

CORNER STONE TRULY LAID.

Dundas Presbyterians Building a New School.

Report of Public School Is Highly Satisfactory.

New High School Will be Gone On With Soon.

Dundas, May 19.—The May meeting of the Board of Education was held on Monday evening. There were present Chairman Steele and Trustees Nelson, Smith, Douglas, Tyson, Davidson, Reid, McPherson, Thompson and Fisher.

The High School report showed 98 pupils on the roll for April; average attendance, 93, an increase over last year of three. Fees collected for current month, \$64. The apparatus for the science room, books for library and drawing models were reported as having been received. Mr. McKimmon, the new first assistant high school teacher, reported for duty on April 5.

The Public School report for April showed 506 pupils on the registers, and an average attendance of 447, being seven over April of last year and the largest in the history of the school. In the kindergarten Miss Scott has charge of 131 little tots, the largest kindergarten, no doubt, under the management of one person in the Province of Ontario.

The banners awarded for best attendance went to the rooms of Principal Moore and Miss Sevanson. The principal stated that these banners were as keenly contested for as they were when introduced six years ago.

Chairman Smith, of the Property Committee, reported that of the work the committee had been instructed to carry out, the door had been placed in the east wall of the kindergarten, an electric fire alarm system had been installed connecting all rooms and halls of the building, and the ceiling of the furnace room had been covered with asbestos, which latter work was not deemed satisfactory by the committee. The committee was authorized to make the work satisfactory and to enlarge the furnace room to secure greater efficiency in heating.

The Internal Management Committee reported that the drawing models had been procured through a local dealer for \$50—\$5 less than the quotation received elsewhere.

Inspector Smith's report of the Public School's condition showed the attendance to be very large, some of the rooms much overcrowded. The most improved methods of teaching were in vogue, and discipline of the highest order was maintained. The report was received with much satisfaction and was referred to the Internal Management Committee.

Miss Anna Watson, appointed examiner at the coming entrance examinations, and a communication informed the board that Miss Cronin had been appointed an examiner by the Separate School Board.

From the department in Toronto came a report that the High School grant for this year was \$704.84, \$3 less than last year.

From the Town Council came officially the welcome announcement that \$16,000 would be provided for a new high school building. A committee consisting of Trustees Reid, Steele, Nelson, Douglas, Sullivan, Smith and Minty was appointed to carry out the work, and was given permission to select any position on the present school grounds for the building.

Chairman Steele gave an interesting summary of the proceedings of the Educational Association recently held in Toronto, and in reply to a question by Trustee Sullivan, at the last meeting of the board, read an opinion from Town Solicitor Gwyn, that the separate school ratepayers, as such, had no interest in the \$4,000 of the present site of the High School's interest in the present buildings, to the public school.

A suggestion from Chairman Steele that the pupils, parents and friends of the schools have an excursion during the season to the Experimental Farm in Guelph seemed to meet with the favor, and Trustees Reid, Thompson, Fisher and Tyson were appointed a committee to see what arrangements could be made for the same.

The Internal Management Committee was authorized to arrange for the Dundas representation to the Canadian teachers' trip to England.

A portrait of Mayor Moss was presented to the board, to be added to the list of ex-chairmen.

A number of accounts were passed, and the board adjourned.

Laid Corner-stone. At 7 o'clock on Monday evening the corner-stone of the new Presbyterian Sunday school building was laid by Mrs. John Laing, widow of the late Rev. John Laing, D. D., who was minister of Knox Church for over 28 years. The Rev. S. H. Gray, the present pastor, presided, and assisted Mrs. Laing. The service was opened by the singing of a psalm selection, prayer by the Rev. S. H. Gray and scripture reading by the Rev. T. J. Mansell, of the Methodist Church. Hon. Thomas Bain gave an address on the history of Presbyterianism in Dundas and the surrounding country, referring particularly to the first church built near the York road, east of King street, for all who desired to hold services there. He recalled the services held at Crooks' Hollow, West Flamboro and Ancaster. Then in 1837 steps were taken to build the stone church now occupied by the Salvation Army. Then he rapidly sketched the circumstances leading up to the erection of Knox Church, and the present Sunday school building. Mr. Bain also referred to the ministers who had been associated with the congregation up to the present, and closed with congratulatory remarks upon the auspicious occasion so hopeful of success for the future.

