

PROVINCIAL.

Sidney Parks Drowned at St. George while Bathing.

Coun. Godard's House at Pettitodiac Destroyed by Fire.

QUEBEC, June 18.—A Sunday school convention for the parish of Cambridge was held in the Baptist church at Mill Cove on Monday, the 10th. A large number of persons were present. A deep interest was manifested. More and better work is being done since the parishes and county have been organized.

The quarterly meeting of the Baptist church for this county was held at McDonald's corner on Friday, Saturday and Sunday. Rev. Messrs. McDonald, Bishop, Irvine, Wallace, Hopper, Coomes and Hardy were present. The enterprising firm of C. & J. Robinson launched their new schooner last Saturday. They commenced the vessel some time on Friday, Saturday and Sunday. Rev. Messrs. McDonald, Bishop, Irvine, Wallace, Hopper, Coomes and Hardy were present. The enterprising firm of C. & J. Robinson launched their new schooner last Saturday. They commenced the vessel some time on Friday, Saturday and Sunday. Rev. Messrs. McDonald, Bishop, Irvine, Wallace, Hopper, Coomes and Hardy were present.

Rev. Messrs. Gaskin and Humbert, evangelists, assisted by the Rev. Mr. Clements, are holding revival meetings at the Narrows, east side.

Whites Cove, June 18.—Donald H. Ferris had a tumor removed from his eyelid on Tuesday by Dr. Caswell of Gagetown.

The horn fly has made its appearance again this summer.

Mr. Ferguson, agent for the St. John Sun, passed through this place on Saturday in the interests of this paper.

A valuable horse belonging to B. L. White dropped dead last week while being driven from White's Point to Jemseg.

The upland grass, which at the early part of the season promised to be an abundant crop, will not be up to the average, owing to the drought. The intervals grass is good.

A handsome monument was erected on Saturday in the Methodist cemetery to the memory of the late Samuel V. White.

KENT CO.

Richibucto, June 19.—The cheese factory at St. John's, eight miles above here, is in full operation now. Five thousand pounds of milk were received on Monday.

W. W. Short has given his steam catamaran several runs which have proved satisfactory.

Edward Sinclair's steamer Bridge-town came around the Miramichi yesterday to take back a large decked scow that the former purchased last fall at the auction held by the Kent Manufacturing Co.

The Norwegian barkentine Frier was towed in Monday by the steamer Calumna, consigned to Edward Walker, and making the sixth arrival this season. J. & T. Jardine's bark Sazona sailed last evening.

SUNBURY CO.

Maugerville, June 18.—The June term of the Sunbury court opened at Burton today, Judge Steadman presiding. There was no criminal business. The civil docket comprised the following causes: Charles V. White v. J. De-Verber Neales; Messrs. Grant and Sweeney files record; John Adams v. Adam Andrews; action of assumpsit; C. B. Duffy files record; Agnes Andrews v. Adam Andrews; C. B. Duffy files record; John Adams v. Adam Andrews; action of tort; C. B. Duffy files record. The case of White v. Neales was defended; \$47.50 damages was assessed by the jury.

ALBERT CO.

Hopewell Hill, June 19.—Mrs. Wm. Thompson of Dorchester, Mass., arrived on Saturday to visit her mother, Mrs. John Lockhart of Chester, who has been very ill, but is now considered out of danger.

The Union Academy school of Memel held a very enjoyable picnic today. A highly successful bean supper and fancy sale was held today and this evening in Oulton hall, Albert, under the auspices of the Baptist sewing circle.

A. H. McLane is lighting his deals this week to the s.s. Massasoit at the island.

CARLETON CO.

Harland, June 19.—Prof. W. F. Watson of Furman university, Greenville, S. C., and family, arrived this week to spend the summer here.

The annual road work is being done. A large number of men and teams are at work and the streets and highways are being much improved.

The continued dry weather is a serious menace to the crops. Unless a good downfall occurs very soon they will not nearly come up to the average.

Woodstock, June 23.—At a meeting of the town council last evening the sewer committee, consisting of Couns. John Arnold (chairman), Payson and Bailey, with the mayor and superintendent of water works Munro, were authorized to engage an engineer to make a survey of the town, and report as to the cost, etc., of putting a system of sewerage in the town. A number of engineers have made application for the work. The committee seem favorably disposed towards tenders from New York and Toronto men, but no definite decision has been arrived at.

L. P. Fisher, who conferred with a committee of the town council on the matter of turning the John W. Connell estate into a public park, was requested by the council to purchase as much of the Brown estate as will be necessary to make the park complete.

