ST. JOHN MAN TELLS STORY

REGARDING THE WORK ON THREE MILLION LBS. MILL

Big Development Is Being Carried on at Edmundston—Announcement of a New Shingle and Railway Tie Mill—What the Fraser Companies, Limited Plan Means to Edmundston.

The Standard's announcement yesterday that Fraser, Ltd., had purchased 280,000 acres of timber lands in Nova Scotia caused quite a stir in local lumber circles, and there was much speculation as to what use would be made of these lands in the near future.

The corporate name of the Fraser Companies, Ltd. They are the successors to Fraser, Ltd., and there are the selling agents for Donald Fraser & Sons, Ltd., Cabano, Que.; Fraser Lumber Co., Ltd., Fraser, Que.; N. B., and the F. and M. Lumber Co., Ltd., Whitworth, Quebec. The immensity of the concern may be judged from the fact that they own and operate mills at Cabano, Whitworth, St. Elouther, Glen Dyne in Quebec, and at Baker Brook, Fredericton and Nelson, in New Brunswick. The output per day of these mills according to reliable information received by The Standard, is about 900,000 long lumber, 400,000 shingles, and 2,000,000 shingles. In addition to these saw mills the Fraser Companies, Ltd., are building a bleach sulphite pulp mill at Edmundston, which they expect to have in operation early next year.

A St. John gentleman who just arrived from Edmundston gave The Standard some interesting news with respect to the progress of the work on the pulp mill there. He said the Fraser Companies, Ltd., expected to have their new pulp and paper mill in operation as early as the first of April next, and that it would employ about 400 hands, and that in addition to the pulp and paper mill the company would immediately start a shingle and railway tie mill which would probably employ about 150 men. Continuing he said: "The first of this year Edmundston had a population of 2,000 people, and the Fraser citizens say that a conservative estimate with respect to the future is that 4,000 within the next two years, and they confidently look forward to be close to Fredericton's population within the next eight years. Of course their hope is built largely on the strength of the Fraser Companies, Ltd. pulp and paper mill, as well as the other industries which they feel sure are bound to follow."

The pulp and paper mill, upon which some three millions of dollars are being expended, will be known as the bleached sulphite pulp mill. It will have a capacity of 120 tons per day, and their product will be used for the manufacture of newspaper. The plant covers about six acres and is on the west side of the Madawaska River. It will consist of storage room, machine room, screen room, plan pit room, digester house, boiler house, and turbine house, wood room, machine shop and hydraulic power plant. In the machine room there will be two drying setting of three poles on Short street, and recommended that council grant permission for the erection of these poles. Carried.

He also recommended that James Gregory be given permission to erect an electric sign on his premises at 180 Union street, and that the N. B. Telephone Company be allowed to erect two electric signs, one at Bond's restaurant, and the other at George A. Cameron's drug store, Charlotte street. Carried.

A communication was received from the residents of the eastern end of Rockland Road asking for a street light on the hill leading to Wall street. This was referred to the commission of public safety, and the mayor advised at the same time to look into the matter of placing a light half way on Cradle Hill.

A communication from several merchants of the North End protesting against the payment of top wharfage at Indian town, was referred to Commissioner Russell. Manford S. Jones applied for appointment as constable. Referred to the mayor with power to act. John Jackson wrote that he had been bondsman for Constable Charles Osborne since 1914 and asked to be relieved. It was moved that his request be complied with and the appointment of Mr. Osborne cancelled. The chairman of the board of assessors reported on the application of the C. P. R. for abatement in their assessment for patriotic purposes. They had allowed an abatement of \$400.00 on account of the St. John Bridge and Railway Company, which had been included in the C. P. R. valuation in a mistake, but considered that otherwise the assessment was all right.

A copy of the report of the city auditor on the Wilkes matter was laid before the council and it was ordered that copies be made for each commissioner and the matter later discussed in committee.

Commissioner Russell presented the balance of E. O. Lee's bill for work done at No. 5 shed in cleaning up the debris of \$3,079.39 and recommended that it be paid. On motion of Commissioner McLellan this was laid over to be taken up in committee.

The action of Commissioner McLellan in purchasing thirty-five tons of coal at \$13 per ton was confirmed. Council then adjourned.

PROCEEDS OF A BAZAAR. Little Misses Margaret Josephson of 183 Brussels street, and Josephine McBurnett of 201 Brussels street, have handed to the Mayor the sum of \$6, the proceeds of a bazaar held to raise funds for Christmas gifts for overseas soldiers.

YOUNG ORPHAN GIRL

How She Was Cured. Had Headaches, Dizzy Spells, Awful Pains, Could Not Work.

Pittsburgh, Pa.—"I am an orphan girl, and when only seventeen years old had to support myself, but I would have much to say for myself, every month that I would have to stay at home from work, and I could not afford to do it. I also had headaches, dizzy spells and a pain in my side. My sister told me how much Lydia E. Pinkham's Vegetable Compound had helped her, so I began taking it. The result is I am now in good health and never lose a day from my work, and you may publish my letter to show other girls the good Lydia E. Pinkham's Vegetable Compound will do."—Miss MAUDE SCHMELTZ, 84 Gardner St., Troy Hill, N. S., Pittsburgh, Pa.

The good old root and herb remedy has proved unequalled for periodical suffering of young women; it cures all that is needed to restore healthful conditions. Write the Lydia E. Pinkham Medicine Co. (Confidential), Lynn, Mass., for free advice if you need it.

Catarhal Deafness May Be Overcome
If you have Catarhal Deafness or head noises go to your druggist and get 1 ounce of Parmitin (double strength), and add to it 1-4 pint of hot water. Take 1 tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Any one who has Catarhal Deafness or head noises should give this prescription a trial.

A Smooth, Hairless Skin for Every Woman

(The Modern Beauty). With the aid of a plain delatone paste it is an easy matter to rid the skin of unsightly hairy growths. The paste is made by mixing some water with powdered delatone. This is applied to the hairs not wanted and after two or three minutes rubbed off and the skin washed, when every trace of hair will have vanished. When you go to your druggist for delatone, be sure you get the genuine article.

KILLED BY A POLICEMAN.

A brown dog was struck by a train in the C.P.R. yard Monday night and was so badly injured that it remained by the side of the track until yesterday morning, when Policeman Collins shot the animal and put it out of its agony.

ST. JOHN MAN A PRINCIPAL.

A divorce has been granted in Manchester, New Hampshire, to Margaret Crawford, against her husband, Jas. W. Crawford of St. John. The case was not contested. The decree is signed July 2, 1917.

H. G. Marr and J. H. Marr returned yesterday from a business trip to New York, Montreal and Toronto.
