MONTREAL LIVE STOCK.

Montreal—At the Canadian Pacific Live Stock Market the offerings this morning amounted to 450 steers, 100 cows, 50 bulls, 300 sheep, 100 lambs, 700 hogs and 1,200 calves. Although the weather was exceedingly hot, the gathering of buyers was large, and, as they were all somewhat short of supplies of beef for the balance of the week, on account of the large number of strangers being in town, which has tended to increase the consumption considerably, the demand for all classes of cattle was good, and, considering the increased offerings and the unflavorable weather for keeping stock, quite an active trade was done, and prices were well maintained. There was no demand for export account, owing to the fact that there was no suitable stock on the market. Choice stall-fed steers sold at 61-4 to 61-2c; good at 53-4 to 6c; top quality grassers brought 51-2c and medium 43-4 to 51-4c; good cows sold at 4 to 41-2c; and common at 3 to 33-4c. Choice bulls brought 5 to 51-4c, and lower grades 41-4 to 43-4c per pound. Supplies of small meats were considerably larger than usual, for which there was a good demand and an active trade was done, with no change in prices to note. Sheep sold freely at 33-4 to 6e per pound. demand and an active trade was done, with no change in prices to note. Sheep sold freely at 33.4 to 4e per pound. Lambs brought from \$3 to \$6 each, as to size. Demand for calves was brisk, and, as some of them were of extra choice quality, higher prices were paid for them. Sales were made at \$10 to \$12 each for top grades, and the commoner ones sold at from \$2 to \$8 each. The quality of the hogs offered was inferior, and the top price realized for them was \$8 per 100 pounds, weighed off cars.

In a market in which all the issues tended to be firmer. Beaver, under strong buying, advanced to 34. It opened at 30 and sold up steadily until the 34 point was reached. From that it dropped until it touched 3114, but continued firm for the rest of the day between 31 and 32, closing on the Standard Exchange at 311-2, on the Toronto Exchange Curb at 31 and on the Montreal Mining Exchange at 321-2. The cause Exchange at 31 1-2, on the Toronto Exchange Curb at 31 and on the Montreal Mining Exchange at 32 1-2. The cause of the advance was the recovery of the vein in which silver was recently struck. On a sudden dip this vein lost its values, but when followed around a half circle, which it described, values came in as rich as ever. A report from Cobalt says that the La Rose No. 5 vein has been caught on the lower level of the O'Brien. La Rose sold at \$8 on the Toronto Stock Exchange Curb.

PETTIE-FORD.

Popular Former Hamilton Singe Married In Dundas.

A pretty house wedding took place vesterday afternoon at 2.30, at the home of Mr. and Mrs. J. Ford.Colborne street, Dundas, when their only daughter, Mill Alta May, was united in marriage with Mr. William Odbert Pettie, of Glenboro, Man., son of Mrs. Geo. W. Pettie, of Stratford, the knot being tied by Rev. I. Tovell, of Wesley Methodist Church, Hamilton. The bride, who was given away by her father, was becomingly gowned in a dainty dress of cream net over soft cream silk, with cream satin girdle and lace trimmings, and bridal veil with wreath of orange blossoms. She also wore a handsome pendant sunburst of pearls, the gift of the groom, and carried a bouquet of cream roses. The bride was attended by her cousin, Miss May Le Barre, of Hamilton, who wore a pretty Princess frock of pink mouselaine de soie with cream lace trimmings, and black picture hat. Lieut. Roy Ford, brother of the bride, acted as groomsman. The wedding march was played by Miss Jessie Simpson. After the ceremony, the wedding dejeuner was served, the guests, numbering about firty, nearly all relatives of the bride and groom. Among the many presents received was a large cut glass bowl from the young ladies of Thomas C. Watkins' store, Hamilton. Later in the afternoom Mr. and Mrs. Pettie left for a three weeks' trip to Montreal and Quebec, by boat, after which they will return to spend a few days in Dundas and Stratford before geing to their new home in Glenboro, Manitoba. The bride's travelling costume was a neat tailored suit of grey striped broadcloth, with silk waist to match, and a grey straw turban hat. SILVER JUBILEE.