Holly Tapley, aged 19 years, son of David Tapley, trackmaster on the northern division of the C. P. R., died this morning at his father's house of consumption, after a protracted illness and great suffering. The deceased was a nephew of Hon. Mr. Holly of St. John.

Mrs. Henry Jamieson of Richmond died very suddenly last afternoon at the residence of her mother, Mrs. David Munro, superintendent of the water works.

YORK CO.

Stanley, June 17.—The Fredericktown Minstrel Co. gave a variety show in the Agricultural hall last evening, assisted by the Fredericktown band. The affair was well patronized.

Invitations are out for the marriage of Miss Annie Coughlan of Cross Creek to the popular agent of the Canadian Eastern railway, for the 26th inst.

Frank A. Cutting's agent, Mr. Parker, is busy with a crew of men loading bark purchased from John A. Humble, who is now contracting with a number of parties to peel for the present season.

W. L. McDermid commenced to manufacture cheese today in his new factory, which was well patronized. Mr. Doherty of Kent county and Wm. Mullin are in charge.

Wm. Robertson of Fredericktown commenced to build a new kiln on the site purchased from Thomas McMillan. He is building another tenement house, and has removed his old dwelling in order to commence to work on his new brick residence.

Fredericktown, June 20.—The city is sweltering with another hot wave more intense than last week. Not a breath of wind has stirred the leaves of the trees, and the river is a mass of stagnant water, reflecting the green banks and marginal trees on either side. This afternoon the mercury went up to 92 degrees.

Preparations are already being made for the reception of the highest court of the province, which meets here the first of next month. On Dominion day the order of next month. On Dominion day the order of next month. On Dominion day the order of next month.

Whites Cove, June 18.—Donald H. Ferris had a tumor removed from his eyelid on Tuesday by Dr. Caswell of Gagetown.

The horn fly has made its appearance again this summer.

Mr. Ferguson, agent for the St. John Sun, passed through this place on Saturday in the interests of this paper.

A valuable horse belonging to B. L. White dropped dead last week while being driven from White's Point to Jemseg.

Mrs. Henry Jamieson of Richmond died very suddenly last afternoon at the residence of her mother, Mrs. David Munro, superintendent of the water works.

Several salmon have come through since its completion, and now that the fishways are completed, our fishermen are looking forward to some rare sport in the near future.

Strict watch is being kept over the several lakes on the Westcott property, which is held under lease by C. C. Ludgate for fishing and shooting privileges. Dynamite has been used by visitors, who are well known, and if they are caught they will be prosecuted to the fullest extent of the law.

The several granite mills are running with a full force of men, and Epps, Dods & Co. are running some of their machines night and day.

KINGS CO.

Sussex, June 21.—Rev. T. W. Campbell of Toronto, the bishop of the Reformed Episcopal, made his annual visit to the R. E. church in Sussex this week and on Wednesday evening preached to a well filled church a very powerful sermon. He very warmly complimented Rev. Mr. Hotley, the pastor, for having accomplished a very successful work during his ten years' ministry. The church books bear record of his having during that time baptized 147 infants and 47 adults and 122 persons confirmed.

Bishop Campbell administered the right of confirmation. He is to hold a young people's meeting on Friday evening. The Yeomans and Taylor Cardwell assault case was concluded this afternoon. The counsel, Mr. Byrne and Hon. Mr. Morton, addressed the court.

It being so uncomfortably hot, the court adjourned until Monday next, when his decision will likely be reached.

Mr. Kent succeeded yesterday in reaching a fine flow of excellent water at the bank building on Church avenue. He had, however, to go to the depth of 200 feet. The people are now agitating the propriety of having an artesian well sunk at some important points for the use of the town.

The excessively hot weather is causing the farmers to feel not a little gloomy. It is said there cannot be the slightest doubt but that the wild strawberry will be a failure this year, and many having ceased to cultivate the home strawberry owing to their large product last year, it is quite possible the strawberry luxury may be unusually dear this season.

WESTMORELAND CO.

Moncton, June 21.—James Harris of the I. C. R. freight department, Moncton, was married on Wednesday at 10 o'clock to Miss Sophia, youngest daughter of Charles McManus of that place. The ceremony was performed by Rev. Father Michaud. The happy couple will spend some time in Nova Scotia and Cape Breton before returning to Moncton.

Mrs. Bowser was yesterday fined \$50 and costs for violation of the Scott act. The work of erecting a cheese factory has been commenced at Lutes mountain, and is expected to be in operation in about three weeks. A dairy association was organized at the same place.

Mr. Stevens treasurer and Franklin Stevens secretary.

A fire at Pettitodiac on Thursday destroyed the residence of Councilor T. Godard. The fire was discovered early in time to save Mr. Godard's family who were sleeping in the house. The crops in this section are suffering greatly for rain.

