A Canada Life Actual Result!

NET CASH RETURN MORE THAN TWICE THE COST
W. J. Robertson, Welland, 12th June, 1913.
Agent CANADA LIFE ASSURANCE CO.,
Port Hope, Ontario.

Dear Sir:—
When acknowledging receipt of the Company's cheque for my matured Endowment Policy No. 24937, I desire to avail myself of the opportunity to express my satisfaction with the outcome of my investment.

The policy was payable to me at age 60, with ten premiums of \$100.00 each. The return under it is as follows:
Sum assured \$1,000.00
Dividends added 416.54
Total amount payable \$1,416.54
Deduct total premiums paid 480.00
\$ 936.54

That I should have insurance protection free for all these years and now have over twice the amount of my premiums returned to me in cash is a most satisfactory outcome and I heartily congratulate you on it.

Yours very truly, GEO. ROSS.
A CANADA LIFE POLICY PAYS.

Filed for a Year— At Hand in a Minute!

There are records kept in your business which are seldom referred to, but when reference to them is desired, can you locate them instantly?

"Office Specialty" Filing Systems do more than provide a place to file papers. The method of filing the papers under proper indexes makes the finding of any letter, on any subject or from any firm, as easy as the filing. You don't have to tumble all the letters out of the file to find any particular one. There is only one place for each letter, and every letter is in its place. Card Records, Cheques, Stock Records, Correspondence, are all found instantly when wanted if filed by "Office Specialty" Filing Systems. Here is a very convenient stack of Sectional, Quarter-Cut Oak, Filing Cabinets, 2 vertical drawers for Letters, 5 drawers for 5 x 3 inch Card Records, 3 Shallow drawers for Receipts, Invoices and Bills, 4 drawers for 6 x 4 inch Card Records, 3 Stationery drawers, which together with the top and base make a very useful stack for any business office.

Shackleton to Take No Liquor.

Tea, Cocoa and Sugar to be Stimulants of Expedition—Expects to Cross Southern Continent.

London, March 5.—Total abstinence from alcoholic drinks will be strictly observed during Sir Ernest Shackleton's trip across the south polar continent. He and his men propose to work long hours, including eight hours marching every day, but for stimulants they will rely on nothing stronger than tea or cocoa. The tea will be taken at mid-day to refresh the men for afternoon march and the cocoa the last thing at night to preserve the body heat during the hours of sleep.

Sugar will figure largely in the rations. On his last expedition Sir Ernest and his companions took two or three lumps of sugar every two or three hours, and he says ten minutes after eating they could feel the heat going through their bodies.

The men thus far chosen for the expedition are between 30 and 40 years old. Shackleton, who is 39, believes that men are at their best between 35 and 40. A man, he says, does not reach his full strength until he is 25, and whatever may be the superiority of youth in the way of spring, nerve and enthusiasm, these do not weigh against the staying power of an older man or the balance of judgment of one who has experience behind him.

The working day arranged calls for an hour of preparation after walking then a four hour march, an hour's rest and another four hour march, which in previous trips has been observed between 6 a.m. and 6 a.m. will be cut to eight hours.

Sir Ernest is busy arranging for details of the expedition, which is regarded as the biggest undertaking ever attempted in polar exploration since the distance to travel from Weddell Sea to Ross Sea is 1700 miles. At first Shackleton proposes to return from the South Pole to Ross Sea by one of three routes, that taken by Scott in his ill-fated expedition or by Amundsen in his successful one, or a new one known as the western route, crossing the great range of the Victoria chain of mountains.

It has since been decided that unless conditions prevent the expedition will avoid the two old routes and come out either through the Victoria Range or by a route to the eastward of Amundsen's track. If this can be done, the expedition will open entirely new ground.

This greatly increases the difficulties and dangers of the journey, for the party will not have the advantage of a chain of food deposits, which proved such a material aid to their predecessors. They will, however, be helped by the resources of science to a degree never dreamt of by former explorers. The expedition will be assisted by a wireless installation, which will keep it in touch with its base for most of the time, and will, besides, have aeroplane sledges.

