuberculosis.

In the child welfare department of activity, as carried on by the Victorian Order of Nurses, there were a total of 913 visits in December, classed as among breast-fed and bottle-fed babies, kindergarten children and expectant mothers. There were eighty-seven clinics and forty milk tickets were given out.

Dr. H. L. Abramson, provincial bacteriologist, gave the monthly drinking water tests as satisfactory.

The St. John Association for the Prevention of Tuberculosis sent a copy of its estimates for the year and appended a request that the board of health set aside \$1,200 for two nurses, or a contribution towards the maintenance of such.

No action taken.

The Royal Sanitary Institute of Great Britain, through the mayor and civic council, sent an invitation for health board officials to attend their great congress next summer. It is to be held in Bournemouth, England.

Two wells in a residential location, West Side, about which there has been some neighborhood contention, were ordered placarded with official notices of a warning character.

Those present were John Kelly, chairman; Mrs. R. J. Hooper, W. H. Golding, Dr. William Warwick and the secretary, T. M. Burns.

MOTHER!

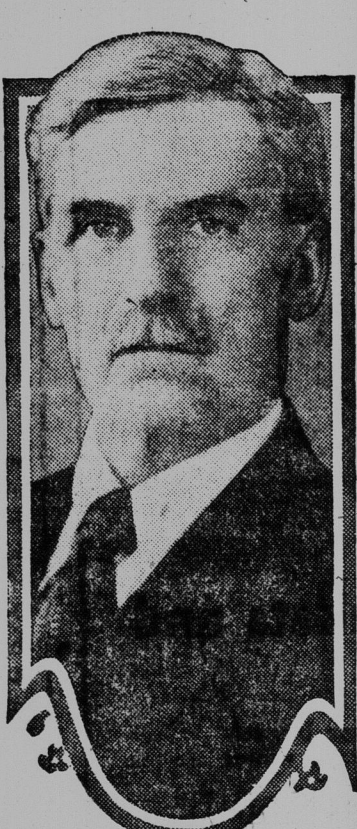

Your Child's Bowels Need "California Fig Syrup"

Hurry Mother! A teaspoonful of "California Fig Syrup" now will thoroughly clean the little bowels and in a few hours you have a well, playful child again. Even a cross, feverish, constipated child loves its "fruity" taste, and mothers can rest easy because it never fails to work all the sour bile and poisons right out of the stomach and bowels without griping or upsetting the child.

Tell your druggist you want only the genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother, you must say "California." Refuse any imitation.

USE The Want Ad Way

HERMAN KURTZISCH, Milwaukee, Wis.

"When it comes to eating, working and sleeping I'm like a different man from what I was a short time ago," said Herman Kurtzisch, 406% Nuria Place, Milwaukee, with the Northwestern Life Insurance Co., in relating his experience with Tanlac.

"My whole system was about to give way as a result of two years' constant suffering from stomach trouble and I was hardly able to work. I actually dreaded to eat, as after every meal I suffered so terribly from heartburn, and I was so nervous I got little rest day or night. 'If it hadn't been for Tanlac I'm firmly convinced I would have had to resign my place. It came to my aid in the nick of time and I am strong for it. Tanlac was worth at least fifty times what it cost me.'"

Tanlac is sold in St. John by The Ross Drug Co. Ltd., and F. W. Munro, and by leading druggists everywhere.

Home-made, but Has No Equal For Coughs

Makes a family supply of really dependable cough medicine. Easy to prepare and saves about \$2.

If you have a severe cough or chest cold accompanied with a sore throat, throat tickle, hoarseness or difficulty breathing, or if your child wakes up during the night with a cough, you can get quick help by trying this reliable old home-made cough remedy. Any drug store will supply you with 3/4 ounce of Pinex. Pour this into a 16-oz. bottle with a stopper. Fill the bottle with granulated sugar syrup. Or you can use clarified molasses, honey, or syrup. Instead of sugar syrup, if desired. This recipe makes 16 ounces of really remarkable cough remedy. It tastes good, and in spite of its being quick and lasting relief.

You can feel this take hold of a cough in a way that means business. It loosens and raises the phlegm from the throat and soothes and heals the irritated membranes that line the throat and bronchial tubes. With such promptness, ease and certainty that it is really astonishing. Pinex is a special and highly concentrated compound of genuine Norway pine extract, and is probably the best known means of overcoming severe coughs, throat and chest troubles. There are many worthless imitations of this mixture. To avoid disappointment, ask for "2 1/2 ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Toronto, Ont.

PROMOTIONS FOR FORD OFFICIALS

M. F. Smith, who for the last eight years has been manager of the Ford Motor Company of Canada Limited, for the maritime provinces and Newfoundland, in charge of the offices and plant in this city, has received an important promotion which will cause his removal to Ontario within a short period. His many friends will be glad to learn of his promotion but will regret that it means his departure from St. John. Mr. Smith will be succeeded as manager here by J. C. Ruske, sales manager, for the company in this territory, who also is receiving warm congratulations on his promotion. Mr. Ruske is the first St. John man to fill the office of manager.