Mr. Gray placed in the cavity of the corner-stone the three local and other newspapers, the Canada Presbyterian, the Presbyterian Record, the Missionary Tidings, the Sunday School Quarterly, and a photograph membership of the session and Board of Management, the Knox Church report, the list of subscribers with amounts subscribed, and the historical sketch of the church and Sunday school.

Mr. Wm. Lawson, chairman of the Board of Managers, who constitute the building committee, presented Mrs. Laing with a silver trowel, suitably engraved.

graved, and she applied the mortar, while Mr. Gray pronounced the words of declaration usual on such occasions. Then the audience joined in singing the well known doxology, "Praise God From Whom All Blessings Flow," and the benediction was pronounced by the Rev. J. T. Smith. There was a large attendance of the congregation and members of other congregations in the town, and every thing was conducted in an orderly and appropriate manner.

FIRST CHURCH RECORD YEAR.

MISSIONARY CONTRIBUTIONS DOUBLED IN TWO YEARS.

Membership Shows a Net Increase of 41, and All Funds in First Class Condition.

First Methodist Church had its last quarterly meeting of the Conference year last evening. The pastor, Rev. R. J. Treleven, presided, and there was a good attendance of the members. The report showed the year just closed to be the best in the church's history from a financial and numerical standpoint, while the pastor's report on spiritual affairs was equally gratifying. For the first time on record the envelope contributions and quarterly collections exceeded the amount required for the pastor's salary, a balance of \$22.14 being carried over.

Dr. Day Smith, Church Treasurer, submitted a report showing the total receipts to have been \$7,924.66, while the total expenditure amounted to \$8,083.15. Although there was a balance of \$140.49 due the Treasurer, the sum of \$1,919.42 was paid on account of church debt and interest, reducing the total debt on the church property to \$9,000. Over \$700 was also paid for church improvements. Every congregational fund was found to be ahead of the previous year. Especially in missionary giving was the good work shown. During the previous year a special missionary effort was made, and \$1,504 was raised. It was hardly thought this would be equaled this year, but it was exceeded by \$145, the total being \$1,649, in addition to \$742 raised by the Women's Missionary Society, an increase of \$2, bringing the church's total missionary contributions up to \$2,391—double those of two years ago. The educational contribution was increased from \$151 to \$187.25, and the superannuation contribution was larger than ever before.

The total membership of the church is 785, after making every allowance, a net increase of 41 for the year. Mr. Thomas S. Morris was elected representative to the District meeting, and Mr. Cal. Davis was elected Recording Steward.

The Board unanimously approved of the duplex envelope system—a two-compartment envelope with one compartment for church purposes and one for missions. It was also unanimously decided to engage a deaconess for the church.

Mr. Treleven was invited to remain for a fourth year as pastor, and a resolution was passed on the minutes expressing the fullest appreciation of his services.

NORTH ENDERS ARE AGGRESSIVE.

PURPOSE BUILDING A HALL IN NEAR FUTURE.

Want Street Railway Trouble Settled and Extensions Built—Other Improvements Needed.

The North End Improvement Society intends taking steps at once to build a new hall for itself. The organization is in a flourishing condition now, and the members think the time has arrived when the society should have a permanent headquarters.

It is expected that a number of prominent citizens interested in the city's welfare will aid in the movement. The matter will be discussed at the next meeting on Monday, June 15. The new hall will likely be 20x40.

At a largely attended meeting held last night at Mr. Gus Ant's residence, with President Edward Porter in the chair, satisfaction was expressed at the progress being made between the city and the street railway towards a settlement of their difficulties. The north-enders are anxious to see the extensions made.

The members think the north end should be more brilliantly illuminated. There are many dark spots down there now, and the society proposes asking the Board of Works to install several new lights.

The society is rather disappointed at not receiving an invitation from the Parks Board to accompany it on its tour of inspection in the north end, as there are many things the officers wanted the Parks Commissioners to see.

Communications were received from the city regarding the re-vesting and extending of the sewers, explaining that the matter was being attended to now.

Satisfaction was expressed at the Board of Education's action in making an eight-room addition to the Pictou street school, and hope was expressed that something would soon be done to the Hughson street school.

There is a big pond at the foot of Catharine street, which the society would like to see filled in, as it is in very bad shape just now.

"For goodness' sake," for the sake of the satisfaction you get from using it, buy "Salada" Tea. It pays to pay for quality.

The Daily Fashion Hint.

Gown of pink pongee with bands of cluny lace. The neck arrangement is one of Drescoll's newest ideas—it is a black satin stock with stiff bow in front.

