THE AIRSHIP MAY BE BLESSING FOR P. E. ISLAND.

Canada, a weekly journal print-
ed in London and devoted largely
to enlightening the British mind
in regard to Dominion affairs,
makes the following reference to
our winter difficulties and how
they are to be remedied by air-
ships.

"Aviation is likely to prove a
boon and a blessing to Prince Ed-
ward Island, between which and
Canada the keeping open of win-
ter communication costs much
money yearly. Occasionally no
mail is received on the island for
almost a month's stretch, and the
citizens of that territory become
seriously irritated. A tunnel un-
der the Strait of Northumberland
was at one time projected at a sum
in the neighborhood of twenty
million dollars. That tunnel is
now farther off than ever. A few
flights further in aviation and the
transference of letter mails in
packages of two hundred pounds
by means of aeroplanes over the
thirty miles of ice-breakers of the
straits in a few minutes will have
become an accomplished fact."

There are several rather glaring
inaccuracies in Canada's state-
ment. There has been no occasion
within a generation past in which
no mails were received on the
island for nearly a month, as
stated, although the winter steam-
ers have been prevented from
crossing for as long as that. The
mails, however, got across by the
capes without any break exceed-
ing a week or ten days. Then
again, nobody has proposed a tun-
nel to cost twenty millions. A re-
liable offer to complete the work
for half that sum has been before
the Dominion Government for
years. And the tunnel is, we be-
lieve, not farther off, but nearer
than ever.

But the idea of trying what an
airship can do at the capes is a
good one, and we are glad to learn
that the fame of the project has
spread across the Atlantic. It was
at the capes that one of the first
submarine telegraph cables was

POLICE, AS USUAL, WERE NEARLY TOO SMART

Montreal, Aug. 12.—A practical
joke evidently played by some
medical students, might have
caused the arrest and perhaps con-
viction, of an innocent man, had
not a small piece of wire been
found attaching the lower jaw to
the upper jaw of the human skull.
which was found by some men
working in a dump at the foot of
Metana street yesterday.

The skull was taken to the
morgue and in the meantime the
police had started investigations,
and no doubt in a short time
would have picked out a couple of
likely looking culprits and a story
no less interesting and with as
many horrible details as that
which has been thrilling the world
for the last month might have
developed from these bleached
bones, had not Dr. McTaggart
found this little piece of wire
which made it quite evident that
this was not a murder but a weird
form of joke.

The interesting investigations
being carried on by the police,
who almost had their hand on the
man, had to be interrupted.

JOE GANS, ONCE PREMIER IN HIS GLASS, IS DEAD

Consumption Carries Off Former
Lightweight Champion at
Age of 34

Baltimore, Aug. 10.—Joe Gans,
former lightweight champion pugilist,
died this morning.

Gans died of consumption which
manifested itself about a year ago.
Late last spring he went to Arizona
with the hope of restoring his health
but the disease had been too deeply
seated and he declined rapidly. He
was brought here last week to die. He
was thirty four years old.

Joe Gans true name was Gant, the
name Gans having been fastened upon
him early in his ring career by a mis-
take of a referee.

He began his ring career in 1894, but
prior to that time he had made a
name for himself as a fighter about a
fish market in this city where he was
employed. His first fight for money is
said to have brought him only \$4. The
largest purse for which he ever fought
was \$33,000, he having agreed to give
Nelson the remainder, win, lose or
draw.

Gans won the title of lightweight
champion from Frank Erne, in Fort
Erie (Ont) in one round in 1902, and
lost it to "Batling" Nelson in 1908 in
the 17th round.

laid down and has proved of great
utility. If the airships are to be
of any real utility it is time that
they were put to some steady work,
which, after all, is the best test of
value. The width of the straits is
but seven miles, and in winter it
is much less than that from edge
to edge of the board ice, on which
the start and the landing would be
made.

Here then, is work needing to
be done, where the conditions are
favorable for airship trials and
also for any development of which
these machines are capable. For
ourselves, we are not as sanguine
as some are with regard to regular
mail or passenger traffic by air-
ship, but we would like to see the
trial made and the better it shall
succeed the better everybody con-
cerned will be pleased.—Charlotte-
town Guardian.

I. C. R. BUILDINGS SOON UNDER WAY

Ottawa, Aug. 9.—The work of re-
constructing the round house and
shops of the I. C. R. at Campbellton,
which were destroyed in the recent
disastrous conflagration in that town,
will be commenced without delay. It
is estimated that the buildings will
cost at least a quarter of a million
dollars, and the tenders will be called
for at once.
