

WEEKLY WEATHER SYNOPSIS.

Victoria Meteorological Office,
26th September to 2nd October, 1900.
The week opened on the 26th with a vast area of high barometric pressure extending from the Pacific ocean to Western Ontario. On the 27th a low area appeared over Alberta, and the pressure began to give way in that district. On the 28th, the high still continuing over British Columbia, the low area was gradually covering the Northwest Territories, its centre moving southward to Assiniboia; on the 29th the storm area had increased in energy and its centre had moved to Winnipeg, our conditions remaining unchanged in this province. On the 30th the barometer began to fall here, and by Sunday evening a low area from the ocean developed, being central on the California coast. On Oct. 1st, the barometer continued to fall, the weather was cloudy and light rain fell in the southern portion of the province and snow in Cariboo, the pressure continuing very high in the Northwest. The week ended on the 2nd with little change in our weather conditions, low barometer on the Coast, high barometer in the Northwest, and generally fair weather over the province. The barometer ranged during the week from 30.38 to 29.72. Indian summer prevailed most of the time; temperatures were pleasant and seasonable. Light local frosts occurred on two nights. In the Northwest Territories and Manitoba considerable snow and rain fell, and temperatures went down to 22 degrees below freezing point.
Victoria reports 48 hours of bright sunshine; highest temperature, 59, on the 26th; lowest, 40, on the 30th.
New Westminster reports .04 inch rainfall; highest temperature, 62, on the 27th; lowest, 35, on the 30th.
Kamloops reports highest temperature, 60, on the 27th and 29th; lowest, 32, on the 29th.
Barkerville reports .06 precipitation; highest temperature, 56, on the 27th; lowest, 22, on the 30th.

Local News.

CLEANINGS OF CITY AND PROVINCIAL NEWS IN A CONDENSED FORM.

(From Tuesday's Daily.)

A requisition as to the advisability of holding a fair in Victoria has been sent to Mayor Hayward, and will come up for action at the next meeting of the council.

A number of hunters arrived on the noon train to-day from points along the line of the E. & N. railway, and all brought big bags of pheasants. The hunters boarded the train all the way down from Duncan to Strathcona.

The report of the city librarian shows that during the month of September there were issued from the city library 1,793 books—948 to ladies and 845 to gentlemen. The highest number issued in one day was 114; average number 75. Forty-one new members joined the library—21 ladies and 20 gentlemen. There were added to the library "The Remarkable History of the Hudson's Bay Company," by George Bryce, M.P., and the following reports: Royal Colonial Institute proceedings, vol. 31, 1899; Canadian Birds Catalogue, 1899; Ottawa; Statistical Year Book of Canada, 1899; Premium List B. C. Provincial Fair, New Westminster, October 2-5, 1900.

James Cates, the popular first officer of the tug Lorne, who but recently successfully passed an examination for captain's papers, was married this morning to Miss Nellie Wilson, second daughter of Alex. Wilson, of Fulford Harbor, Salt Spring Island, and a sister to Mrs. Douglas Brown, James Bay. The happy event took place in the St. Andrew's R. C. cathedral, Rev. Father Laternie, officiating. Miss Louise Wilson, a sister of the bride, and J. Sheagreen supported the young couple. Only the immediate relatives of the principals were present, and after the ceremony Mr. and Mrs. Cates left on a honeymoon tour of the South coast. Returning they will take up their residence in Victoria.

(From Wednesday's Daily.)

The staff of the new Normal school which will be opened at Vancouver, January 1st, will consist of Superintendent Robinson, Mr. Blair, art and science instructor, and Inspector Wilson.

A club is now being formed at the Metropolitan Methodist church on Christian socialistic lines. Rev. E. S. Rowe presided at a meeting at which about seventy-five men were present, and at this meeting the decision was reached to form such a club.

An apple weighing 32 ounces and measuring 10½ inches in circumference, is something of a novelty even in a country where fruit grows large. The identical apple mentioned, however, may be seen at the Dominion hotel. It is of the Alexandria variety, and was brought in by Mrs. F. Turgoose, of North Saanich.

At a business meeting of the Arion club the following resolution was passed: "Resolved, that the club hereby expresses its grief at the heavy loss it has sustained in the death of Mr. J. E. Martin, who had continuously held the position of librarian since the commencement of the club, and had always been one of its most enthusiastic and popular members; resolved that a copy of these minutes be forwarded to Mr. H. Martin, the brother of the deceased, with the heartfelt sympathy of all the members." It was also announced that steps were being taken to increase the number of subscribers, so that professional soloists might be engaged to take part in concerts.