Music and the Drama

Wm. Fuller . . . . . Geo. H. Summers  
Gen. W. Fuller . . . . . J. M. Donavin  
Chris Cutting . . . . . Louis E. Appell

Matilda . . . . . Ethel Kimerly  
Mary . . . . . June Breeses

With the above cast, the Summers Stock Company presented Sage Richard, son's clever farce, "The Wrong Man," at the Savoy Theatre last night, and the performance being the first of a special summer engagement. The performance was put on in a most satisfactory manner, the people being capable and the special scenery all that the piece demanded. There was a large audience present, the ground floor being filled, and judging by the applause the people thoroughly enjoyed the sparkling comedy. Mr. Summers, an old favorite with Hamilton audiences, was given a warm reception.

"The Wrong Man" is a story of a modern Ananias, whose love of excitement and adventure leads to many laughable complications. He is supposed to be captured in a gambling den. After securing his liberty he hears of a colonel by the same name, returning from Cuba in charge of his regiment, and who is to be made the hero of a big reception at a seaside resort. The adventurer decides to impersonate him. From a newspaper picture he gets an idea of the uniform worn by the real colonel and then presents himself at the summer resort. The complications that arise from this situation are extremely laughable for the real colonel presents himself shortly after. The artistic lying of the adventurer in explaining things away furnishes the fun.

Between the acts illustrated songs were sung by Louis Atwell and Doris Canfield, a clever little singing comedienne, sang. The same bill will be presented every night this week.

Next week the English melodrama, "The Silver King," will be the bill.

Clever Amateurs. They have something besides the Mendelssohn Chorus in Toronto—another organization that can do more than sing. This is the Toronto Rowing Club's Minstrels, and this year's performances have put them on a plane that rivals such celebrated professionals as Geo. Primeau or Law Dockstader and their New York companies.

The Toronto Rowing Club's Minstrels will appear in Hamilton at the Grand Opera House Friday night, May 22nd. Members of the San Toy Musical Company, who saw the last performance of the Toronto Rowing Club's Minstrels were so pleased with the whole ensemble of effects that they personally congratulated C. J. Read, the club's musical director, and were astonished when told that none of the artists were professionals, except the interloper.

Mr. Read has a chorus of 60 voices singing in four part harmony with the beauty of tone, precision and unanimity that rivals any of the best Canadian Choral Societies, who do nothing else. Besides the chorus, a number of stock pieces, the choruses and songs, and buck wing dances, the club will present a sketch entitled "Shipwrecked," with W. LaFlamme and Ad. Strathdee, in the title roles.

"Brewster's Millions" To-morrow. Frederic Thompson's big production of "Brewster's Millions," the breezy and delightful comedy which has enjoyed such a remarkable career of prosperity since its first production last season, will be presented here at the Grand Opera House Wednesday night by the Cohen & Harris Comedians. This comedy, adapted from George Barr McCutcheon's famous story of the same title, by Winchell Smith and Byron Ogley, is now being presented by two companies in America, two in England and one in Europe. The story is a satire on frenzied finance. It is full of originality, life and action and contains no dull moments. Marvelous and unusual stage effects are promulgated. Frederic Thompson, the wizard of the melodramatic effects, whose Luna Park at

Coney Island is the wonder of the world, has invented some scenic surprises for this production that has made all other producers sit up and take notice. In the third act there is a remarkable effect of a yacht in a storm at sea, wherein the illusion is so perfect that a spectator feels he is witnessing the reality. The scenic vestitures of this act is particularly beautiful.

Miss Roselle Knott Coming. Roselle Knott is to appear here on Saturday afternoon and evening in "Alice-Sit-By-the-Fire," by J. M. Barrie, author of "Peter Pan," "The Little Minister," etc. Miss Knott belongs to a class of women who elevate the stage, not by tact but by hard work, and who keep their private life entirely distinct from their professional careers. Among others who come to mind at this moment, as belonging to the same class as Miss Knott, are Maude Adams, Annie Russell and Viola Allen.

A Football Play. A play which has scored a tremendous success in every city in which it has been presented is that of "Strongheart," a play of college life by William C. De Mille, in which Ralph Stuart interprets the role and which will be seen here at the Grand Opera House, for matinee, and night, on Monday next.

"Strongheart" is said to be "full of fun and football," the scenes being laid at Columbia University, New York. The second act of the play shows the training quarters of the football eleven between the halves of a big game, which is probably one of the most novel settings ever seen on the stage, and as for its being realistic.

