TODAY'S POLICE COURT

Margaret Sullivan, who was allowed to go yesterday morning, appeared in the police court again this morning. She was remanded to jail on the charge of drunkenness. One male prisoner charged with drunkenness was remanded.

Beynard Barry, who was arrested last covering by Night Detective Lucas appeared a court, charged with drunkenness, profanity and striking the police. Detective Lucas said that he was called to the Dew Drop Inn in Water street to eject Barry who was causing trouble there, that when he ejected the prisoner he told him to go home and be quiet. Barry, he said, then went over in the plot at the foot of King street, took off his coat, rolled it up and threw it on the ground. He was using profane language at the top of his voice. When the witness interfered he was struck in the face by the prisoner. Barry was fined \$4 or ten days in jail for profanity and \$8 or two months in jail for profanity and \$8 or two months in jail for striking the police.

Two prisoners on remand on the charge of drunkenness were brought in. One was fined \$4 or ten days in jail with hard labor and the other \$8 or two months in jail. The latter fine was allowed to stand. Stanley Brown, who was arrested some time ago on charge of stealing clottes from Matilda Nadwell's boarding house in Union street was brought before the magistrate. He said that while taking the clothes, he thought they were his own. He was given a caution and allowed to go

TO FREDERICTON

O. Warren Stinson, who has been accountant with the Transcontinental Railway since the opening of the St. John office, has severed his connection with the railway and has gone to Fredericton to accept a position with the Corbett Construction Company. Mr. Stinson was deservedly popular and many friends will regret his departure and will wish him every success in the change he has made.

MORE POWER AT COURTENAY BAY The work on the Courtenay Bay contract is being carried forward steadily by Doheny & McDonald and rapid progress is being made. The big steam shovel which does the work of 100 men, is eating its way into the bank and it has been found necessary to send for another locomotive to help in handling the material excavated. The engine is being brought from Quebec, where it has been in use on the Transcontinental and will arrive here next week.

Rev. E. C. Hennigar Has Year's Furlough From Missionary

FIVE MARYSVILLE BRIDES

Rev. E.C. Hennigar, who has been in Japan for seven years on missionary duties returned home yesterday and intends spending a year's furlough with his parents in Orange street. He left Japan four months ago, and went to India where he spent a week. From there he went to Egypt and Palestine and thence to Italy. He crossed from there to England and spent three weeks in London.

Mr. Hennigar's work has been in the province of Fukui, and mostly in the city of that name. The province has a population of 600,000 people and the city 50,000. In the whole province, he says, there are not more than 200 inhabitants who have been christianized. The province, he says, is very backward and very slow to adopt western civilization, making the missionary work extremely difficult. A strong reason operating against the Christian religion there is that the government is opposed to it.

The home of Mr. and Mrs. Judson Goodspeed was the scene of a brilliant wedding when their eldest daughter, Miss Nellie, was married to Norman Paisley of New Haven, Conn.

Further Evidence of Oak Hall's Commanding Position as the Premier Haberdashery Shop for Men in Saint John

Earl & Wilson, makers of the highest grade shirts and collars in America, have given us the exclusive selling right of their product in Saint John. In placing their agencies in New York and other large American cities they only give them to the swellest and most exclusive Haberdashers, and we feel fortunate indeed to be able to offer their product

Here is what they say in a recent "ad" about shirt construction: E. 2 W. Constructive Standardization in shirt making. means cutting various textile fabrics in accordance with shrinkages varying from one-half to four mches in length and width, and standarizing not only neck measures, as in the usual run of Ready-to-Wear Shirts, but standardizing bust, yoke. belt, arm holes and sleeve lengths as well. Few manufacturers pay any attention to constructive standardization.

E. & W. Shirts are standardized by the E. & W. method of shirt building which eliminates uncertainty of fit whether made from percale, madras, soft mercerized cloth, flannel or silk.

We have just received and are now making a fine showing of these superior shirts and collars, and we would particularly invite the man who is looking for shirt comfort to come and examine these goods.