The anniversary of Centennial Methodist church will be celebrated on Sunday next by special services. Rev. E. S. Rowe, of the Metropolitan Methodist church, and a musical programme, will be given. The proceedings will commence at 2.45 o'clock. On Tuesday next the annual tea meeting will take place. An excellent programme has been arranged, and addresses will be delivered by well known members of the

Methodist clergy. A collection will be taken at the door. The building committee in charge of the matter of erecting a substantial annex to the Sabbath school are hard at work in the preliminaries.

Collector Milne has been notified by the custom's representative in the Porcupine country of the new strikes made on Bear and Clear creeks, and of the stampede thither. Many of those in the rush to the new diggings, the officer states, are Americans who come from American territory, and are taking big quantities of supplies into the country without paying duty. In view of this fact, he recommended the establishment of a customs house at a point on the Chilkat river just above Kluckwan, on the Canadian side, which would be in the direct line of all traffic. The recommendation has been forwarded to Ottawa, and it is expected some action will be taken in the matter at once. In the meanwhile Mr. Milne thinks that a squad of Northwest Mounted Police from Camp Pleasant on the Dalton trail will be placed on duty.

(From Thursday's Daily.)

The fall show of the Inland Agricultural Association is being concluded at Ashcroft to-day. It was commenced on Tuesday, and, judging by the prize list, the committee in charge omitted no effort which would conduce to a very successful exhibition.

The death of Mrs. James Smethurst occurred yesterday at the family residence. The deceased was the wife of James Smethurst, and the sister-in-law of Private Smethurst of the first contingent. She was a native of Staffordshire, and was 34 years of age. Her husband and four young children survive her.

The death occurred yesterday in this city of George Sharp, a pioneer of Victoria, who came to this country twenty years ago. The deceased has for the past four years resided at Cowichan, and leaves one son, a professor in the Presbyterian College at Kingston. The funeral will take place to-morrow from the Odd Fellows hall.

The services in connection with the observance of the Day of Atonement by the Jewish residents of Victoria were conducted last evening. Rabbi Klunkenstein delivered two eloquent sermons, one dealing with the historical origin of the Kol Nidre, a portion of the ritual, and the other treating of the doctrine of repentance.

Mr. and Mrs. David Spencer have received a letter from their son, Trooper Victor Spencer, who is serving with the Strathcona's Horse in South Africa. The letter gives an account of the various engagements participated in by the Canadians, details of which were published in these columns last evening in the letter from the Times correspondent, B. St. George.

The biggest order for stoves that has ever been filled in this city has just been secured by the Albion Iron Works company. The purchasers are the naval authorities of Esquimalt. They have bought in all upwards of 200 stoves of different sizes, together with over 700 pieces of piping. All are to be forwarded to Vancouver to-day for shipment on the steamship Empress of India sailing next week. The shipment is consigned to the officer commanding Her Majesty's troops in China, and are intended, it is understood, for general use on the Chinese station. Of late the navy has been buying quite extensively in this city, and the stove deal is but one of many significant factors in the general turn of events.

HER HEART LIKE A POLLUTED SPRING.

—Mrs. James Briley, Pelee Island, Ont., says: "I was for years afflicted with dyspepsia, constipation, heart disease and nervous prostration. I cured the heart trouble with Dr. Agnew's Cure for the Heart, and the other ailments vanished like mist. Had relief in half an hour after the first dose." Sold by Dean & Hiscocks and Hall & Co.

REV. S. A. DONAHOE

Testifies to the Good Qualities of Chamberlain's Cough Remedy.

On the 10th of December, 1897, Rev. S. A. Donahoe, pastor M. E. Church, South, Ft. Pleasant, W. Va., writes: "A severe cold which was attended from the beginning by violent coughing. He says: 'After resorting to a number of so-called 'specifics,' usually kept in the house, to no purpose, I purchased a bottle of Chamberlain's Cough Remedy, which acted like a charm. I most fully recommend it to the public.' For sale by Henderson Bros., wholesale agents, Victoria and Vancouver.

Hon. Richard McBride, minister of mines, is back from the farming districts on the lower Mainland, where he officiated at the opening of a number of fall fairs. He reports that the exhibits at all of the fairs he visited were particularly good, although vegetables had a set back from the ravages of the cut worm. The live stock show was excellent at all points, and notably so at Chilliwack. While away Mr. McBride also visited the scene of the dyking operations and found that the work was progressing in the most satisfactory manner. When completed the dykes will extend for a distance of over sixteen miles, and will save the farmers untold sums of money each year. Harbison river is rapidly filling up with settlers, and the government has arranged for the immediate construction of a new school house there. An extensive sawmill was recently erected there and a shingle mill is now in the course of construction. The steam ferry which has recently been placed in operation across the Fraser river at this point is appreciated by the settlers in the vicinity.

