Five to eight bottles are warranted to cure the work case of scorfula.

A benefit is always experienced from the first bottle and a yerfect cure is warranted when the above quantity is taken.

Reader, I have peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in everycase. So sure as fare will extinguish fire, so sure will this gure humor. I have never sold a bottle of it but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear to me sueprising; first that it grows in our pastures, in some places waite plentiful, and yet its value has never been known until I discovered it in 184 second, that it should cure all kinds of humor In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it, and sold abiut six bottles per day of it. Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was over like it. There is a universal praise rom all quarters.

In my own practice I always kept it strictly

general family medicine, great and wonderful virtues have been found in it that I never sus pected.

Several cases of epiteptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a nervey if it will prove effectdal in all cases of that ewful malady—there are but few who have seen more of it than I have.

I know of several cases of dropsy, all of them aged people cured by it. For the various diseases of the liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Disease os the Spiae, and particularly in diseases of the Kidney's, &c. the discovery has done more good than any m. dicine ever known. No change of Diet ever necessary. Eat the best you can get, and enough of it.

Directions for Usz.—Adults one table epocnful per day—Children from five to eight years, tea spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.

AYER'S

Compound Extract of Sarsaparilla the most effectual remedy which the medica skill of our times can devise for this ever skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cupe of not only scrofula, but also those other affeotions which arise from it, such as ERUFTITI and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, OF ERYSIPPLAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALY RHEUM, SCALD HEAD, RINGWORM. BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORN, BHEUMATISM, SYPHILITIC AND MERCHAN DEBLET, and indeed, ALL COMPLAINTS ARISING FROM VITTATED OR IMPURE BYDOD. The popular belief in "impurity of the blood" is founded in suth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarseparilla is to purify and regenerate this vital fluid, without which sound health is impossible is contaminated constitutions.

are so composed that disease within the range of their action can rarely withstand or evade them Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once as simple and inviting.

Not only do they cure the every-day complainte of every body, but also many formidable, and dangerous diseases. The agent below named to pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costive ness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbig Inaction of the Bowels, Flatulency, Loss of Appetie, Jaundice, and other kindred complaints arising from a low state of the body er obstruction of its functions.

Ayer's Cherry Pectoral, FOR THE BAPID CURE OF

Coughs, Colds, Influenza, Hoarscuess, Croup, Bronchitis, Incipient Consump tion, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so my merous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been disearded, this has gained friends by every trial, conferred benefits on the afflicted they can hever forget, and produced cures too numerous and too remarks the action of the forgotten.
