

DESPAIR PREVAILS EVERYWHERE IN GERMAN

GERMANS PUT IN BEST MEN AND FIGHT WITH ENERGY OF DESPAIR

Allied Breach in Hindenburg System in Sequehart-Bony Sector Extended and Heavy Fighting Continues—Great Danger For Teutons Along Whole Western Front, Declares Frankfort Gazette.

London, Oct. 4.—News from all sectors of the western front tells of giant efforts by the enemy to stem the daily advancing tide of battle. The Germans are putting in their best troops, and, according to all correspondents, are fighting with the energy of despair.

Still there is no sign of any great retreat, except the withdrawal in the Flanders sector, where the British have occupied Armentieres and Lens and are closely pressing the retreating enemy. The recapture of the great French coal region affords great satisfaction here.

In the Sequehart-Bony sector, the Allied breach in the Hindenburg system was extended today and the fighting reached the outskirts of Mont Brehan, where Australian units, with tanks, are operating.

The importance Germans attach to the retention of this portion of the line is indicated by the Frankfort Gazette, which states that, in order to prevent a frontal break through between Cambrai and St. Quentin, General Von Boehn's army has been made so strong that it is equivalent to a complete army group. The Gazette declares "there is great danger along the whole western front."

Austrian Disaster.

It cannot be long before an important enemy retreat from the Hindenburg line is bound to happen, according to the universal military opinion here.

Interesting news comes from Eastern Europe. Austria has withdrawn her troops in Albania, and the Italians have recaptured Berat. It is learned in official quarters that German residents of Sofia and Constantinople, including officers and their families, are leaving hastily and going through Roumania to Germany.

Allies Continue to Gain.

Paris, Oct. 4.—Germany is now throwing in general reserves into the battle on the St. Quentin front. This means for the stiffening resistance and also along the German front and marks the beginning of the last phase of the great battle.

Notwithstanding violent counterattacks by the enemy, the Allies continue to make gains, which, although local, are nevertheless important as they have a cumulative effect on the centre of the line.

As a further result of the German retreat in the north, the enemy now is in peril of losing the Belgian coast. Should the Allies succeed in forcing their way through the gap between Ostend and Lille, it would mean disaster for the Germans. Even if the drive should be stopped on the coast, General Ludendorff no doubt realizes it will be difficult to resist indefinitely the growing strength of the Allies in Flanders.

Break Through Lines.

With the American Army in the St. Quentin Sector, Oct. 4.—(By the Associated Press)—British forces broke through the entire Hindenburg defence system in the neighborhood of Fresnoy today. The gap between the two main lines was swept through, being followed closely by "whippet" tanks and armored cars.

During the afternoon the Germans delivered a terrific counter-attack against Gony and Leceatelet. Last available air reports are to the effect that the advancing British troops are 8,000 yards beyond the Bearovolt line.

Machine gunners in large numbers are said to have poured through the breach in the Hindenburg system toward motor buses.

London, Oct. 4.—(By the Associated Press)—French forces in the Champagne have captured Oufet and Beant Chateau, northeast of Somme.

Mont Blanc, a position of considerable tactical importance, also has been taken from the Germans.

GRAY HAIR

Dr. Tremaine's Natural Hair Restorer, used as directed, is guaranteed to restore gray hair to its natural color and non-injurious. Price \$1.00, made in St. John by the Ross Drug Co., 109 King Street.

SINK AUSTRIAN SHIPS OFF IAR

Allies Also Destroy Naval Base of Durazzo and Much Material For Austrian Army

Rome, Oct. 4.—British, American and Italian warships have destroyed the Austrian naval base at Durazzo, and the warships anchored there, according to an announcement made by Premier Orlando.

The attack occurred at noon on Wednesday, when Italian and British cruisers, protected by Italian and allied torpedo boats and American submarines, succeeded in making their way through mine fields and avoiding attacks by submarines, got into Durazzo harbor.

An intense bombardment followed, until the base and the Austrian ships anchored there were completely destroyed.

Italian sailors, in the teeth of a hot enemy fire, torpedoed an Austrian destroyer, and a steamer. Another vessel, which was recognized as a hospital ship, was allowed to withdraw. British and Italian airplanes cooperated in the work. Other Italian and Allied warships were drawn up in order of battle outside the harbor to deal with any enemy warships coming up to the assistance of the port.

Increases in New York.

New York, Oct. 4.—With Spanish influenza and pneumonia gaining headway here, the health authorities today took steps looking toward a readjustment of the city's business and industrial life until the epidemic has abated.

There were 1,050 new cases of influenza and 168 new cases of pneumonia reported during the 24 hours ending at 10 a. m. today, an increase of 668 for both diseases as compared with the previous day. Deaths numbered 126, an increase of 11.

Halifax Alarmed.

Halifax, Oct. 4.—Drastic steps will be taken by the city health board to prevent the spread of Spanish influenza and pneumonia, which are spreading in the theatres, schools and all other public places where people congregate, even the churches, if the situation warrants will be closed for an indefinite time.

