### A Sermonette (Crawf C. Slack)

Text—  
From the ashes may there raise a greater structure of advanced learning for this community than has been The greatest tragedy and loss to the world is Ignorance. It is the quagmire of superstition. The hotbed of riot. The cradle of crime, the concrete foundation of the throne of the overlord, it stagnates progress and is the mother of hate and war, ignorance knows nothing but narrow selfishness, and belongs to the lower animals wherein the brain power of reasoning is insignificant, it is ever pessimistic and always at war with itself, and is controlled by civic laws alone, ignorance cannot think, invent, analyze nor construct, it cannot see the beautiful in life nor contemplate the wonders of nature, it is blind to reason, resource, science and art.

As the existence of human kind depend upon the soil, let me say, "That the Yoemen of the Nation should be the best educated and advanced thinkers of the whole, and our governments should put forth their combined efforts to see that such is the case, for as a livelihood the nation has no other source", when agriculture fails, the failure is complete, there are no assets, polished furniture, Expensive Mansions, Costly Raiment, and a Bank account are well enough, but you cannot eat them and when the scourge of famine is over the land they are worthless and unimportant, the wealth of a nation depends upon the worth of its yoemen.

If I were going to establish an Academy of advanced learning I would locate it in the best agricultural district possible where the farmer and his family could have the direct benefit. I know of no district in the County of Leeds better adapted than that of Athens and vicinity. The village of Athens is a farmer's village, it has always been, it will always be, it was established by the farmers, maintained by them, and named Farmersville. To change the name was a great mistake, the primemovers in the matter had more g'itter than gold, more pride than prudence or policy.

But we will let that pass for we must forget and forgive the petty wrongs. Let us enter into the new born community spirit hand in hand and be one united country-side, in this matter of building a new school, for our new and men women, it will take some effort and cost to be sure, but we will overcome all this.

As far as I am concerned I have no children to attend the new school, and perhaps would not be directly benefited, my taxes would be increased some no doubt, but I am for education first, best, and all the time, and would not be so morally narrow and pinching as to consider the small amount which I would have to pay toward erecting and maintaining a new school, to educate the children of my friend and neighbour, the future men and women of this district.

There is no greater legacy a parent could leave his child than a first class education. We can leave no better monument to mark our Thrift, Industry, Stability, and civilization than an institution of learning, a monument enduring and worth while something to uplift and enlighten to make better men and women of our children, true they can only get the rudiments of a practical education at the school or college, but those rudiments prepare the young minds for thought, and what has thought done? It has felled the forests, civilized the savage, bridged the seas, harnessed the lightning, built and directed empires, and gave to us all the great and good things of our present civilization, and all has been brought about by the minor lessons learned in the schools throughout the world. A little education but intoxicates the brain, a greater education sobers it again. Therefore let us enter into the matter of building a new sch of hand in hand, that the future men and women may look back on our worthy efforts in kind appreciation and call us blessed.

# Children Cry for Fletcher's CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research; and no claim has been made for it that its use for over 30 years has not proven.

## What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.
