### Windsor as a Sale Point for Live Stock

Writing this article regarding his coming sale at Windsor, Ont., Mr. Mossom Boyd says:

"Since American breeders have put a bar on foreigners by getting a law passed prohibiting all but American citizens from buying live stock, we Canadians are pretty well shut out from the American market, for the amount of duty is almost prohibitory, and it is difficult, especially in dull times, to bring Americans to a sale in the interior of Canada, even as far as Toronto.

Windsor, being on the border and almost a suburb of one of America's finest cities, might, we think, be made a well-known and popular sale centre for Canadian stock, if Canadian breeders would unite in promoting it. For this sale we have secured the use of the stables, etc., belonging to the Windsor Driving Park Association, but in case our suggestion should be adopted, a suitable sale pavilion and stables should be provided for future sales, towards the erection of which the Canadian Government might be asked to give assistance. We know of no place so convenient as Windsor, for there is no Canadian town so closely connected with an American city, and so convenient to the Central States.

"If we make this inaugural sale fairly successful it will be a step towards making Windsor known to Americans as a sale point for Canadian cattle, and if others will also adopt the place and succeed in making it a popular sale centre, the position of Canadian breeders will be greatly improved.

Our sale will consist of 75 head and will include a large proportion of Double Standard Polled Herefords. We presume you know the history of this variety, but if you would like some literature respecting it will be pleased to send you some, also catalogue of sale; and we would strongly recommend you to give this kind some consideration for we believe these cattle will be fairly profitable, especially for the next few years while they are scarce."

### Bowmanville and Port Hope Fairs

The Agricultural Associations of West Durham and Hope, whose fairs were held lately, are to be congratulated on the manner in which they were conducted. "Purely educational" seems to have been their motto, and this was carried out to the letter. They were free from all objectionable features. It was a pleasure to be able to examine the

exhibits without the annoyance that is usually found at fairs, such as lakiers, midways, etc., which direct the attention of the public from the true objects of the shows.

It has often been said that a fair could not exist without the side-show, but these two Associations have proven the contrary. Purely agricultural in every respect, they were appreciated by the visitors. The live stock departments came in for a large share of patronage, showing a growing interest in such matters.