A GOOD MEETING. Blackheath Women's Institute at Mrs. S. McAdam's.

The annual meeting of the Blackheath branch of the Women's Institute was held at the home of Mrs. S. McAdam on May 13, twenty-five ladies being present in spite of the threatening weather.

The election of officers was held, with the following result: President, Mrs. Gibson; Vice-President, Miss Hanson; Directors, Mesdames Galloway and Trimble and Misses Simeon, Moore, Gowland and Patterson; Secretary-Treasurer, N. R. Blaine; Press Correspondent, Miss Isabel Hannah; Auditors, Mesdames Huty and Martindale.

The Secretary gave a report of last year's progress, which was encouraging. The Institute has 44 enrolled members, with the average attendance of 27. The financial condition is also good.

The minutes of last meeting being read and adopted, and other necessary business being attended to, the programme was opened by singing by the members. The first number was a good piano solo, followed by a paper on "Plans for a Farm Home," by Miss A. McAdam, who recommended a square, two-story building as being best adapted to meet the requirements of her plan, which is made to secure comfort, convenience and health.

Miss Hassie Patterson gave a fine selection of instrumental music, and the roll call was held, each member responding with a favorite recipe.

In "Current Events" Miss Petch gave a comprehensive review of the important occurrences of the last month.

Miss Whitelaw gave another instrumental selection, and Miss Gibson a reading, which was a portrayal of some of the national characteristics of the Scotch. Miss Ella Gowland played a brilliant solo, which was heartily applauded.

The Mesdames McAdam, who are soon to leave, were presented with a short address, in which, while regretting the loss to neighborhood and Institute, the members all joined in wishing them God-speed in their new home.

Mrs. John Huty provided a pleasant feature by bringing with her two copies of evelot and solid embroidery, the work of Mrs. Huty, sent, a lady of over 85, this pair being the eighth worked by her the past winter. The programme was closed by singing the usual hymn, and Mrs. McAdam, assisted by Miss Gladys McAdam and Miss Blair, served a luncheon of coffee, cheese sandwich and tempting array.

The next meeting, at which the Provincial delegate will be present, will be held at the home of Mrs. John Blair, Blackheath, on June 27, at 2.30. Mrs. Blair extends a cordial invitation to all to come.

THE DAY NURSERY. The Board of Management of the Day Nursery, 209 Rebecca street, desire to return thanks to Central W. C. T. U. for furniture for bedroom; Rogers Cotton Co., ton of coal, \$7.50; Impresario Cotton Co., \$2; Eastern Hardware Co., 80 5c packages of Red Star Tea for apron sale (Younane), \$4; Mrs. Waters, \$1; Mrs. Brown, \$1; city grant, \$2.28; Wm. Lees & Son, rebate on bill; Daughters of the Empire, per Mrs. Charlton, new shoes and stockings for some of the little ones; Mrs. Wm. W. C. T. U., groceries; Mrs. Moir, corned meat; Mr. Torrance, apples and sandwiches; friend, children's books; friend, clothing.

Children kept and fed, while mothers work, at 5c per day.

On June 18, 1869, the corner-stone of Knox Church, Galt, was laid by Rev. Dr. J. K. Smith, on Monday, May 25, the corner-stone of the new Sunday school, to cost \$25,000, will be laid by Rev. R. E. Knowles. The ceremony will be a feature of the Victoria Day observance.

HOME FAT REDUCER. Works Rapidly and Safely—Requires No Exercising and Allows You to Eat What You Like—Cut This Out

For the benefit of those who wish to reduce their flesh quickly and safely, we will give the receipt and directions in full for a simple household remedy that can be obtained at trifling cost from any good drug store: 1/2 Cascara Aromatic and 1/2 ounces Syrup Simplex. All three are cheap and wholesome, but you should take care to get an unbroken package, so that you get Marmola and not a substitute. When you get home mix the three by shaking them together in a large bottle or jar, and take one teaspoonful after each meal and at bedtime.

Follow these directions and you will have the best fat-reducer that money can buy. It will take off the flesh at the rate of at least two pounds a week without disarranging the stomach or causing wrinkles, while, best of all, no exercising or dieting is required to help it out. You can get results and at the same time take things easy and get what you like—as much as you like—and whenever you like.

