The Great White Plague Largely on the Increase. How to Decrease Canada's Deathrate.

"What's the use of locking the stable door after the horse is stolen?" A wise man is forehanded and locks the door first.

Apply this to Consumption. What's the good of treating an incurable disease? Be forchanded, lock the Gateway-Catarrin, and thus prevent Consumption from taking hold of your system. Every sensible person knows that Catarrh is the forerunner or starting point of Consumption, and every Catarrh sufferer is very liable—not perhaps right away—but perhaps next year or afterwards, to be in the deadly grip of that dread

The way Catarrh develops into Consumption is very simple. During the day or waking part of one's life, the Catarthal mucous which forms in the nose and throat is hawked up and spit out. During sleep this is sbeyond one's control and very frequently small par-ticles are inhaled into the Brondhial Tubes and Lungs, thus affect-ing these organs—RE-SULT—Consumption. Reader, if you have late; take it in time. Remember "A stitch in time saves nine."
Remember that Consumption — The Great White Plague of Cana-da—is largely on the

caution not to be num-bered among its victims. Should you be one of the lucky and escape Consumption, then what a trial and annoyance you are to your friends. How they loathe and abhor you when you ate forced to hawk and clear your threat of the Catarrhal mucous;

your sensative feelings, by telling you of the seckening disgusting bad smell which comes from your nose and throat.

If you are wise, and show good judgment enough to decide to have your Catarrh attended to right away, then the next question to determine is what treatment is best to use. Avoid the numerous, inferior and worthless nostrums so freely advertised in many papers. Seek out a man of well-known reputation, whose integrity, straightforwardness and honesty of purpose can't be questioned—whose aim and object in the world is to do as much good as lies in his power to his fel-

low-men — whose greatest happiness is derived from benefiting his fellow human beings. Such a man Catarrh Specialist Sproule has tried to prove himself to be. His sixteen years' His sixteen years' work in the United work in the United States and four in Canada have made his worth known to a vast number; and some of his cured patients can be found in almost every village and hamlet all over the North American Continent. Continent.

The erroneous idea that Catarrh can't be cured is believed by many Canadians. This belief is fostered by the statements of ignorant physicians, also due to the fact of people trying worth-less and inferior pa-tent medicines, with no lasting benefit. She is 92 years old, and has seven children, 73 grandchildren, 135 great grandchildren and four great-great grandchildren. Albany, N. Y., April 24—Geo. M. Passage, a well-known merchant of Rensalaer, was shot four times and probably fatally wounded by an unknown burglar early this morning. He was roused by a noise in his store, which adjoins his house, and, entering he discovered a masked man rifling his office. He grappled with the man and succeeded in dragging him over to the telephone. Gefore he could call the police the burglar revolver, shot Mr. Passage four times. The burglar then made escape, leaving behind his hat and revolver.

Tell Me His Name.

The Name of Someone Not Well. Let Me Send My Book.

I want to know a man or woman who needs help.

Just a postal will do, for no money is wanted. Tell me which book I shall send.

Let me explain a treatment which I spent a lifetime in learning; a treatment so effective that I let any sick one take it at my risk. I accept not a penny if it fails.

With the book I will mail an order on your druggist for six bottles Dr. Shoop's Restorative. I will authorize him to let you take it for a month. The cost is only \$5.50, if it succeeds and I will pay the druggist myself if it fails.

I will leave the decision with you.

That is a remarkable offer, and the fact that I make it ought to convince you that I know how to cure. No matter how difficult your case, mine is the entire risk. I pay the bill if I fail.

And sometimes I must fail, for there are causes, like cancer, which no man can cure.

But my records, covering over 600,000 cases, show that 39 out of each 40 who get those six bottles pay. That means that 39 in each 40 get well.

This is the secret of my success:

I have found the one treatment that strengthens the inside nerves. When an organ is weak, I don't doctor the symptoms; I don't treat the organ at all.

But I bring back the nerve power which alone makes that organ act. When an engine is weak, you don't doctor the engine; you give it more steam. I do just the same with a weak vital organ; I give give it more nerve power.

Any organ will do its duty when it has sufficient nerve power, but never without it.

Most, chronic diseases must be cured in my way. Most chronic diseases must be cured in my way.

Den't be incredulous when I take the entire risk.

You have nothing to lose and everything to gain. I am sorry for a sick one who will let any prejudice keep him from writing
