### FOR GOWNS AND SUMMER SUITS.

VER strike you how important a shade navy was at this season of the year? It's more prominent among the fashionable shades this year than it has been in many for two reasons.

First—You can get navy in the sheerest of fabrics for summer gowns and the fashionable folk of the leading fashion centres of Europe and America have taken kindly to these sheer fabrics yet for street gowns. Sheer fabrics in delicate shades are not the most practical, hence the

Secondly-Can you think of any shade that looks better in a firm fabric for an unlined shirt waist, skirt or a tailored suit for your summer travelling than

In navy you'll find no new or desirable weave wanting in this stock.

Such weaves as Voile, Etamine, Notte, Ripley finished Cloths, Empire Cloths, Broadcloth, Canvas and Cheviot get a good showing.

Newspaperdom, of New York, says in its issue of May 21, concerning a former Chathamite:

That there could be no more fitting selection than the appointment of A. T. Macdonald to fill the managing editorship of the New York Daily News is evident from the improvement in the paper since Mr. Macdonald took charge. He is one of the most energetic editors in New York, and I predict that, if given a fair opportunity to exercise his judgment, he will make the News a factor in the New York field. Mr. Macdonald's personality is exceptionally pleasing. That there could be no more fit the New York field. Mr. Macdonald's personality is exceptionally pleasing. There is a total lack of any of the affected exclusiveness which takes possession of so many young newspaper men when appointed to responsible positions. However, Mr. Macdonald is determined and progressive, and has more than ordinary executive ability. That he will be heard from we cannot doubt.

ASSESSMENT BIL LDELAYED.

# Laid Over for Fall Meeting of the Toronto, June 3. - The Legis-

tature decided yesterday to suspend for the present their intention of morning sittings, which were to commence to-day. This was due to twocauses, in all probability, the fear of running out of work before the Gamey Commission's report came down, and the desire not to interfere with the in-teresting proceedings now going on in the Public Accounts Committee. The House also approved the recommenda-tion of the special Assessment Com-mittee that the municipal taxation bill stand over until next fall, when the committee will meet specially to deal with it. The report was not passed, however, before Mr. Whitney had made an objection. The statute law amendments, the omnibus bill con-taining fag ends of Government legislation, was considered at length in committee and explained by Col. Gibson. The Attorney-General also spent much time in carefully explaining the consolidated municipal bill, which contains 129 clauses. Several other Government bills were also put through committee.

### "BIG CHARLIE" DONE FOR. A Horse Lived Thirty-one Days in

Frank Mine. Winnipeg, June 3.-A Frank correspondent writes that miners made the first entrance to the Frank coal mine on Friday last, since the disaster of April 29. They found that a powerful horse, "Big Charlie," as he called, was actually alive in the mine after thirty-one days of imprisonment without food and during part of the time without water. At the time of the silde five horses were at work in the mine. Three were probably drowned, the fourth succumbed to starvation, and the fifth actually lived until the men found him in a dying condition. The poor creature had eaten fully six inches off the edge of the coal car. All day Big Charlie was cared for as an infant, Manager Gebo himself taking charge of the patient, but he expired on Saturday. called, was actually alive in the mine
