BRITISH ADVANCE.

LONDON, Oct. 30. The Germans have been driven back in places to a depth of nearly 1,000 yards in to-day's British drive on the Ypres front. The principal fighting is taking place towards the outskirts of Passchendaele and in the region of Poelcapelle. The British are reported to have fought their way along several important spurs of the great system of ridges. The Canadians quickly gained a great part of their objectives. The fighting to-day was on a more limited front than that of last Friday. The weather is fine.

RAIDERS AGAIN VISIT ENGLAND.

LONDON, Oct. 30. Lord French announced that German airplanes which last night attempted to carry out a raid on the southeast counties of England, did no damage. All the machines which went to the enemy raiders landed safely.

HARTLING SUCCEEDS MICHAELIS

AMSTERDAM, Oct. 30. Count George Von Hartling, Bavarian Prime Minister, has been appointed Imperial German Chancellor. Michaelis has been named Prime Minister of Prussia.

Look at a Child's Tongue When Cross, Feverish and Sick

Take no chances! Move poisons from liver and bowels at once.

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered. When cross, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative." Children love it, and it can't cause injury. No difference what all your little one—be it full of cold, or a sore throat, diarrhoea, stomach-ache, bad breath, remember, a gentle "inside cleansing" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup.

I. G. Occupies New Office Quarters.

To-day Inspector General Hutchings occupies for the first time his new offices at Fort Townsend in the old building which was used many years ago by the heads of the police department and after the '92 fire as a lock-up, which has been entirely remodelled and undergone extensive improvements. The offices vacated by the Inspector General in the Central Fire Hall have been converted into sleeping quarters for the unmarried members of the police force. The object of the change is for more efficient service.

POOR HERRING FISHERY.—The herring fishery to date is very poor indeed and that there is being nothing done at present is the tenor of a message just received by the Marine and Fisheries department from Bonaville Bay.

Rags Fill Tires Which Berlin Uses.

Kaiser William is the only person in Germany who now rides in an automobile equipped with pneumatic rubber tires, according to Victor Van der Linde, technical representative of the Goodrich Rubber Company, who has just returned from Europe, where he was sent to make an investigation of rubber and gasoline conditions. The Crown Prince, Von Hindenburg, Ludendorff and Von Mackensen, Mr. Van der Linde says, have to bump along on tires filled with rags, compressed cork, and paper on account of the scarcity of rubber. In Berlin Mr. Van der Linde rode in a taxicab with wheels bound with rope in the place of tires, and taxicabs of any kind, he says, are scarce in the streets of Germany's capital.

"The situation in both Germany and Austria as regards tires is deplorable from their standpoint," said Mr. Van der Linde, "and countries bounding the Central Empires, with the exception of those at war with them, are in nearly as bad a plight."

In neither Germany nor Austria are any tires to be had. In Sweden the price for a tire is \$550, and this must be accompanied with a permit from the Royal Automobile Club. In Norway I found the price to be \$460 for a tire, and permit necessary. In Denmark the price was \$320, and the purchaser must give written assurance to the Government that it will not go to Germany. The cost in Holland is \$250 a tire, with a similar guarantee to the Government. Other prices in European countries for a single tire are as follows: Russia, \$100; Spain, \$125; Italy, \$100; Great Britain, \$90, and France, \$90.

"The German scientists have tried to meet the situation by making synthetic rubber, but they have been unsuccessful. There is not an ounce of crude in it, and therefore it is devoid of fibre. Most automobile casings are stuffed with compressed champagne corks, paper, rags, and sausages made of ground cork. Some even have been filled with rags and dirt. This only refers to those cars that have some rags of casings left. Most automobiles have ground away their shoes and move about on rims bound with rope.

"There is not a bicycle tire left in Germany outside of those used for military purposes. Rebuilt by the wholesalers were conducted on shops and residences and all bicycle tires were seized. The cargo of the Deutschland on its last trip was almost exclusively rubber, but so pressing was the demand for rubber for dirigibles that none of it, with the possible exception of enough for the tires for the royal family, was permitted to go into automobile equipment. Germany had little crude rubber in stock at the beginning of the war. Since then she has been depending on what she could buy from Sweden and smuggle through the mails.

"Single sheets of rubber were sent in letters from the United States until Great Britain opened them and confiscated the contents. After this channel had been closed she purchased large numbers of machines in this country and had them shipped to Sweden. There she stripped the automobiles of the tires and abandoned brand-new machines to the Swedes.

"In Sweden there are 10,000 automobiles. There are about 1,000 in operation on tires from which has disappeared all semblance of the original casing. Sweden has been placed in this predicament because of the number of tires that went to Germany from its ports earlier in the war. England having denied it rubber supplies, tires are scarcer there now than diamonds.

"Gasoline is nearly as big a problem as tires in the Central Empires. In Germany and Austria the price is \$6 a gallon, and it cannot be obtained without a Government permit. All the European countries now have a permit system in force for the purchase of gasoline. I found the price of gasoline per gallon in other countries to be: Sweden, \$1.75; Holland, \$1.50; Denmark, \$1.35; Italy, \$1; Spain, \$1.10; Greece, \$1.60; France, \$1.25, and Great Britain, 95 cents."

Patriotic Dance.

The employees of the Royal Stores, Ltd., and their friends, numbering four hundred persons, held an enjoyable dance, in aid of patriotic purposes, at the British Hall last night. The ballroom was artistically decorated and a fortune telling booth erected there was well patronized; and games were also indulged in. The ladies served refreshments during the night. The music was furnished by the Myron O'Grady orchestra.

"The Rosary."

"The Rosary" by Edward E. Rose, will be the offering by the Gladys Klark Company for Wednesday and Thursday evenings and Saturday Matinee. "The Rosary" has been endorsed by public, press and clergy of all denominations. Backed by the endorsements of such eminent persons as President Elliot, Dr. Parham, Rev. Allen K. Foster, Ella Wheeler Wilcox and hundreds and even thousands of others, "The Rosary" founded on the emblems of purity, preaches a moral lesson, so these notables think, even better than a sermon. There are many bright comedy situations and delightful love scenes in the play and is entirely free from anything objectionable, hence the endorsements of the notable people who have commended it to the public. These people tell the story: Rev. Bryan Kelly—Mr. George McManus. Bruce Wilton—Mr. Burton Mallory. Kenwood Wright—Mr. Chas. Newhart. Lee Martin—Mr. Sam Waldon. Alice Marsh, Vera Wilton (Twin Sisters)—Miss Gladys Klark. Kathleen O'Connor—Miss Lillian Hall. Lesura Watkins—Miss Elythe Bryan.