Two steamships will support the expedition. A Norwegian steamer, for which negotiations have been opened, will take Sir Ernest and his party to the Weddell Sea, while the Aurora, which has seen much Antarctic service, will go to the Ross Sea, to pick them up when they have accomplished their journey.

The first steamer will leave Buenos Ayres some time in October and push to the Antarctic, reaching, if possible, 78 degrees south latitude, where a good landing place was found by the German expedition. If the ice conditions are favorable, winter quarters will be established, depots laid out and the start made the following season.

Expects Task to Take Five Months.

In the meantime the Aurora will also have started from New Zealand to land a party in the Ross Sea to meet the transcontinental party. Sir Ernest believes that the trip can be accomplished in five months, but should the obstacles be insurmountable, he will have the base in Weddell Sea to fall back upon. The first part of the trip, that from Weddell Sea to the Pole, is giving the explorer

much serious thought. The distance is about 800 miles and through an entirely unexplored region. The party has no data whatever to go upon, but believes that the dogs, which proved such a blessing to Amundsen, and sledges fitted with aeroplane propellers, all obstacles will be overcome.

Neither of the steamers will winter in the Antarctic. The Aurora, after landing the supporting party in Ross Sea, will return to New Zealand, going back later to bring the whole party home. The other steamer will return to South America after unloading Sir Ernest Shackleton and his friends, going back in the following year to pick up the Weddell Sea party, for besides those who are going to make the long trip, some will be left at the base to carry out scientific investigation. Both ships will burn oil and will be fitted with tanks so that any specimens taken may be brought home alive.

Girls! Thicken And Beautify Your Hair

Bring back its gloss, lustre, charm and get rid of dandruff—Try the moist cloth.

To be possessed of a head of heavy, beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderine.

It is easy and inexpensive to have nice, soft hair and lots of Knowlton's Danderine now—all drug stores recommend it—apply a little as directed and within ten minutes there will be in appearance of abundance; freshness, fluffiness and an incomparable gloss and lustre, and try as you will you cannot find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use when you will see new hair—fine and downy at first—yes—but really new hair—sprouting out all over your scalp—Danderine is, we believe, the only sure hair grower; destroyer of dandruff and cure for itchy scalp and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.

Bank Robbers Are Surrounded.

Bellingham, Wn., Mar. 11.—Five bank robbers who held up the cashier and assistant cashier of the branch bank of the Canadian Royal Bank at Abbotsford, B. C., 24 miles north of here yesterday and took \$2,400, are surrounded to-day in a heavy stand of timber 3 miles north of Abbotsford, by a posse of Canadian officers. The men got \$2,400. Their capture is expected in the next 12 hours as all avenues of escape are effectually cut off.

Immigration officers are patrolling the line. One hundred and eighty dollars in one dollar Canadian bills were picked up on the trail by one of the posse and one of the bandits dropped his coat in which was found \$12 of the stolen money.

Correction.

Editor Evening Telegram.
Dear Sir,—Please allow me space in your valuable paper to contradict an item that appeared in the "Bell Island Miner," last summer, stating that the L. O. A. and Masonic Lodges had amalgamated for the purpose of building a hall on a very pretty site near the Bank of Nova Scotia. Also, the "Wabana Druggist," in February's issue, speaks of the Masonic Hall. I would like to know where the Editors got their information, as the Masons have no share whatever in the building, although they have the hall hired to hold their meetings in; it is solely the L. O. A. property.

Thanking you for space.
I remain, respectfully yours,
Bell Island, March 16, 1914.

Radway's Ready Relief

Mrs. L. Dittmar, 710 E. 14th St., New York City, writes: "I caught a cold. I used one bottle of your Radway's Ready Relief with wonderful results. I have also used it on the seat of the pain until ease is obtained, which will usually be in the course of 15 or 20 minutes."
NEURALGIA
The Relief is the best counter irritant known, and therefore the best preparation that can be used in Neuralgia. Rub it on the part affected, and keep it there as long as it will, on the seat of the pain until ease is obtained. It will usually be in the course of 15 or 20 minutes.
