The indications of worms are rest-
lessness, grinding of teeth, picking
of the nose, extreme peevishness,
often convulsions. Under these con-
ditions one of the best remedies that
can be got is Miller's Worm Powders.
They will attack the worms as soon
as administered and they pass away
in the evacuations. The little suffer-
er will be immediately eased

The Transcript

Published every Thursday morning
from The Transcript Building, Main
Street, Glencoe, Ontario. Subscrip-
tion—in Canada, \$2.00 per year; in
the United States and other foreign
countries, \$2.50 per year.

Advertising.—The Transcript covers
a wide section of territory in West-
ern Ontario, and its readers are the
leading farmers and townspeople.
It is a first-class advertising medi-
um. Rates on application.

Job Printing.—The Jobbing De-
partment has superior equipment for
turning out promptly books, pam-
phlets, circulars, posters, blank
forms, programs, cards, envelopes,
office and wedding stationery, etc.
A. E. Sutherland, Publisher.

The Prince of Wales described
Canada in very happy language when
he spoke of this Dominion as "a
great, clean country, full of hope and
confidence in the future."

After a young couple from Arkona
were married in a Forest church
they requested the local newspapers
to make no mention of the event. It
would be interesting to know which
was "shamed of other."

There is a proposition to dredge
the Thames River from London to
Chatham, presumably to make it nav-
igable. Before public money is
wasted on such a project, it might
be well to recall London's calamitous
experience in 1881 at navigating the
Thames.

With an increase in motor car traf-
fic as great in the next few years as
in the past, it may even be necessary
to provide separate paths for bicy-
cles and horse-driven vehicles, as
well as for pedestrians, suggests the
St. Thomas Times. Then another
for the road hog and one for the
boozer.

Quite frequently United States
tourists in Canada may be seen
flaunting their country's flag on their
cars, omitting the British flag or giv-
ing it a secondary place. If these
flag-wavers choose to make them-
selves ridiculous in this manner Can-
adians will not object. In fact we
rather enjoy its amusing side.

The big printing firms of Toronto
which have the name of their pub-
lishing house prominently advertised
on every school book they publish
do not print text books at the price
advertised on the books. They get
direct grants from the Legislature to
pay the cost of the plates and any
loss they may have at the low price
of printing the school books. This

extra comes under the heading of
what is known as "subventions to
publishers as supplementing retail
prices of text books. Here's the haul
six firms got from the Provincial
Treasury:—Copp Clark Co., \$13,578.
18; T. Eaton Co., \$106,692.94; W. J.
Gage & Co., \$13,212.76; Hunter Rose
Co., \$174.59; McMillan Co., \$1,475.16;
Ryerson Press, \$22,921.15. The T.
Eaton Co. isn't printing those public
school books so cheaply after all.

The problem of finding farmers to
buy the farms in Western Ontario
vacated by retirement and other
causes is receiving the attention of
the Western Ontario United Boards
of Trade, in the solution of which co-
operation is sought. The question
is discussed in an article which ap-
pears in another part of this paper,
which should be read and given due
consideration. No class of the com-
munity is in a better position than
the farmer to discuss the problem
and assist in arriving at its solution,
and we would be very glad if some
of our farmer readers would state
their views in letters to the editor
for publication in The Transcript.

As a farmer to see his horses,
cattle and grain, and not as a sight-
seer to entertain and be entertained,
the Prince of Wales comes to Canada
in August. Thus, in his own way,
His Royal Highness is doing his bit
for agriculture, the world's greatest
basic industry.

Existing immigration restrictions
will be continued according to the
Canadian Minister of Immigration,
who said that a lifting of these pre-
cautions would result in artisans and
laborers of Northern Europe flocking
to Canada in large numbers.

A future Jewish nation on old Jew-
ish territory, Palestine, will be the
subject of an international Jewish
Conference in Jerusalem in Decem-
ber. About fifty million dollars have
been subscribed by American Jews
to pay the expenses of the emigration
of 50,000 Jews to Palestine yearly.

Supplementary estimates provide
\$200,000 to assist in cheapening the
carriage of coal from Alberta mines
to Manitoba and Ontario. Few peo-
ple will criticize an experiment look-
ing to the independence of our coun-
try in a commodity which is used in
almost every Canadian home.

Following close on the heels of Dr.
Glover's tuberculosis serum, and Dr.
Hunting's insulin, comes a cure for
paralysis by Professor Hunter and
Dr. Boyle, of Sydney, N.S.W., who
claim to have obtained remarkable

results. Research having to do with
the relief of human suffering is one
of the best finger points of the pres-
ent age.

The Crow's Nest Pass Agreement,
which came into full force again on
Monday, affects freight rates in West-
ern Canada, providing substantial
reductions on specified commodities.
According to the Shippers' Bureau at
Winnipeg, the schedule of freight
rates which has again become effec-
tive will mean a saving of at least
ten million dollars a year to the con-
suming public and will materially as-
sist in the progress of the West.

That only twenty per cent. of the
electors voted in the prominent by-
election in Northwest Toronto when
W. H. Edwards, Conservative, was
elected, is a recent evidence of the
wide-spread neglect of the ballot.
Dr. Joseph Fest Newton, late of Lon-
don, an internationally known stud-
ent of public affairs, stated the other
day that taking all kinds of elections
into account, hardly more than thirty-
five per cent. of the people entitled
to vote ever voted on any issue.

A decrease in gross receipts of the
Canadian National Railway is re-
sponsible for the offer of President
Thornton and staff to work one day a
month without pay, a reduction of 4
per cent. in the monthly cheques. If
all "married" employees not under
agreement but receiving at least \$150
a month, and "singles" at \$100 a
month or over, accept this lead, an
annual saving of about \$5,500,000 will
be effected. The direct effect of this
innovation would be to keep more
men employed and thus distribute
the load.

AUCTION SALES
