WAIT A MINUTE. Education for poor boys in the form of a new college to be opened in the Fall of next year, according to announcement made today by Dr. John F. Carson, pastor of the Central Presbyterian Church of Brooklyn, and president of the Stony Brook Presbyterian Assembly. The college is to be erected on the grounds of the assembly at Stony Brook, L. I. and the plan is to support it by endowments from individuals and benevolent organizations. Construction of the necessary college buildings is to be begun at once. These will contain class and lecture rooms and study halls. The existing buildings at Stony Brook will be utilized for college purposes until they are outgrown. These include a large auditorium which has been used for summer conferences and which will be beautified for a college auditorium. The two established hotels on the assembly grounds will be used as dormitories for the students. Dr. Carson and other supporters of the project believe that the time is ripe for the foundation of a high-grade college for ambitious youths who are precluded by lack of means from attending existing institutions. It is their opinion moreover that the needs of the age demand that such a college for poor boys should be a Christian institution. Therefore one of the essential studies at the new institution will be that of the Bible in which lessons the students will receive examinations. Gathering of Chemists Delegates from Canada, Mexico and several countries of Europe, including the Institute of Mining and Metallurgical Engineers, the American Ceramic Society, the American Electro-Chemical Society, and the Technical Association of the Pulp and Paper Industry.

DEALERS' LUMP ADS TO BEAT MAIL ORDERS Thirty-nine of the leading retailers in Elmira, N. Y., have embarked in a drive against the mail order house through a concerted advertising campaign in which the merits of buy at home are discussed. All copy is signed by the thirty-nine co-operating firms and the half-size displays are convincing. A series of these advertising moves will be followed this fall, each one taking up the phase of a mail-ordering complaint and pointing to the different classes of merchants.

WANTED The Serbian woman ranks among the most intellectual in the world. No Serbian girl would feel that she could hold up her head in society unless she would speak at least four languages, and there is scarcely a woman Serbian but can play some instrument. While the late Madame de Roche was the pioneer of women flyers she was not the first woman to ascend in a heavier-than-air machine. This distinction belongs to Madame Sere Peltier, a French sculptress, who made an ascent at Turin in 1908. M. Delagrange being the pilot. The first woman to become honorary colonel of a regiment was Princess Charlotte of Prussia, who married Czar Nicholas I. and who, on becoming a widow, asked her brother-in-law, King of Prussia, to transfer to her the colonelcy of the Sixth Regiment of Prussian Cuirassiers. He did so, and thus the fashion started. One of the most versatile of Brittain's peeresses is Gertrude Lady Deedes, who is now converting her country-house into a hotel which she intends to manage herself. Lady Deedes is a celebrated authority on cats, dogs, and birds, her breeds of cats, dogs, and Pekingeses dogs being world-famous. She has invented various mechanical games and puzzles and some years ago patented a new antiseptic