(Special Despatch to the Times.)
St. Catharines, Ont., June 24.—To-day is a high day with the congregation of St. Catharines Roman Catholic Church. It is the occasion of the celebration of the silver jubilee of the ordination to the priesthood of the pastor, Very Rev. Dean Morris, who is also administrator of the Ningara district. Thirty-three priests were present and participated in the celebration, Rev. Father Moyua, of Barrie, a life-long friend of the dean, preaching the sermon. M. J. Brennan, on behalf of the congregation, presented the dean with a congratulatory address and a purse of one thousand dollars. The clergy also presented an address and purse. The Young Ladies' Society gave him a travelling bag, the altar boys a gold mounted umbrella, and the Separate school pupils a set of dishes. (Special Despatch to the Times.)

Chinese Bedroom of Wm. Leon, the Americanized Chinese, as it Looked When the Mutilated Body of Miss Elsie Sigel was discovered. The Trunk Into Which the Body Had Been Crammed is seen Back of the Bed. The Portrait is That of Leon, Whom Miss Sigel Loved, and Who is Sought by the Police of the Country.

THREATENED TO KILL BOTH.

Found Letters Written by Leon Which Give Motive For Crime.

More Women Missionaries Degraded Than Chinese Converted.

Press Denounces Present Plan of Teaching Chinese.

New York June 24.—Rumors and con ectures as to the whereabouts of Leon Ling the young Chinese who is sought by the detectives in charge of the Elsie Sigel case continued in abundance to day. There was also a fresh crop of theories as to the motives which had prompted the crime and as to the exact manner of its commission but in spite of the missing Chinese in almost every quarter of the United States there was nothing tangible upon which to base a clue in tracing down the murderer,

clue in tracing down the murderer,
While District Attorney Jerome considers this case extremely simple there are many who look upon it as one of the most mysterious ever brought to light. The advanced state of decomposition of the body when found precluded any autopsy or examination to show what the cause of death had been,
The theory of Quan Yick Nam that the girl had died from an overdose of chloroform administered by Leon canaot be confirmed as the handkerchief which his room mate Chung Sin declares he saw over her mouth has disappeared.
The finding of the two letters written by Leon to Chu Gain whom he regarded as his rival in the affections of the Sigel girl in which Leon threatens the life of both Chu Gain and the young woman, of both Chu Gain and the young woman, is the best evidence obtainable as yet to show the motive of the case. Both to show the motive of the case. Both these letters, which are in Chinese and signed "The Chief," were taken to the House of Detention to-day, and shown to Chung Sin, Leon's former room mate, and readily identified by him as having

and readily identified by him as having been written by the fugitive. The actual text of these letters has not been revealed, but it is known that in them Chu Gain is threatened with violent death unless he discontinues his attentions to Miss Sigel. Chu Gain has also said that his own brother brought him oral warning, emanating from Leon, that he must cease visits at the Sigel home, and that on one occasion when he called at the home of the young woman, Leon, who was already there, left the house in a passion.

MORE DEGRADED.

New York, June 24,-"There are mor

women endeavoring to Christianize Chinese men. All about me I have seen the ruin and wrecked homes.

"I believed from the beginning that it was impossible for white women to properly influence Chinese men.

"It is the attraction of sex that predominates in both cases, not that of religion. Despite all that is in the papers, the public does not see the other side—the Chinese side. The pictures that I have seen are of young, vain, frivolous white women deliberately flirting with and leading on their Chinese pupils.

"But there is one big truth that I was sure of when I first took up the work, and of which y-ars have made me positive beyond argument; the white woman can never Christianize the Chinese man. If she tries it, it will be the West that is converted to the East, not the East converted to the West."

ELSIE SIGEL'S FATE. ELSIE SIGEL'S FATE.

ELSIE SIGEL'S FATE.

Philadelphia Inquirer: Elsie Sigel is one more in a long list of victims. It is not at the hands of the men and of the gray-haired women that the average Chieses cares to take his religion. It is the young and attractive girl who must turn the peages for him and teach him the prayers to the Christian's God.

New York American: The churches should stop this foolish thing of encouraging young women and mere girls to act as teachers to cuming Asiatics and actually going to the haunts of opium and vice. It is criminal to let it continue. Let it be stopped by this lightning flash revealing this nation-shocking murder and God only knows how many moral deaths.