The Right House HAMILTON'S FAVORITE SHOPPING PLACE

Home-furnishings: Reduction sale carpets, rugs, linoleums and curtains

DURING this remarkable and big sale of Homefurnishings this week, you may buy elegant \$1.15 hard-wearing and desirable Brussels Carpets at 89c yard. You may buy 45c Printed Scotch Linoleums that are famed for wear, at 32 1/2c a yard. You may buy \$1.25 to \$2.00 Lace Curtains—infinite variety—at \$1.00 to \$1.48 a pair.

You may buy a new Model White Metal Bed, with blue chill and brass ornamentations at \$5.75, value \$8.50. You may buy \$39.00 room size Axminster Rugs at \$24.95. You may buy \$2.50 Upholsteries at \$1.39. You may buy \$1.45 Silk Draperies at 69c. You may buy 20c Silkolines at 15c.

You may buy \$7.50 to \$25.00 Down Comforters at \$5.88 to \$21.50 each. And these are only incidents of the sale. Hundreds of other offerings equally good are ready for your selection. Does this not suggest to you the advantages of filling every home-furnishing need now, and here? Come and test the sale for yourself to-morrow.

THOMAS C. WATKINS HAMILTON ONTARIO

WILL CALL IT SAINT GILES.

NEW PRESBYTERIAN CHURCH MOVEMENT PROGRESSING. Hope to be Able to Realize Immediately Upon the Presbyterian Union's Donation.

J. B. Graham was in the chair last evening at a general meeting of the Southeast Presbyterian Church promoters at the Victoria curling rink. Rev. J. Roy VanVoyek opened the meeting with prayer. There were not many present, but all there were earnest workers. J. B. Turner, secretary, read the minutes of last meeting.

Mr. Turner announced that subscriptions since the last meeting totalled about \$4,300, bringing the total to \$6,075. This amount, while not all in hand, is in gilt-edged promises. There have been 75 subscribers to the fund.

Mr. William Lees, jun., said, as the matter stands, \$8,000 will have to be raised before the subscriptions are binding. The Presbyterian Union has agreed to subscribe \$500 a year for five years on condition that it be used as interest on the mortgage. Mr. Lees wanted to know if the union would allow them to use the money at once. If the union would do this, \$2,500 could be added to the money on hand. This would leave \$800 or thereabouts to gather together in the next few days. "We'll get it if we have to beg, borrow or steal," said Mr. Lees.

Mr. John Knox, on behalf of the Presbyterian Church Extension Union, said he did not see how the union would make trouble if the money was discounted to get it at once and use it as a sinking fund instead of interest on the sinking fund. Discounting the union's subscription, raising \$800 and adding it to what is already on hand, will give the new congregation \$9,175 to start work with.

Mr. A. M. Cunningham wanted to know if arrangements could be made whereby the new congregation would be represented at the adjourned meeting of the Presbytery at Chippewa.

Mr. Lees again brought his idea up. He said if the money was discounted to get it at once and use it as a sinking fund instead of interest on the sinking fund, the whole idea would fall to the ground until another year had passed.

Mr. Cunningham moved, seconded by Mr. McKenzie, that a committee be appointed to wait on the Presbytery at Chippewa on Thursday next to apply for a sanction for the movement. This motion was carried.

Mr. Lees moved that the name of the new church be Saint Giles. This was carried.

Messrs. A. M. Cunningham, J. B. Graham and A. M. McKenzie were appointed a committee to represent the new church before the Presbytery.

A motion to get plans from architects was handed over to the Executive Committee.

All present signed the petition to the Presbytery and the meeting was adjourned for two weeks.

COMPANY MUST PAY City Not Responsible For Protecting Railway Crossing.

The Board of Dominion Railway Commissioners met at Toronto yesterday and considered a large number of cases, among them two from Hamilton—the question of who should bear the cost of protecting traffic at Barton street and Ferguson avenue, where the G. T. R. has laid a second track across the line of the street railway, and the smoke nuisance.

In connection with a previous order made by the board for an additional G. T. R. track to be laid at the diamond crossing at Ferguson avenue and Barton street, involving the G. T. R. running across two tracks of the Hamilton Street Railway, the latter, through Mr. W. W. Osborne, asked to have the city of Hamilton made partially responsible for the protection of the public at the crossing in question.

The Street Railway Company claimed to be the senior company, with reference to the G. T. R. company's additional track. The board decided not to change the order of March, which was to the effect that the Street Railway Company should pay for the protection at the crossing. The board accepted Hamilton's plea that that city had not received sufficient notice of the Street Railway Company's intention to try to involve the city in the cost of protection.