EAT HEARTILY WITHOUT DREAD

Eat Anything You Like and Don't Worry—Stuart's Dyspepsia Tablets Relieve Sour Stomach, Belching, Gas and Acid Conditions Due to Indigestion.

Simply Chew a Stuart's Dyspepsia Tablet After Meals—They Taste Good.

No matter what you eat or drink, even though it be just a glass of sweet milk, the stomach may rebel and sour almost immediately. In such cases one of two Stuart's Dyspepsia Tablets furnish the alkaline effect to offset the acid condition. Quite often the stomach may be overworked with partially digested food.

A cold bottle of beverage at such times may add to the difficulty and there is gasiness, a bilious taste, and other distresses due to indigestion. Travelers may save themselves much of the discomfort of wayward eating by having a box of Stuart's Dyspepsia Tablets with them as they can be had in almost any drug store throughout the U. S. and Canada.

ANNUAL REUNION OF 26TH OFFICERS

The second annual reunion of the officers of the Fighting 26th Battalion, C.E.F., was held last night at the Victoria Hotel. Lieutenant Colonel Alexander McMillan presided and there were forty-five officers in attendance from many parts of the battalion. The dining hall was tastefully decorated for the affair.

A programme of toasts and songs was carried out as follows:—King, proposed by the chairman; "Our Departed Comrades," by W. A. Macdonald, Deloitte (N. S.); recitation by George B. Hallett, Hamilton; "Our Old Brigadier," by H. G. Woods; "The Ladies," proposed by H. G. Woods; "The Simonds of Montague (F. E. L.), responded to by Graham McKnight, of Douglastown, and W. Patterson. In addition, there were songs and choruses by the company.

Rev. Father MacGillivray, the 26th's chaplain, was on hand and gave a short speech. The gathering broke up at a late hour with the singing of the National Anthem. Those present were: G. G. Anglin, E. C. Armstrong, W. Birrell, W. J. Brooks, J. B. Dever, C. P. Gramman, G. G. Anglin, H. W. Hoare, George Keefe, E. V. Kierstead, C. D. Knowlton, C. F. Leonard, A. McMillan, J. L. McEvity, P. D. MODEL LESSON TO BOY SCOUTS

Lord Byng Presides at Demonstration in Ottawa.

On last Friday evening in his office at Rideau Hall, His Excellency the Governor General, who is the chief scout for Canada, took charge of a class of seven patrol leaders for the purpose of giving a demonstration of methods of instruction and training in scouting. Lord Byng believed in enlisting the intensive attention of boys for short periods at a time.

Consequently there were three 10-minute "alert" periods of concentration with at least times in between. Making a field map on a blackboard, defining and placing the points of the compass, tying knots and illustrating a few forms of setting up exercises, were all in the hour's programme. After any one of the patrol leaders was taught some new activity or idea, he was at once put to teaching it to another boy. A number of men who are actively interested in boy's work were present by invitation to observe the model lesson. After these were over Lady Byng received the company for tea. "To build up the nation in its boys and girls" is one of the slogans of the Byngs.

YOUNG JUDEANS' SOCIETY.

The Junior Young Judeans' Society met on Monday at the home of L. Niman, 48 Lombard street, to celebrate the Feast of Chanucha. The meeting was opened by M. Budovitz, president of the society. An address was given the society by D. Levine, the president of the Judean clubs, on the purpose of Judean work.

Another interesting address was delivered by A. H. Isaac, secretary of the Senior Young Judeans' Club, on the opportunity for boys in Judean work. Support was given through the kindness of Mr. and Mrs. I. Niman and a special Judean cake was introduced. The supper was followed by music, songs and toasts. The evening was brought to a close by singing Hallelukah and the National Anthem.

FOUNDRY PLANT BADLY DAMAGED BY FIRE LAST NIGHT

Damage to an estimated extent of approximately \$20,000 was done the foundry plant of McLean Holt and Company Ltd., 5 to 48 Alton street, by fire which was discovered shortly after nine o'clock last evening. The moulding shop, a building about 400 feet in length, suffered most. The roof was burned off and the walls very badly damaged. The main building, of about the same dimensions as the moulding shop, was badly burned, the roof and floors suffering most. The Glenwood stove patterns are believed to have been destroyed, and it is feared that some other patterns also may have been burned.

J. L. McEvity, president of the company, said last evening he thought that the damage to the plant would be covered by insurance.

About forty men will be thrown out of work temporarily by the fire. Mr. McEvity said last evening that he intended to try to make arrangements to begin work in another plant as soon as possible, as he had many orders on hand. He thought that perhaps space might be secured in the McEvity plant at Rotheray Avenue or in the old Vulcan foundry in Broad street. He said he would rebuild the part of the plant damaged by fire, which was originally constructed in 1907.

The fire was a stubborn one to fight. Flames mounted towards the sky with spectacular brilliance and twelve streams of hose had to be applied to the blaze before it was conquered. The fact that there was little or no wind last night was instanced as a blessing, for it was said that had the fire occurred the night before in the high wind not only the foundry plant but adjacent buildings also, probably would have been destroyed.

Only one alarm, from box 63, was sent in, but additional apparatus to help fight the fire was telephoned for and responded. It was almost twelve o'clock