Chicago Tribune: One reads of family contention in which the father strongly opposed the activity of the daughter as a worker among the Chinese, while the mother sustained her child in this Christian endeavor. Now the daughter is dead—murdered—and the mother is a maniac.

St. Louis Post-Dispatch: The Chinese

not respect her. She puts herself in a position of exceeding peril.

Kansas City Journal: American parents should guard with eternal vigilance daughters who have zeal to "Christianize" imported heathen. These fellows are crafty, and do not seruple to employ cringing hypocrisy in order to accomplish their purposes.

Brooklyn Eagle: The people of this city are to-day asking a question which the churches concerned in mission work among the expatriated Cantonese of New York would do well to answer:

Why is it that young girls are consid-

Why is it that young girls are considered essential to the Christianizing of these shirt washing heathen? Are there these shirt-washing heathen? Are the no men or elderly women available?

Proposition Met With Favor at Committee Meeting.

A meeting of the Fire and Water Comnitttee was held in the City Hall last night at 8 o'clock.

The question of metering the Sawyer-Massey Co's, factory came up. The spe-cial rate runs out this year and the es-timated cost of metering the factory

was \$56.

Mr. Christie was present for the company, and said if the piping were changed it would incur an expense of \$200. If there were any way of getting a flat rate he thought it would be better for the company and city also.

On motion of Dr. Hopkins, the question was laid over until September. In the meantime the City Engineer will visit the premises and make an inspection.

On report of the City Engineer the committee decided to lay the following water mains:

The last important question was whether a new buggy should be purchased for Chief TenEyck, of the Fire Department, or whether they would give him an automobile. The auto idea was given the preference, as it was determined that in the long run it would be the cheapest New York, June 24.—"There are more women missionaries degraded by Chinese men than there are Chinese converted," said Miss Helen Clark, for seventeen years director of the Helen F. Clark mission on Woth street.

"White women must leave the lives of Chinese men alone. For seventeeen years I have urged the foliy of white women endeavoring to Christianize Chinese men. All about me I have seen the ruin and wrecked homes.

TO SPLIT POWER UP.

May Use Both the Hydro and Cataract at Beach.

Mayor Tells Local Company What Will be Done.

Toronto World Editorial Not a Criminal Libel

Just how the ordering of a thousand horse-power from the Hydro-Commission is going to settle the power question without considerable of a loss to the city for some years is rather hard to figure out. It is proposed to take 750 horse-power from the Cataract and use a similar quantity of Niagara power. The idea will be to have one of the five The idea will be to have one of the five million gallon pumps operated by the power supplied by the local company and the other by Hydro power. The Mayor thinks that one advantage of this arrangement would be that in case of an accident on either line the city would have the other one to fall back on. Of course different cycle motors have to be used for each power. It was shown by the meeting last night that only \$100 is allowed for patrolling the line between the Beach and Dundas, and the aldermen do not think this will be nearly sufficient.

Mayor McLaren, replying to the official notification served on the city yesterday that the Cataract will hold the city to last year's contract, sent the following letter to General Manager Hawkins to-day:

Replying to yours of 23rd, I beg to advise you that a committee was appointed at the last Council meeting to take into consideration the advisability of taking power for our principal pump-

Commission. The hydro-Electric Commission.

This committee met last evening, and will meet again at 3 p. m. on Saturday, when I have no doubt a resolution will be sent on to the Council that an application be made to the Commission for sufficient power for the Beach pumps and the disposal works.

If you have someone in attendance on Saturday I will be glad to give you a copy of the resolution, if any.

PROSPECTOR DROWNED.

Thrown Out From a Canoe Into Elk Lake.

Cobalt, June 23.—Whilst in a canoe about six miles from Govganda, on the route to Elk Lake, Edmund Laparie, the brother of the proprietor of the Prospect Hotel at Govganda, was thrown out and drowned. It is not known how the accident happened. The body has not been found yet, and his brother from Verner, Que., is now on his way up to Elk Lake in search for it. Edmund Laparie, as the brother of David Laparie, of the Prospect Hotel, was very well known all through the new mining district, and was as well liked as he was known. He had been up at Gowganda since November. Cobalt. June 23.-Whilst in a canoe