The question of soft coal smoke used by shunting engines being a nuisance to various cities came up in an application by the city of Hamilton for an order prohibiting the G. T. R. T. H. & B. and C. P. R. companies from using soft coal on such locomotives. The matter stands over, when several actions of a similar nature will be tried together.

The application of the Grand Trunk Railway Company for permission to do on Sunday "work incidental to the

continuation of its destination of freight in transit at the beginning of such Sunday" was opposed by the Lord's Day Alliance of the Dominion of Canada on the ground that such a concession practically meant that the railways would carry on their regular work on the Sabbath Day.

PAREISIS GERM. Doctor Discovers It and Says Disease Is Curable.

Dr. O'Brien Has Cured Patients and Is Curing Others.

Massillon, Ohio, May 19.—In the laboratory of the Massion State Hospital Dr. John D. O'Brien to-day reiterated a statement by him before the American-Medico Psychological Association's Convention at Cincinnati that he had discovered the germ of paresis, and that the disease is curable. He summed up the results of his experiments in these two declarations: That paresis is undoubtedly a germ disease, and that the germ has been discovered; that while in the experimental stage, sufficient tests have been made to show that paresis is curable and that he has specific cases to point to as definite results.

Dr. O'Brien does not believe it would be proper to make public the names of these patients whom he claims the treatment has cured, but he gives the specific case of a newspaper man of Washington, D. C., who was treated for paresis and again is at work, a cured man; a civil engineer of prominence in Nashville, Tenn., who is cured and at work; besides a number of people in Ohio, who were brought to the hospital with severe forms of the disease, and cured. Others who are now at the hospital still under treatment are showing marked progress toward recovery.

Dr. O'Brien has at hand, in addition to his own statements, and reports from hospitals in regard to the successful treatment of paresis, patients' photographs, which show the historical form of attack when brought to the Massion State Hospital, and the cure when discharged from the hospital as cured.

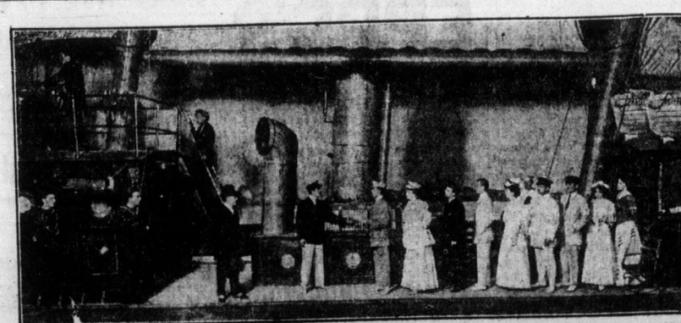

"I know," said Dr. O'Brien, "that it is a bold statement to make that the germ of paresis has been discovered. People may doubt it. Many scoffed when the germ theory of diptheria and tuberculosis was disclosed. We are showing the results of our experiments made in stating without qualification, that paresis is a germ disease. We also feel that from the work done we have found the bacillus. We have cured patients, are helping many now and expect to go forward with the work." Dr. O'Brien had confined his work to living subjects; no pathological investigation has been done on post mortem subjects. He now has germs in "cultures." One of the favorite forms of cultures used is bouillon. He says that, like a farmer, he is seeking to find the best culture in which to grow bacilli from serum extracted from patients and to that end is doing considerable experimenting. Since Dr. O'Brien read his paper at Cincinnati he has received many letters from doctors urging him to receive patients for treatment for paresis. Dr. O'Brien was graduated from the Jefferson Medical College, Philadelphia, in 1903. He had passed four and a half years at Massion Hospital and laboratory work.

One Million Dollars Would be no good without health. No health is possible if indigestion and constipation is in evidence. Laxa-Food will give relief from these and kindred troubles without medicines. Leading grocers and druggists, or A. W. Maguire & Co.

SIGNED TREATY. Washington, May 19.—Acting Secretary of State Bacon and Ambassador Bryce, of Great Britain, yesterday signed a treaty which provides regulations for the exchange of prisoners and for salvage and wreckage.

For Spring Weddings For months we have been making preparations for this season. Sterling Silver, Clocks, Fine Silver Plate, Art Goods, Cut Glass. From \$1.00 to \$10.00 you will see hundreds of suitable gifts.