Saltions Closed.

Philadelphia, Oct. 4.—Orders of the state health commissioner closing every saloon and place of amusement in Pennsylvania were enforced today in an effort to check the spread of Spanish influenza, which in some sections of the state, particularly in the east, has reached epidemic proportions and is seriously interfering with war industries.

Spreads in Ohio.

Cleveland, Ohio, Oct. 4.—Spanish influenza is spreading throughout Ohio, according to reports received from all cities. Classes at Miami University, Oxford, were suspended, and about 500 students left for their homes. The university hospital is filled with sick and part of the men's dormitories has been taken over for hospital purposes.

191 Died in Boston.

Boston, Oct. 4.—Spanish influenza and pneumonia claim 191 lives in the city today.

HALIFAX MAN KILLED

London, Oct. 4.—Lieut. J. W. Ings, Royal Engineers, belonging to Halifax, is posted as killed.

WEAK BOYS AND GIRLS

It is a mistake to think that anemia is only a girl's complaint. Girls probably show the effect of weak, watery blood more plainly than boys. Delayed development, pale faces, headaches, palpitation, and a feeling of listlessness, call attention to weak blood in the case of girls. But many boys in their teens grow thin and "weedy" and have pimples on the face, showing that they have not enough blood.

The anemic boy is just as likely to become a victim of consumption as the pale, breathless girl with her headaches and worn-out look. Let the boy in this condition catch cold and he will lose his strength and his health become precarious.

To prevent serious disaster to those of the rising generation, let both boys and girls be given the new rich blood which Dr. Williams' Pink Pills are making the world over for making. When giving these pills watch how the appetite returns and how the languid girl or the weak boy becomes full of activity and high spirits. Remember that the boy has to develop, too, if he is to make a strong hearty man. Give both the boys and girls a fair chance to develop—strongly through the new, rich blood Dr. Williams' Pink Pills actually make. You will then see active boys and girls, instead of weakly children around you.

Dr. Williams' Pink Pills are sold by all medicine dealers or may be obtained by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

RAVAGES OF INFLUENZA ARE DESPERRER THAN EVER

Halifax Will Close Theatres, Schools and Other Public Places—Nearly Two Hundred Deaths Daily in Boston and Vicinity --- Many New Cases in Montreal—Eight Deaths in Sherbrooke.

Sherbrooke, Que., Oct. 4.—Eight more deaths from Spanish influenza and pneumonia were reported today by the health department this morning. It was decided to open up one of the Catholic Brother schools as a temporary hospital, as the other institutions are overcrowded. A message has been sent to Ottawa to send more nurses from the Victoria Order and an appeal made for local volunteer nurses. One undertaker today had fifteen funerals.

Montreal, Oct. 4.—Spanish influenza today claimed three victims from one family in this city. Five more patients believed to be suffering with the malady were removed to the General Hospital today.

Spreads in Montreal.

Montreal, Oct. 3.—Forty-five new cases of Spanish influenza developing in Montreal during the last twenty-four hours, brings the total amount of the military forces here to 169. No deaths have occurred since yesterday. Thirteen new cases have developed at St. John's and four more deaths among the soldiers there, making 616 cases to date. Thus far, the cases reported in Montreal are of a very mild type and there is little probability of a serious epidemic if due precautions are taken.

Gains in Toronto.

Toronto, Oct. 4.—The epidemic of influenza is steadily gaining headway in Toronto. There are now some thirty cases in the various city hospitals and well over 500 cases of a mild type throughout the city. The eastern section of the city appears to have been hardest hit.

Close Everything.

Washington, Oct. 4.—The only way to stop the spread of Spanish influenza is to close churches, schools, theatres and public institutions in every community where the epidemic has developed. It is the opinion of Surgeon-General Blue, of the public health service, that this is the only way to stop the spread of the disease.

The death rate in army camps at home for the week ending September 27, was 34.4 per thousand, an increase of 20 per thousand over the preceding week, and was due to influenza and pneumonia, the public health service report stated. There were 1,000 deaths compared with 172 the week previous.

Reports today showed that the epidemic was rapidly spreading throughout the country.

King Alfonso Better.

Madrid, Oct. 4.—Concerning the condition of King Alfonso, who is suffering from Spanish influenza, the following bulletin was published today, in the official journal: "The inflammation of the pharynx has been notably ameliorated. A general and public eruption is manifested with a normal temperature of 99.50 at day and 100 at night."

The Canadians Show Wonderful Courage

With the Canadian Forces in the Field (10 p. m.) Oct. 3.—(By J. F. B. Livesey, Canadian Press correspondent)—Since the repulse of the enemy counter-attack last evening our line has been unchanged. Whether the enemy intends to hold Cambrai as the pivot of his new Lille-Metz line remains to be seen.

