## Little Stories and Pointers on Happenings in the City

These hold-up artists about the city of late seem to have a way of taking things easy.

For the benefit of those who may have forgotten it may be said that the express-preferred parcel-post system is still in force in Canada, though the government press agents are not shouting much about it.

This "Go-to-Church-Sunday" idea is all right in its way, but one Sunday in fifty-two won't help much.

An effort is being made at Fredericton "to drop horse-racing at fair." We know of several who have dropped on it already, both at fair and elsewhere.

These suffragette times are truly working wonders in some ways—here's a young lady, after a birthday party in her honor, actually admits her age.

"Thieves pass themselves as light inspectors," says news paragraph. Some owners of meters said they thought there was nothing unusual in the statement.

Though Lord High Admiral Hughes of the Canadian Navy (to be truly imperial pronounce it just like that) plans on a gasoline launch armada, we haven't heard of pop guns being ordered for the Power Club fleet at Indian town.

The thief who robbed a house North street this week is probably an amateur. He should know that in St. John nowadays he is violating one of the most popular rules of the "profession" when he allows himself to be seen "sneaking from the rear entrance." The customary to walk boldly in the front door.

"Look before you step" was an expression that worked over-time on the city streets this week.

The Dominion Steel Co. directors decided in Montreal this week not to pay the usual dividend on April 1. Sort of an "April fool" touch as it were.

News head says: "Too easy to get liquor." All you have to do is to produce the coin.

Next high commissioner to get \$80,000 a year. The job is high in more ways than one. Any St. John tourist will tell you in the cold?

"Shakes do not crawl," says an eminent scientist—maybe so, but we've never seen 'em do much walking.

One of the men who was watching the workmen wrecking the remains of the fire ravaged Metropole yesterday nudged another and remarked:

"Many a peaceful night we spent in there, did pal."

"Yes," answered the other, buttoning up an overcoat which once kept one of our most prominent business men warm.

"and I think we fared well by its destruction."

The ferry toll collector on the west side often figures in some newspaper article. The other day at one of the busiest hours a long string of people were pressed upon an immigrant that he did not issue return tickets.

Up in Ottawa they are looking for a new minister of labor. In many of the places there are men who would like to find some labor to which they might minister.

An exchange says that the Portsmouth England magistrates have agreed to allow fines to be paid by instalments. This is going a little too far—making the business of being arrested just as commonplace as buying a suit of furniture.

J. H. Burnham, M. P., says that everyone in Canada is frankly after something. Seems to apply in St. John all right. The chief of police is always after the law breaker; the council is after the chief of police, and you will always find someone who is after the council.

A train was wrecked in Ontario this week by a pig which was sleeping on the track. And the dispatcher at the next station wondered what put the train's schedule "on the hog."

A sign on the post in the middle of Victoria Bink says:

**NO FAST SKATING**

One of the competitors in the recent championship races saw it and wondered.

John Kay, of Mimico, swallowed a needle while eating breakfast. Undoubtedly the first finding that John had that anything was wrong was a sharp pain in his stomach, or perhaps a stitch in his side.

The following joke floated in yesterday from East St. John:

"Hello, Dick, been to the picture show lately?"

"Yes, last night."

"Well, I saw a black velvet bow, some tortoise shell comb, a couple of plumes, a chiffon knot, and a stuffed bird about the size of a heron."

"On the picture screen?"

"No, on a lady."

The result of the loss of the Empress steamers on business in St. John was under discussion.

"Do you lose anything by it?" a staunch Tory was asked.

"Sure," he answered, "I lose my vote at the next election."

A certain bright young man went out one night this week to attend a lecture which promised to be interesting, but before the speaker had proceeded far in his address the young man fell asleep and did not awake until after the people had started to leave the hall. On his return home he was asked:

**Blood Cleansing By Mechanical Means**

might, some day, be all right, but, most of us prefer a safer method, the best and easiest being NAL'S SARSAPARILLA which makes pure blood, clear skin and new strength for approaching spring.

Nal's Sarsaparilla, \$1.00 a Bottle  
S. H. Hawker's Drug Store  
Cor. Mill Street and Paradise Row

"What did Mr. Blank talk about?"

"About two hours," was the very conclusive reply.

Spring millinery openings commence and Pa gives another sigh over the cost of living.

Even if they cannot find the Guelph agreement at Ottawa it is easy to discover its effects at St. John. A decrease of more than three millions in exports through this port is quite enough.

The Lenten season is a little more than a week old, but there are still thirty, long, dreary days ahead for the man who swore off smoking.

A Times reporter called Chamberlain's yesterday to ask about a funeral, and the following dialogue was carried on over the phone:

"Hello! Is that Chamberlain's?"

