Big Profits in Poultry

Prof. Gilbert of the Experimental Farm, Ottawa, addressing the Brockville District Poultry association, claimed that poultry could be made the most profitable thing on the farm. Fruit took a long time to become profit bearing; cattle took years to yield paying returns, and so on, but poultry gives immediate and profitable returns. Hatch your chickens, and in four months the cockerels are marketable at 100 per cent profit. The pullets will lay at five months. The professor went on to show that on a most conservative estimate each fowl would yield 100 per cent profit at least each year. He advocated cold but dry poultry houses as productive of better results than very warm ones.

VILLAGE COUNCIL

The council of the village of Athens met in regular monthly session on Monday evening, April 3. All the members present. Minutes of last regular and two special meetings read and approved.

The first order of business was the disposal of the petitions for and against a vote being taken of the electors of the village on the question of local option.

On motion, it was resolved that a vote be taken to discover whether local option shall come into force on May 1st, 1906, and that said vote be taken at the next municipal election.

On motion, the report of Jas. T. Tennant, appointed special auditor of the B. & W. Railway debenture funds, was accepted.

On motion, the auditors' report of the village, high and public school accounts was accepted and adopted.

On motion, orders were drawn on the treasurer for the following:—

Jas Tennant, auditor	\$18 00
Wm. Willoughby, appraiser	9 35
M. B. Holmes, advice re local option	8 55
John Freeman, drawing engine to Eyre fire	2 00
R. N. Dowley, agent, premiums on fire insurance and carpenter's risk on \$2,000	85 00

Thos. Henderson appeared before the council in reference to repairs needed in the sewer from Victoria to Sarah streets. The council agreed to take the matter up at a subsequent meeting.

A communication was read by the clerk from the city clerk of Toronto, asking the council's cooperation in having the franchise extended to married women who own property in their own right. Laid on the table for consideration.

B. LOVERIN, Clerk.

THE WALLS ARE GOOD

On Thursday Mr. Wm. Willoughby of Carleton Place came here and inspected the walls of the burned A. M. S. building and in the evening gave his report to a large assemblage of ratepayers, following a brief introductory speech by Reeve Holmes. Mr. Willoughby said, in brief, that the walls were but slightly injured and that they could be fully restored for \$500.

Mr. Joseph Thompson, chairman of the trustee board, explained in detail the advice the board had received relative to the unsafe condition of the walls, and accepting these reports as correct and thinking that the walls must come down, he explained the considerations that had influenced the board in favor of erecting a larger building.

Then followed a discussion of every phase of the question, which was taken part in by Messrs. S. A. Taplin, W. G. Parish, S. King, Wm. Karley, C. L. Lamb, James F. Gordon, H. H. Arnold, John Wiltse, Horace Booth, G. F. Donnelly, W. F. Earl, Malvin Wiltse, G. E. Judson, closing with a summary of the matter by Mr. Parish.

While the meeting did not record a vote on the question, there was manifest a very strong feeling in favor of accepting Mr. Willoughby's report and utilizing the old walls for the new building.

Wanted Some Himself

A traveling agent for a wholesale grocery house in the United States was selling a bill of goods to one of his customers, a grocer in a little village. "Now," he said, "to wind up with, don't you want a few cans of our maple syrup? You'll find it the best you have ever kept in stock."

"No," said the grocer, "I've got plenty of maple syrup."

"When did you get it? I don't remember selling you any when I was here on my last trip."

"You didn't. I got this in the country."

"Is it the real stuff?"

"That's what it is. My brother made it in his own camp. He's got five hundred trees."

"I'd like to taste it."

A sample of the country maple syrup was brought out. He tasted it, and took the grocer to one side. "Say," he said, in a low tone. "I'm not going back on the strictly pure goods I sell, of course, but I want a gallon of this stuff for my own use."

Brockville's tax rate is 25 mills on the dollar.