The Canadian Corps captured 26,500 prisoners, 501 guns, over 3,000 machine guns and trench mortars. From August 8 to October 2 the Canadian corps captured the following: 26,500 prisoners, 501 guns, over 3,000 machine guns and trench mortars, 69 villages, 160 square miles of territory with a greatest depth in any single operation of 14 miles. It was before the Amiens battle. During this period the corps has engaged 57 divisions, almost one quarter of the enemy forces, of which forty were fully engaged and seven partially. The Canadian corps have, therefore, secured their brand in unmistakable characters upon the German military machine.

Stubborn Contest.

Elsecourt is still a debatable point, both our own and enemy posts being reported in possession from time to time.

The village had the fate to be the crux of bitter fighting ever since we drove the Boche out of Bourlon Wood. The British Columbia Highland Battalion stormed Sarcourt, from which they took more prisoners than their total strength. They then pushed on towards Belcourt. As they went forward the enemy concentrated his machine guns on the devoted little company. This battalion lost heavily, because many of its men were inexperienced in the tactics of retreat. They died at their posts even when surrounded. The same kind of thing was repeated on a larger scale both on Monday and yesterday. Once our men get their teeth into a position they would sooner die than let go. The alternative of surrendering does not seem to enter into their heads. Wonderful stuff that they are, it is the quality that stemmed the torrent of enemy counter attacks yesterday.

VIENNA DESIRES A PEACE CONFERENCE

(Continued on page 2) By H. W. Smith. (Special Cable to the N. Y. Tribune, and the St. John Standard)

The Hague, Oct. 4.—The following is based on information which reaches source and may be taken as accurately representing the views held in the high quarters in Berlin a few days ago. Since then the situation has become worse.

The German government now sees the future in such a light that it realizes the necessity of peace. It comes plainer daily that such terms as those that it has heretofore been ready to offer have absolutely no chance of acceptance by the Allies, but through the country belief is spreading that the future of the country would best be served by formal proposals with the embodiment of President Wilson's conditions. It is by no means certain that such action is likely in the near future, and in military and official circles there still exists a determination, that if it is necessary, to fight it out.

SUMMER HOME BURNED.

Harold McCaw, 267 Gorman street, yesterday received word from Cole's Island, that his summer home at that place had been burned to the ground with all its contents. The loss is placed at \$1,000 with insurance of \$300. Mr. McCaw is at a loss to account for the blaze as the house had been shut for the winter. The windows had been all boarded up and all the doors locked and he does not understand how it could have caught fire.

MONTELOTTI'S MESSIAH TO WOMEN!

Women, with weak, tired, nervous, and deranged conditions, find relief in the use of Dr. Williams' Pink Pills. It is a special and highly concentrated compound of genuine Norway pine extract, known this world over for its prompt healing effect upon the nervous system.

N. B. POTATO MEN MAKE A PROTEST

Carleton and Victoria Growers and Shippers Object To Toronto Food Board Man Cutting Price To \$1.65 a Bag.

Special to The Standard. East Florenceville, Oct. 4.—The following resolution was passed at a meeting of potato growers and shippers of the counties of Carleton and Victoria, held at Florenceville today:

"Whereas we understand the representative of the Canada Food Board in the City of Toronto has become active in the purchase and sale of Manitoba potatoes, placing that variety in competition with the growers and shippers of potatoes in the province, and are offering potatoes at one dollar and sixty-five cents per bushel, delivered at Toronto, a price which would allow or net the growers of New Brunswick only two dollars per barrel and

"Whereas the cost of growing and marketing potatoes this season will average at least three dollars per barrel of one hundred and sixty-five pounds, f.o.b. cars at shipping points, this action of the Canada Food Board, if continued, will cause a serious loss to the potato growers of the province, and so discourage farmers as to seriously reduce the production of this valuable article of food.

"We feel that the action of your Toronto representative is not in accordance with the purposes for which your board was created, and consider it a discrimination against the potato growing provinces of Canada. We respectfully petition your board to cause the action of your Toronto representative to be discontinued."

(Signed) A. A. MARBONSON, Pres. for N. B. Potato Growers Ass'n. C. L. SMITH, Pres. for United Farmers of N.B. H. H. HATFIELD, For N. B. Potato Shippers Ass'n.

CASUALTIES

Ottawa, Oct. 4.—The following casualties have been posted: Infantry.

Killed in action—A. Weatherbee, Lance Corporal, Hillville, N.S.; Lower Truro, N.S.; A. H. Patterson, Hillville, N.S.; D. Grant, Gaspereau, N.S.; Wounded and missing—B. O. Richard, Upper Abouhagan, N.B.; J. Power, Arichat, N.S.; Gassed—J. Deadder, Kentville, N.S.; Wounded—J. F. Lovett, Holey's Cove, N.B.; D. March, Mill Creek, N.S.; Lieut. P. B. Scholey, Centerville, N.B.; A. Richardson, Lower Brighton, N.B.; D. McKinnon, Sydney, N.S.; R. R. Garnett, St. John, N.S.; Lance Corporal J. K. Glass, Cold stream, N.B.; L. N. B.
