Editorial Brevities.

Mark well the names of the men in the nation's roll of honor. To each man of them you owe more than you can hope to repay.

The foregoing is from the Boston Post. It is worth the careful consideration of every citizen of Canada, as well as those of the United States, for whom the message is intended.

Band Master Replies.

DEAR SIR,—When the subject started by the bandmaster and the kindly editor first appeared in your paper, I was not then aware—nor am I yet—that any particular place on the map, special engagement, or kind of treat was even suggested.

Since the bandmaster has been training boys for only about twelve years, he would not of course be expected to understand what is best for boys and how boys should be treated, and of course could not reasonably know as much about boys as your recent correspondents. Since he has been a boy himself and has passed through all a boy's experience, as an experience which your correspondents gain only in theory.

Your correspondent says that when a Comm. waits upon the bandmaster and agrees with him that the Scout band for the sum of \$10.00 and transportation both ways shall furnish music for the evening, and that after supper has been partaken of in their own homes I cannot see why it should be thought necessary to receive extra ice cream and strawberries.

I have played out with bands for over seventeen years and this summer is the first time that I have failed to see proper refreshments given to the band. Your correspondents have failed to properly appreciate the actual situation, and as a result have been 'sho boxing'.

In closing, I am not advocating a tipping system for the boys, nor yet a tipping system for the boys themselves would resent it if I were. I am only advocating what common sense and courtesy demand and if the public are not prepared to provide suitable refreshments for the band in addition to the pay money, which means one per hour per boy, then, when they want a band, please do not apply to the

Field Comforts.

Dear Madam,—I am sorry that my letter to you last month was delayed long after it was written, as there proved to be such a difficulty in obtaining paper. We have now arranged for a supply each month.

We are always delighted to receive the beautiful hand-knitted socks which come to us in almost every box from Canada. If the individual knitters could wash the socks before sending them they would be giving doubly, as the washed socks are much more comfortable for the men and wear very much better.

It was a happy surprise this month to receive the gift of \$12.20.00. for comforts from Mexico City, the proceeds of a very successful fiesta arranged by Mrs. F. W. Green, of Halifax, and her splendid committee. When Mrs. Green was in Falkstone she was a regular voluntary worker, and we are very pleased that she has kept her interest in the Field Comforts.

Another gift that we know will be much appreciated was the gift of 140 footballs and a supply of extra blades from the Ontario Government, who have also promised a generous contribution of baseball equipment for the men at the Front.

During the last six months (January to June) 2,375 cases of supplies from Canada, and have sent out the following to the Canadian Forces:—

- Rail-Shipment—B.x.s., bales, crates.....6544
Delivery.....1838
Postal Parcels.....5074
These numbers show a considerable increase of comforts received and distributed since 1917.

We are making a very urgent appeal this month for money to carry on our work. There are so many welcome supplies that we could add to our list of comforts for general distribution if we had the money to purchase them regularly. Books, magazines, writing materials, cards, games, soap, shaving-cream, tooth-paste, tooth-brushes, towels, insect powder, toilet paper, metal polish, candles, matches, pipes, Player's cigarettes, Canadian tobacco, trench cookers, soap tablets, cocoa, catsup, malted milk tablets, chocolate wafers, chicklets, curry powder, handkerchiefs, boot laces, bachelor buttons, are all asked for and much appreciated. We shall be very glad indeed if it is possible to send you whole cases of any of these supplies, as, as a rule, if used for general distribution they have to be purchased by us in large quantities to supplement what we receive from Canada.

It would be a very great help if the societies forwarded through the Commission or contributing supplies only could devote a sum of money monthly to send us for the necessary purchase of comforts here. We are very grateful to those who do send money regularly and generously. Will you ask your members if they will contribute to our funds? Perhaps some of the individual members will pledge themselves to send something regularly. Please say how very important it is to us to be assured of enough money to carry on with and that we earnestly ask them to do their best to help us.

We are not having a leaflet printed for the present because of the expense, and I regret that you will not see any of our recent letters from the Front. We have had more from individual soldiers this year than ever before, and are especially pleased with such spontaneous and unolicited appreciation of the work of the Field Comforts Commission. The following is a charming note received last week from someone quite unknown to us which therefore pleased very much. I do not give the writer's full name, as he may not care for such publicity, but if any one wishes to send to him direct I shall be very glad to supply it:—

France. June 15-1918. This is just a word of thanks from one in the ranks for the great work which you and your staff are doing for us out here. I have been continually in receipt of comforts through your unit since coming to France. I have never known anything about the organization which sends them until I read an article about your work in a Canadian paper and then I thought I would like to send this note of personal thanks.

The fact that impresses me most is, that we out here really do get these comforts very regularly, due undoubtedly to your efforts, also the things we get are so very useful, such as towels, soap, and socks, and the socks are very nice and soft. We had just received some socks one day last year when in Belgium (we needed them there), when a young boy officer of the Imperial Army told me he had no kit and he was wet through to the knees. I got him a pair of socks and he was delighted. He said they were the best he had seen, and offered me ten francs for them, but I told him that it was a souvenir of Canada for him. He said, 'you Canadians are lucky,' and we are.

BEST AID TO WEAK EYES.

Glasses if worn when first needed, will save you a heap of trouble. You may put it off, and put it off, but if your eyes need glasses, the sooner you know about it, the better it will be for your eyes and your pocket book as well. That which helps you to accomplish more is an investment—a good investment—not an expense. Your investment here will be according to your requirements, but it will be a profitable investment and the first cost will be the least cost. We guarantee satisfaction.
