A very successful tea-meeting was held at Black River on Wednesday evening in the new temperance hall, which is now finished outside. There was a good attendance, some coming from quite a distance. The tea and supper tables were laden with a profusion of good things and were liberally patronized. The object was to raise funds for the completion of the hall, and a respectable sum must have been realized for the purpose. The division deserves great credit for the effort they have put forth, and their hall when completed will be a credit to them.

By lifting the lever at the station, the different signals are shown to the incoming train. In danger a green light appears, and when all is well, a red signal is shown, so there can be no mistake.
