which were promised before the elec-tions. On February 10th he admitt-**EXPORTS**

> Millions of Dollars' Worth of Horses, Cattle, Sheep and Swine Shipped from Alberta and Saskatchewan Last Year.

The report of the live stock shipcents of the C.P.R. from Alberta and part of Saskatchewan as far as doose Jaw, has been prepared and ent to headquarters by H. C. Mc-Mulien, live stock agent for the road the report shows a great increase in the hog shipments and a very satstactory increase in the sheep, catle and horses over the previous

in 1908 there were shipped from liberta and Saskatchewan 10,600 torses, 98,892 cattle, 40,763 sheep, 8.618 hozs. Of this number Saskat chewan snipped 2222 horses, 11,083 cattle, 14,889 sneep, and 445 hogs, thus making Alberta's live stock nipments for domestic and export ise 11,416 horses, 87,989 cattle, 25,

.54 sheep and 48,173 nogs.

These figures show weil compared with 1907. In that year the entire hipment of horses did not equal that rom Alberta this year. This is also true with regard to cattle, and the shipment of sheep from both proinces in 1907 only exceeded the ship ment from Alberta by consideraply ess than 3000 head. In 1908 Alperta s.ipped 48,178 hogs, and the ntire shiment from Alberta and Sas-

atchewan in 1907 was 29,588. in the year 1907 there were shipped for export 42,960 cattle, while last year the number shipped for export was 61,310. These figures show that the live stock industry is picking up mervellously, particularly in hogs, and horses. The cattle shipments look well also, as do the sheep. Last year figuring the usual quota of animals to the car that the C.P.R. figures, there were 687 cartoads of horses shipped, 5499 carload of sheep and 400 carloads of hogs, in all 6799 carloads of live stock from Alberta and Saskatchewan. Of this number there were 810 carloads from

Saskatchewan and 5969 carloads from Alberta points. Prices this year compare extremely well with those of 1907, excepting horses. In 1907 the average price for crage price for 1908 was \$110. The cattle show up with a big increase, averaging \$47 a head in 1908, and \$41 in 1907. Sheep have gone up 50 orses was \$115 each, while the av cents, selling for an average of \$6 in 1908, and for \$5.50 in 1907, while he price of hogs has been stationary veraging \$9 each for 1907 and 1908. The total figures for live stock for the two provinces would thus be \$1,-199,960 for horses, 34,652,624 for cattle, \$244,518 for sheep, and \$45

In Five Minutes.

Take your sour stomach-or maybe ou cail it indigestion, Dyspepsia, doesn't matter—take your stomach trouble right with you to your phar-macist and ask him to open a 50cent case of Papo's Diapepsin and let.
you eat one 22-grain Tringule and
see if within five minutes there is left any trace of your stomach mis-

The correct name of your trouble is Food Fermentation-food souring, the Digestive organs become weak, there is lack of gastric juice; your food is only half digested, and you become nected with loss of appetite, pres sure and fullness after eating, vomi ing, nausea, heartburn, griping owels, tenderness in the pit of stomach, had taste in mouth, constipa-tion, pain in limbs, sleeplessness, beiching of gas, biliousness, sick head nervousness, dizziness and

many other similar symptoms. If you appetite is fickle, and no thing tempts you, or you beith gas or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of ail this there is but one cause-ferme tation of undigested food.

Prove to yourself, after your nex Col. R. J. Gwynne of Grenfell, meal, that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation an egin eating what you want without fear of discomfort or misery. Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapepsin.

A young lad named Suckling, in charge of a car containing horse bified for Lumsden from Carndull Dear Sirs,-We wish to inform you had both feet frozen badly on the lowing last week. The train was unable to proceed at one point for several hours, during which time the young chap was suffering from the severe frost and exposure caused by the delay. He was not permitted by the railway employees to participate in the warmth provided in the caboose. He wandered about Regina after the car arrived there, where he failed to find relief for his sufferings. Arrivin