UNDER THE NERVE LASH.—The torture and torment of the victim of nervous prostration and nervous debility no one can rightly estimate who has not himself undergone the ruthless lash of these relentless human foes. M. Williams, of Fordwich, Ont., was for four years a nervous wreck. Six bottles of South American Nerve worked a miracle, and his doctor confirmed it. Sold by Dean & Hiscocks and Hall & Co.—28.

DUNCANS IS PROSPEROUS.

Influence of the Mount Sicker Mines is Making Itself Felt in the Cowichan Valley.

(Special correspondence of the Times.)

Duncans, Oct. 2.—The many people who visited the exhibition given under the auspices of the Cowichan Agricultural Association here on Saturday last noticed a decided change for the better in the handsome little village. Duncans is now putting on metropolitan airs, and it is all owing to the proximity of the Mount Sicker mines. One of the first things to impress the visitor is the fact that old buildings—buildings which were erected years ago and which years ago had been left to the tender mercies of the elements and the boy with a penchant for firing pebbles through any window panes in vacant structures—are being looked after. Every old building in the place is receiving attention. Several new business places will soon be opened in frame structures. Among the new enterprises to shortly open will be an extensive drug store under the supervision of a pharmacist of wide experience.

But what Duncans is plumbing itself most on just now is its fire department. Compared with the chemicals, the steamers, the hook and ladder trucks and the efficient force of fire fighters presided over by Chief Deasy, the fire department in the beautiful little village might suffer. But Duncans' fire department is new and, although some of the appliances are crude in a way, they will be of great assistance in preventing the spread of any conflagration that may break out. And then, too, Chief Deasy is not one whit more proud of his commodious fire halls and up-to-date apparatus than is Chief Smith of Duncans, of the new hook and ladder truck, of home manufacture, and the new alarm bell which has just been received and will be placed in position in a few days. The new fire hall, or rather the old building which has been utilized for the purpose, was a centre of attraction during the fair.

At the station are lying, too, large boilers and a splendid hoisting engine. They are consigned to the Tye mines, and soon the machinery will be taken there and put in its new home.

There are evidences of prosperity in sight on every hand in the hitherto peaceful little Cowichan valley village, and it is plain that Duncans has a great future before it.

The Indians in the country surrounding Duncans are said to be prosperous. A grain buyer who was here on Saturday reported that the Indians refused to sell him oats at a lower price than \$30 per ton when that commodity was actually worth \$25 per ton. But then the price of oats is liable to go up, and although swishes are not reading the papers they have begun looking out for market indications.

THE RETAIL MARKETS.

Grouse and Venison, Continue to Advance—Concord Grapes Are Reduced.

There is very little change to report in connection with the general situation of the markets this week. Quotations on staples remain the same, among the only new features being a scarcity of game of all kinds, and also of fish. Concord grapes have been reduced in price, and are now selling at 10 cents a pound, or for the same as other varieties of grapes.

Current retail quotations are as follows:

Ogilvie's Hungarian, per bbl.	8.00
Lake of the Woods, per bbl.	8.00
Shaw's, per bbl.	8.00

Grouse, per pair	1.25

A VETERAN'S STORY.—George Lewis, of Shamokin, Pa., writes: "I am eighty years of age. I have been troubled with Catarrh for fifty years, and in my time have used a great many catarrh cures, but never had any relief until I used Dr. Agnew's Catarrhal Powder. One box cured me completely." 50 cents. Sold by Dean & Hiscocks and Hall & Co.—25.

COMMUNICATIONS.

THE SAANICH AGRICULTURISTS.

To the Editor:—Will you kindly permit me to give a small detail of last Saturday's Saanich show? The day proved fine, much more so, I am sorry to say, than did the show. Perhaps it was owing a good deal to the Duncans show being on the same date, and undoubtedly a little due to the want of outside competition. Last year I was much surprised and delighted with the magnificent show, both in and outside of the hall, but instead of increasing, as it should do, it is decreasing. The value of all the goods that were in the building, I am sure, would not amount to \$25, when last year it would have been a bargain at \$100. The exhibitors this year were the owners, directors, their good wives, and a neighbor or two. The stock certainly was a poor turn out. The poultry may have been magnificent, but unfortunately they could not be seen. They were not exactly put up in sacks, but nailed up in such close boxes, allowing only a little light to enter in at one side, that one could scarcely recognize whether they were black or white.

We have to thank the kind people from the city for a big crowd. It is hard to have to admit that it had not been for the citizens the county exhibition must have proved a failure.

If the show is to improve, outside competition must be invited, and more than that, encouraged, and a little favored rather than otherwise. Competition will bring a big crowd of farmers; it is a farmers' exhibition, and they should not have to depend on the city to make it a success. The little party that now keeps it ailing seems to be well aware that competition is what they need. Outside competition is all right, just what they want and just what they like, as long as it is not too strong for them. It is plain to see that it is their principle to keep the honors among themselves as much as possible, and depend on the city alone to make the show a success.

