RAILWAY COLLISION.

TWO TRAINS COLLIDE NEAR BROOKVILLE, VERMONT. Eleven Cars Flung in a Heap—Engine and Tender Destroyed.

By TELEGRAPH TO THE GAZETTE. BROOKVILLE, Vt., Aug. 31.—Last evening a special train from here for Burlington, carrying people attending a meeting, collided with a train on a curve near Brookville 3 miles north of Middlebury.

When the engine of the passenger train saw the other locomotive coming round the curve he put on the air brakes, pushed the fireman from the cab and remained with his hand on the lever till the last second and died there with a broken neck.

Passenger conductor Hiram Rhoads and W. W. Allen, a farmer, were also killed and three others were injured. Eleven cars were piled in a heap. The debris is 50 feet high.

A MINERVA VICTORY.

THE SCOUTS BOAT WENT AGAIN AND GET THE WIND UP.

The last race for the Wald cup was sailed yesterday off Marblehead, and the Minerva again won handsomely. It was a Waterloo for the other fleet.

The course was a triangular one, with a good, true 10-knot breeze blowing from north-east by east and a good sea. The course was to the whistling buoy off the Graves, thence to the port, thence to a topost east by north, thence to the finish line off Marblehead rock.

The Minerva was the Burgess' entry, numbered only two, the Chiquita and the Xara having withdrawn. The Minerva was in, also the Alice, and with the Papoose, these three had it for the Carroll cup. It was a foregone conclusion among the owners of the entries that the Minerva would win.

The race was sailed on August 31, 1889. The following is a comparative statement of the Inland Revenue receipts for this division for the month of August 1889 compared with August 1888.

CONFERENCES STILL IN PROGRESS BETWEEN DISSENTS.

By TELEGRAPH TO THE GAZETTE. LONDON, Aug. 31.—Conferences are still in progress between the strikers and employers. John Burns in an address to the men this morning said that victory was nearer than had been deemed possible a few hours ago.

The men of the lower grades of the Thames were coming out and the belief was becoming general that the end was near. No settlement of the strike is possible to-day. The dock companies express their willingness to consider further authorized proposals from the men.

LONDON, Aug. 31.—Burns has asked and obtained the consent of the strikers to authorize their leaders to agree upon terms which the leaders might think it desirable to accept and a compromise is expected.

By TELEGRAPH TO THE GAZETTE. LONDON, Aug. 31.—There was a faint new up in Harlow today, in which the late anti-Chinese bill was the main factor, and Ah Chung, a young and prosperous landman was the principal.

Five years ago Chung, then a mere boy of 14, was betrothed to the pretty 10-year-old daughter of a well-to-do neighbor. Ah Chung took his prospective bride's relatives that he was going to visit his father, who was then in San Francisco keeping a big laundry, and that he would return in two or three years to get married. Soon after Chung's arrival at the Golden Gate his father sold out his washing business and the two came to New York, where they started a laundry on Third avenue, near Seventy-second street, and recently moved further up in Harlem, between Eighty and Ninetieth streets, where the father and son are making a good living. In the mean time Chung's father-in-law and mother-in-law in China are kicking because he has not kept his promise by becoming their actual son-in-law. Besides, the daughter is now a full grown and handsome young lady, whereas the girl whom she was betrothed to was a mere child.