The grass, which promised so well, is turning yellow, and late grain has not sprouted. Unless rain comes soon farmers will suffer much loss.

Moncton, June 23.—The council has decided to appoint an extra policeman, who will assist on Wednesday to enforce the Scott act. This action has been taken as a result of the recent meeting of citizens, called for the purpose of instructing the council, backed up by a deputation of citizens, to laymen, who waited on the council at the last meeting. There was apparently some hesitation on the part of the council in following the instructions of the citizens' meeting, but when the matter came to a vote here was not an adverse vote.

The explosion happened last night, when a young man who was speeding on his bicycle on Main street collided with a citizen. Result, dislocated shoulder for bicyclist and bruised body and cut head for citizen. The council promise to pass a by-law regulating the speed of wheelmen and compelling them to carry lights and bells.

A. E. Taylor, a Moncton boy, son of Ezeziel Taylor, has been transferred from the bank's branch at Moncton to New York. A. P. Gulph, who has been in the branch here, has been transferred to Halifax. The young ladies, Budd and Molins, arrested by the I. C. R. police for taking a trolley out of a shed and placing it on the track, were on Saturday committed for trial.

THE JANS ESTATE.

Over fifty persons, all heirs to the famous Jans estate in New York, assembled in Orange hall, north end, Friday night, for the purpose of forming an association in connection with the Jans' Central Association of Cleveland, Ohio. The object is to establish their claims to the Jans estate, now said to be held by the Trinity church corporation of New York. The following officers were elected: Richard B. Kierstead, vice-president; Clarence Kierstead, secretary; Edward C. Stackhouse, treasurer. A large number of those present joined the association.

Several had not their pedigrees down fine enough, but they expected to have their genealogy traced out by the time of the next meeting, which will be held in the Orange hall July 12. The heirs in this part of New Brunswick seem to have come through the Kiersteads, some of whose progenitors were married to the Jans. Richard Stackhouse and a few others have the pedigree traced out by the time of the next meeting, which will be held in the Orange hall July 12. The heirs in this part of New Brunswick seem to have come through the Kiersteads, some of whose progenitors were married to the Jans.

Good taste is the modesty of the mind.—Mme. de Girardin.

THE MARKETS.

COUNTRY MARKET.

The last week was another quiet one in the country market. There is no change to note in prices of meats, poultry, eggs and butter, except that the best butter in the market will not bring over 20c by the single pound. Unless one really wanted to buy, it would not be safe to offer 10c. For some tub butter that is in sight. All kinds of new vegetables, such as carrots, beets, turnips, radishes, spinach, cucumbers, lettuce, celery and rhubarb, are now in market, and as the quantity increases the price declines. The supply in all lines of produce is fully equal to the demand.

ST. JOHN WHOLESALE MARKET.

FLOUR, MEAL, ETC.

Manitoba flour is marked down 10 to 15c. Other grades are about as before. Middlings are 1c cheaper. The cornmeal millers will reduce their price this week, but had how much is not yet decided. It will therefore follow that the trade price will be lower than our quotation as soon as the change occurs.

FISH.

Dry cod are marked down this week. Other quotations are unchanged. The harbor salmon catch has not been large enough during the last week to supply the demand, and North Shore fish are therefore in some demand. The catch up there has been about the same as last week, but the large fish are scarce. The fish about the harbor are now taken. It is estimated that the quantity of gasperaux salted down this season is about 14,000 blis, including the catch up river, which was about 21,000 blis. Last week there was no inquiry as yet from abroad for these fish. Smoked herrings are, if possible, duller than before. There is practically no movement of pickled fish of any kind.

LUMBER AND LIME.

The lumber exports from this port last week were not quite as large as the week before, but the total for the fortnight exceeded twenty-one million feet of lumber, about twenty million of which, nearly ten million shingles, besides over half a dozen cargoes of cordwood and one of piling. There is great activity in shipping from the Miramichi and Restigouche, Kent county, Westmorland and Albert, while nearly eight million feet clear from the north. The markets will seem to be on the whole satisfactory. Shipments to the states appear to be quickening into consumption at fairly good prices. The local lime trade is fairly good, but the American market is demoralized.

FREIGHTS.

The rate to U. S. ports was knocked down last week, but a leading broker said on Saturday that he did not believe it would become general. Our quotations are therefore left as before.

GROCERIES.

This list remains without change this week. Molasses is firm. Sugar remains steady, and there is a feeling that owing to shortage in crop of both beet and cane the price of refined will not decline. On the London market Saturday, however, raw cane was dull and beet flat and lower.

COFFEES.
