Diamonds for Grand Opera Stars

BASE metal is no fit den voice of a great singer. So-in the new Edison Phonograph, the Reproducing Point is a Diamond.

This gem is a permanent part of the instrument-doing away with metal needles which must be changed with every record. With

The EDISO **PHONOGRAPH**

Thomas a Edison

the liquid, melting, thrilling tones of the glorious grand opera voices come to you in all their ravishing richness and clarity. To hear Martinelli and Bonci-Lucrezia Bori and Anna Case—Polese and Caronna—is a treat indeed; and they are heard at their best with the new Edison Phonos graph.

The new Edison Phonograph has the diamond reproducing point, unbreakable and long playing records, superior motors and construction, concealed horns, and the Cabinets are made in true Period styles, in perfect harmony with the finest

furniture. Remember, you have a standing invitation to call on any Edison dealer and have him play for you any Record, or any number of Records, that you care to hear.

Whether you have an EDISON—or intend to get one—go and see the new instruments and hear the new records, or write us for complete information today.

Thomas A. Edison Inc., Orange, N. J.

MARKET REVIEW AND FORECAST

Torouto, Monday, Oct. 18—A war correspondent connected with a New York paper has unconsciously sive out some information that may be a indicatory of Canada. He states that in industry of Canada. He states that in the exclusive cafes of Paris, mith and cream are very controlled to the control of the contro
