The Centreville railway, mention of which was made n last issue, will likely be also a portion of the through line. The road will be built sooner or later, its prospects are at present more favorable than ever before. Much credit is due the local government for their efforts in connection with this line and the farmers of Kingsclear, Prince William and ernment the fullest measure of praise.

Bridge Torn Out.

Shortly after five o'clock Friday afternoon, the 8th, the river ice, at Woodstock comnenced to crush, showing signs of going out. The water rose and the quickened current brought the drift down against the piers of the passenger bridge with heavy pressure and the western pier gave way, tipping over and precipitating two spans into the river. The wreckage floated away on the ice. The way the pier collapsed proves conclusively the statements of the government engineer as to the-unsuitability of the bed of the river at that point for a permanent bridge, and shows his judgment not to have been at fault in choosing a site that admits of piers being so placed that they will be entirely out of water when the river

THE BYE ROAD GRANT.

True Explanation of the Matter From a his old position in the express business.

Sir,- You will please publish the following reply to the Gleaner's editorial of March | crew on the Tay and James Humble has got 14th which stated:

14th which stated:

That about the time of Mr. Crocket's dismissal, Mr. Anderson, M. P. P., one of Mr. Blair's colleagues in the county, at Mr. Blair's instance no doubt, went out to see coun. Geo. S. Inch, an opponent of the government and a nephew of the present chief superintendent of education. Mr. Anderson said to coun. Inch, that he was to give him the bye road grant for that district, \$150, to handle, and he could use it just as he liked. That the government were going to displace Crocket and appoint the councilor's uncle, Dr. Inch, in his place, and they expected him, the councillor, to agree to upport the government, etc.

I wish to say that the above is misleading. About two days after reading the article in the daily Gleaner I wrote my reply and sent it by mail to the editor requesting him river will be in the right shape to get the to either publish it or return it. At the same time I enclosed a stamped envelope. No value is placed in the rise of the river addressed for its return. The editor for some reason best known to himself, has neither published nor returned it. The facts as nearly as I can recall them are as

As I was one of the councillors for ouildings, larger and more comfortable, are North Lake, I felt it my duty to look after being erected. It is thought that little work the interests of my parish. Early in the summer I wrote Thomas Colter, M. P. P., to do what he could to secure for us the usual amount of bye road money. He replied that he would do what he could. I wrote said that they had divided the county int four districts and that Mr. Anderson would

Mr. Anderson mentioned my we regret to inform your honor, will not in our opinion be secured in a committee of the assembly appointed under the present practice. I wish it expressly understood that never did Mr. Blair, Mr. Anderson, Mr. Colter, or any member of the legislature bring any influence to bear, nor directly or indirectly hold out any inducement, or ask me in any way to agree to support the government Any favors I received at the hands of the government I considered them only as usiness transactions in the interests of my
