Of the authorized issue of $25,000,000 Consolidated Mortgage five per cent. bonds, $7,498,999 is set aside to replace the amount of First Mortgage Bonds outstanding at date of the issue of the Consolidated bonds.

### FOSS FOR RECIPROCITY

A Boston, Mass., wire of October 19 said: "The tariff in its relation to the high cost of living and its bearing on the necessities of life, was declared to be the one vital issue of the state campaign, in a letter of acceptance, issued tonight by Eugene N. Foss, who today was formally notified of his selection to the Democratic nominee for governor.

The letter says in part:

"The tariff is the issue today. It has been the issue in the minds of people ever since the Payne-Aldrich bill was passed. The high cost of living demands an immediate reduction of the tariff on the necessities of life, untaxed food supplies for the people, free raw materials, and absolute reciprocity with Canada.

"There is no defense for this unjust taxation of the necessities of life. There is no defence for the taxation of food supplies of ninety millions of people that the big food trusts sheltered behind the tariff wall may force the people to pay these extortionate prices, or else adopt an un-American standard of living. There is no defence for the trade barriers we have erected against Canada. There is not a home in this country which is not being heavily overtaxed that the beneficiaries of special privilege may riot in the tariff graft of the Payne-Aldrich act. The people are tired of it and insist upon immediate relief."

A Regina dispatch states that a company had been formed in that city for the purpose of erecting an abattoir. The name of the new firm is Hugh Armour & Co., Ltd.

New York politicians have warmed up to the fight in great shape and are holding meetings daily. At one held last week Prof. Woodruff, of Cornell University, characterized Col. Roosevelt as an unmitigated liar.
