

MAN DIES IN HOSPITAL AFTER RESCUE FROM HARBOR BY DARING WEST SIDE MAN

Charles McCarthy Falls into Lower Cove Slip and Mark Burns, at Great Risk, Jumps in to Save Him—Taken From Water Just in Time—Attempts to Revive McCarthy Are in Vain.

Saturday, Sept. 20.—Charles McCarthy, of Broad street, died at the General Public Hospital yesterday afternoon at 4:30, after having been rescued from drowning in Lower Cove slip by Mark Burns, of Winslow street, West End.

McCarthy fell off the end of Kerr's wharf shortly before 8 o'clock. Mark Burns, who was unloading sand in Lower Cove slip, heard the cry of "man overboard," and at once ran to the place where the crowd had gathered. Seizing the crowing man Burns threw off his hat and coat and leaped from a board pile to the water, a distance of twenty feet. After a short swim, he reached McCarthy just as the latter was going under, and the rescuer had to dive to clutch him.

Peter McDade and Ollie Emery, with whom Burns was working, were also on the scene and they threw a board to the men in the water and with the aid of this Burns managed to keep the victim's head above water until the ambulance reached the wharf.

When the boat was near Burns called for the boatmen to take McCarthy first, and while this was being done Burns swam to the stern and hung on until the unconscious man was pulled in.

Worked Hard to Revive Him.—The rescuer worked with McCarthy for half an hour after they made the beach, and they were ably assisted by John F. Murphy, of 116 Army street, Cambridge (Mass.), a student at St. John's College. Mr. Murphy, who arrived yesterday morning on the Calvin Austin, was walking along British street and when he learned of the accident he at once hurried to the scene and his knowledge of first aid proved of great value in the endeavor to save the unconscious man.

While Burns was struggling with McCarthy, he had called to people on the wharf to get a doctor, as he realized that McCarthy was in a serious condition, and for a moment he was almost overcome by the sight of the man who was struggling with McCarthy, but he was given up.

Dr. Rowley was finally called and he arrived at 8:30 and Coroner Benjamin Carter notified. The coroner ordered the ambulance, and at 8:55 McCarthy was removed to the General Public Hospital, but life was almost extinct, and he died about an hour after he reached the institution.

The work of rescuing the drowning man was done by west side workers working on sand scows in Lower Cove slip, the same men who sent in the alarm of a fortnight ago when the store of Robertson, Foster & Smith, Ltd., was burned, and they were outdone in their condemnation of the lack of police patrol in Lower Cove, as they said it was forty-five minutes after the accident before a policeman showed up.

McCarthy fell off the end of Kerr's wharf shortly before 8 o'clock. Mark Burns, who was unloading sand in Lower Cove slip, heard the cry of "man overboard," and at once ran to the place where the crowd had gathered. Seizing the crowing man Burns threw off his hat and coat and leaped from a board pile to the water, a distance of twenty feet. After a short swim, he reached McCarthy just as the latter was going under, and the rescuer had to dive to clutch him.

Mark Burns cannot be given too much credit for his timely and courageous action and his efforts to save McCarthy are deserving of recognition as he certainly risked his life in keeping the unconscious man afloat for upwards of five minutes. The boatmen said that Burns still clinging to the victim, was just sinking as they arrived, and they caught him just in time. The man was nearly submerged.

Mark Burns has a record in life-saving that is most creditable. Last winter a night two longshoremen were thrown from the gantry on to the steamship Mount Temple at No. 1 berth, when a truck, heavily laden, overturned. The men, who were on the ship and the wharf and Burns and other men were lowered to the water and the victims of the accident saved. Burns and his companion raised the truck and they were in danger of being crushed by the lines.

Several years ago Burns saved three men from drowning. Joseph Murphy fell from a scow which was discharging deals to the Empress of Ireland, and Burns leaped to the rescue from the deck of the liner. The second rescue by him that winter occurred when he rescued Carvill and Frank Burns who were washed over from a deal-laden scow. Mark Burns was working in the hold of the Empress of Ireland, a distance of thirty feet, on the alarm, and again jumped from the deck. Frank Burns, who was able to swim, brought Carvill to the steamer with the aid of Mark Burns.

Even in the Pacific, Mark happened along at the right moment. In Vancouver, last summer, he was walking to his boarding house along the beach at English Bay, at 10:30 p. m., when he heard calls for help. Burns could not see what was the trouble as the night was dark, but he at once plunged into the water. Guided by the cries, he swam out and found a man and a girl clinging to an overturned canoe, and he brought them to the shore.

Charles McCarthy was employed as a watchman at the Sugar Refinery site. He was about 60 years of age, and leaves a wife and family residing in the States.

Patrick, who procured a key, and when they entered the house found Mr. Roach dead in bed. Dr. Roberts was notified and he was taken to the hospital, where it was found that death had been due to natural causes and gave permission to have the body removed to O'Neill's undertaking establishment. Mr. Roach had no immediate relatives in the city.

Previously he was in the employ of a large oilcloth house and made many friends on his visits here. His wife, who died some years ago, was a daughter of the late George Fleming, an aunt of George W. H. Reid, of Salt Springs. Interment will be in this city.

Friends of Samuel B. Dunham, of Carmarthen street, were shocked to hear of his death, which occurred at an early hour yesterday morning. Although he had not been well for some time, he had only been confined to his house on Sunday. He is survived by his wife and five children—Samuel, Frank and George of this city, Mrs. H. M. McDonald, and Miss Julia, of New Brunswick, and Mrs. Elizabeth Stockford, of this city.

The death of Mrs. Matilda Lincoln, widow of George Lincoln, occurred at an early hour at the residence of her sister, Mrs. John Anderson, 286 Gullford street, West End. The funeral will be held on Sunday afternoon at 2:30, at Cedar Hill from the residence, where Rev. H. A. Pierce will conduct services. Mrs. Lincoln is survived by a son, Lawrence, of St. John, two brothers, Thomas Clifford of St. John and John J.