To give an idea of how they serve the outsiders, I will mention one act: An outsider exhibited some potatoes, which proved to be the best sample in the hall, but they were under weight. There should have been 50 pounds, and there was not. Now, it would have looked much better of the directors if they had favored that outsider man, but no; it was an opportunity to disqualify those goods, which, of course, was neither unjust nor unfair, and I don't think that it annoyed the exhibitor at all. There should have been weight and was not; but what must have proved annoying was that there was no ticket on the potatoes to mention the reason they were not prized. It would have been a warning to other people, and people looking round could not understand the reason no prize was given. Perhaps some farmer has an idea that the judge did not know his business, for a man with only one eye could plainly see which was the best sample of potatoes. It would have been far better for both the exhibitor and exhibitor if the potatoes had been turned outside the door. I am sure I am safe in saying that owing to the name of the exhibitor not being placed on those roots, stating the reason they were not prized, it is not giving justice to the outsider. It is to be hoped that for the future outside competition will be invited, given justice and encouraged. Otherwise, better hold the show in town, for that is at present where the support comes from. It is very kind of the Duncans, to patronize, and their kindness, I am sure, is highly appreciated, but they need more than a few slow sports to decoy them another year. The Saanich agricultural exhibition is turning into a matter of two or three hours of athletic sports, got up to bring a crowd.

A SPECTATOR.

HALF-HEARTED ATTEMPTS TO GET WELL ARE NEVER SUCCESSFUL.

Honest Use of

Paine's Celery Compound

Will Permanently Banish Your Troubles.

THE GREAT COMPOUND GUARANTEES A NEW LEASE OF LIFE.

It is pitiable to see the half-hearted and almost useless attempts made by many people to get rid of poor health. More determined efforts and greater energy would be put forth to achieve victory in any other undertaking.

Too many are believers in "fatalism," others make use of almost anything that is recommended by neighbors, while many are quite satisfied if temporary relief is afforded.

If Paine's Celery Compound be used to cleanse the blood, to regulate and tone the nerves, to banish rheumatism, neuralgia, headaches, kidney disease and dyspepsia, then be assured the good work is fully and permanently accomplished.

It is positively criminal and foolish for young or old to mope around in a half-sick condition and shut their eyes to the grand blessings offered by Paine's Celery Compound. The world knows of no other medicine as good for fortifying and building up the system to battle against the trying and varying weather of autumn.

Go to your druggist at once and procure a bottle of Paine's Celery Compound and see how soon the "blues" will vanish; your nervous depression, headache, backache, rheumatism and neuralgia will go, and permanent health, activity and happiness will be yours.

Galveston, Texas, Oct. 4.—Twenty-one more bottles were recovered from the debris yesterday, making a total of 2,396 officially reported as recovered since the storm.

VITALLETS MAKE STRONG AND MANLY MEN.

FREE TO MEN AND WOMEN.

VITALLETS For Nerve Strength and Blood Health.

Vitallets are a powerful nerve, brain and blood food. They feed the brain, build up, repair and strengthen wasted, worn and tired nerves, purify the blood, make every organ act and cause you to be made with vigor. Have you weak nerves or impure blood? Do you lack energy, ambition or vigor? Is your memory poor? Are you constipated? Are your kidneys inactive? Are you a man and get not a man, but a feeble being from vertigo or other effects of early indiscretions, overwork, worry or other excesses? Are you a woman and afflicted with any of the diseases peculiar to your sex, or have you any of the symptoms mentioned above? Then take VITALLETS and you will get well. Free treatment sent prepaid by mail. Do not delay but order now.

W. L. B. CO., BOSTON, U.S.A.

MANY THANKS.

"I wish to express my thanks to the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy, for having put on the market such a wonderful medicine," says W. W. Massingill, of Beaumont, Texas. There are many thousands of mothers whose children have been saved from attacks of dysentery and cholera infantum who must also feel thankful. It is for sale by Henderson Bros., wholesale agents, Victoria and Vancouver.

Alexander James Prudmore and Arthur Wilson were nominated as candidates for election to seats in the Yukon council at a recent convention held at Dawson. The former, a contractor and builder, is 34 years of age, and comes from Ottawa. Mr. Wilson is three years his senior in age, and a Nova Scotian.

HELPLESS AS A BABY.—South American Rheumatic Cure strikes the root of the ailment and strikes it quick. E. W. Wright, 10 Dundas street, Brockville, Ont., for twelve years a great sufferer from rheumatism, couldn't wash himself, feed himself or dress himself. After using six bottles was able to go to work, and says: "I think pain has left me forever." Sold by Dean & Hiscocks and Hall & Co.—28.

President Castro issued a proclamation convening the congress of Venezuela for February 20th next.
