A BAD COLD

Developed Into BRONCHITIS.

Neglected Bronchitis is very often the direct cause of Consumption, and on the first symptom appearing Dr. Wood's Norway Pine Syrup should be used and the Bronchitis cured.

The symptoms are, tightness across the chest, sharp pains and a difficulty in breathing, a secretion of thick phlegm, at first white, and later of a greenish or yellowish color, coming from the bronchial tubes when coughing, especially the first thing in the morning.

Mrs. Dan. J. McCormack, Cleveland, N.S., writes: "My little boy two years old caught a bad cold which developed into Bronchitis. He was so choked up he could hardly breathe. Reading about your wonderful medicine, Dr. Wood's Norway Pine Syrup, I decided to try a bottle and with such good result I got another which completely cured him, without having a doctor. I cannot say too much in its praise; I would not be without it in the house as I consider it a sure cure for Colds and Bronchitis."

The price of "Dr. Wood's" Norway Pine Syrup is 25c. It is put up in a yellow wrapper. Three pine trees is the trade mark. Be sure and accept no substitute for Dr. Wood's.

on the back for his manly letter. Keep it up "Acadian," we need more just like you in this world. I was highly amused with "Hiawatha's" letter. Poor fellow! He doesn't want to correspond with any girls who dance or play cards. He might have added skating or theatre-going. One is just as harmless as the other; of course if one's mind is naturally evilly inclined, he will take harm out of the most innocent pleasure. I have danced a great deal and played cards as well and I hope I am none the worse for it. I am afraid if the girls were as particular about the men as the latter are about the former, there would be a much greater number of "old maids" in this world. "Hiawatha" says he would not want to marry a girl who would deceive a man. I think he is looking out for an angel, don't you, girls? What if we all said: "I want a man who doesn't smoke, chew, swear, drink, gamble and all the rest of it?" I am afraid we would all be old maids, wouldn't we, girls?

Many have been the long winter evenings we have passed pleasantly in a quiet game of cards or a nice dance and I am sure the readers of these columns will agree with me when I say they are both quite harmless. If they are not harmless to some let them stay away from such things, but at the same time, not to censure those who thoroughly enjoy such pleasures, I call such a person unjust. I quite agree with "Hiawatha" when he says it is not right to correspond in view of matrimony. It is too "risky," as "Lulu" puts it in her letter. I hope I have not taken up too much of your valuable paper, I will sign myself (as it is indeed true), "A Happy Wife."

Some Suggestions.

Holland, Sask.
Sir,—Are you open to some suggestions towards the improvement of the W.H.M.? If so, I would suggest a Camera Club with an exchange column and occasionally reproducing some of the members' work.

The Correspondence column is very amusing, at times it seems to take a serious aspect. Now, dear editor, am I getting offensive if I propose a set of rules for the correspondence page which would be apt to increase the interest of all readers and would often act as an education. First, all letters published to contain a description of the town or district lived in by the writer during some period of his or her life or the description of some curious incident that has come to the knowledge of the writer, an opinion on some interesting subject as a change from the usual type of letter appearing, which states the height, weight, etc., of the writer, which may not be interesting to everyone. I do not wish to imply that all letters appearing are of this type as I have come across, during the years I have been a subscriber, many letters which were very interesting and others instructive. I only wish to imply that all letters published in your columns should be of interest to all the readers and make the W.H.M. Correspondence page a veritable geography with a detail not found in our school books. Yours truly J. Herring.

A Breezy Letter.

Strathclair, Man.
Sir,—A neighbor gave me some of the late numbers of the W.H.M. which I enjoyed reading very much. The stories are very interesting; the Young Woman's column should be very helpful and the patterns are both pretty and practical. I think some of the letters in correspondence are witty, others wise, and some otherwise.

In considering the chore problem, don't you think "circumstances alter cases"? As to men's habits I like to see a man enjoy a good cigar while he is resting, provided he does not rest too often. Also enjoy watching a number of men talking and smoking, they seem so sociable and happy. But it is no pleasure to see a man smoking during business hours or to see him go about all day with a pipe or cigarette in his mouth. That surely is an intemperate habit. I should like to correspond with any of the girls and boys as a pastime during the long winter months. I am tall and slim, with brown hair, freckled face and turned up nose. Am old enough to vote. Fresh air is my hobby. "Outdoor Girl."