"Yes, what did you want?"

"This is the Times speaking—is Mr. Smith to be buried today?"

"How should we know? This is the city chamberlain's office, Main 180. The number you want is 80."

Which was the chamberlain the reporter asked for and thought he had.

The Power of Advertising

"How much is Tango tea a pound?" asked a lady the other day in a local store.

"We do not carry it in stock, Madam," answered the clerk, moving his countenance "like other brands."

"No! I will try somewhere else, thank you. I have seen it advertised a lot!"

"Whether the lady was successful in her quest did not transpire."

## YOUR HAIR NEEDS

## PARISIAN SAGE

It Quickly Removes Dandruff, Stops Falling Hair and Scalp Itch

Just because your hair is full of dandruff, thin, greasy, dull and never will do up to look pretty, do not think of you look better. Beautiful hair, thick, fluffy, lustrous and absolutely free from dandruff, is only a matter of care.

Parishan Sage, which can be had at any drug or toilet counter, not only saves the hair but stimulates it to grow large and heavy. Get a 25 cent bottle at once. There is no other "Just-as-good."

## WHY BALDHEADS NO

Iowa City, Iowa, March 7.—Minister all over the world will hear with delight the discovery of Ralph Eyre, of Osceola, Iowa, a senior electrical engineering student in the State University. Mr. Eyre has found the scientific basis for the fact that bald-headed men are prone to fall asleep in church and he has found the remedy for this unfortunate fact.

## BEST LAXATIVE FOR BOWELS—"CASCARETS"

When Constipated, Headache, Bloating, Breath Bad, Stomach Sour

Get a 10-cent box. Are you keeping your bowels, liver, and stomach clean, pure and fresh with Cascarets, or merely forcing a passage way every few days with Salts, Cathartic Pills, Castor Oil or Purgative Waters?

Stop having a bowel wash-day. Let Cascarets thoroughly cleanse and regulate the stomach, remove the sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the contaminated waste matter and poisons in the bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken or cause any inconvenience, and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have Headache, Bloating, Constipation, Indigestion, Sour Stomach or Constipated Bowels. Cascarets belong in every household. Children just love to take them.

**Thin People Can Increase Weight**

Thin men and women who would like to increase their weight with 10 or 15 pounds of healthy "stay there" fat should try eating a little Sargol with their meals for a while and note results. Here is a good test worth trying. First weigh yourself and measure yourself. Then take Sargol—one tablet with every meal—for two weeks. Then weigh and measure again. It isn't a question of how you look or feel or what your friends say and think. The scales and the tape measure will tell their own story, and most any thin man or woman can easily add from five to eight pounds in the first fourteen days by following this simple direction. And best of all, the new flesh stays put.

Sargol does not of itself make fat, but mixing with your food, it turns the fats and starches of what you have eaten, into rich, ripe fat producing nourishment for the tissues and blood—precisely the way nature intended. This nourishment now passes from your body as waste. But Sargol stops the waste and does it quickly and makes the fat producing contents of the very same meals you are eating now develop into pounds and pounds of healthy flesh between your skin and bones. Sargol is safe, pleasant, efficient and inexpensive. Druggists sell it in large boxes—forty tablets to a package—on a guarantee of weight increase or money back.

## Bargain Sale of Ladies' House Dresses Continued Monday in The Costume Section

## New Materials and Curtains

Preparations are now being made in most homes for the discarding of heavy wintery effects in hangings, and giving to apartments an airy and spring-like appearance. Our immense assortment of the newer kinds of curtains and handsome materials for home beautifying were never more attractive; in fact we offer a much greater range and better values than at any previous season. A visit here will suggest many ideas of value in the planning of the spring changes.

A full assortment of D. M. C. Salome, Brilliant, Silks, Braids, etc., for needlework of all kinds.

NEEDLEWORK DEPARTMENT—ANNEX

Mr. Eyre told the results of his research in a scientific address at the meeting of the Iowa Branch of the American Institute of Electrical Engineers. He blames the prominence of bald-headed men to defective church-lighting.

"A glaring light before the eyes is sure to produce drowsiness," Mr. Eyre reasoned. "Men with bald heads and negligible eyebrows are less protected from glaring lights than those blessed with abundant hair. Women who wear hats that shade their eyes have little difficulty keeping awake. A little care in placing lights in a church will make all the difference in the world."

Charles Dare, a commercial fisherman in Utica, Ill., landed 10,000 pounds of carp in a single haul in Kelsey Lake.

N. H. has in his possession a Masonic apron ornamented with acorns and emblems which was presented to Simon Dewey, the grandfather of Admiral Dewey, in 1800.
