SIGNING OF TREATY NOT UNANIMOUS.

Chinese Delegates Did Not Attend---General Smuts Signed Under Protest --- Sentiment one of Relief Rather Than Satisfaction---Germans Will be Held Strictly to Provisions.

SIGNING THE TREATY.

WASHINGTON, June 28. The signing of the Peace Treaty was begun at 10.30 Washington time. The Official report to the State Department said President Wilson signed after the Germans. Dr. Heilmann Mueller and Dr. Johannes Bell, German representatives, signed for Germany at three fifteen. A few minutes before three o'clock fifteen enlisted men from the British, French, and American armies entered the Hall amid cheering. The Chinese delegates shortly before the hour set for the signing of the Treaty reiterated their intention not to sign. At 2.50 o'clock all delegates were seated, except the Chinese, who did not attend. The Germans entered the Hall at exactly three o'clock. Premier Clemenceau called the session to order at 3.10 o'clock. Premier Clemenceau put direct questions to the Germans whether they were willing to sign and execute all the terms. The other delegates did not arise when the Germans entered the Hall. The Germans who were first to sign, did so at 3.13 o'clock. The American delegates came next, led by President Wilson. The British followed the Americans. At 3.44 o'clock cannon began to boom, announcing the completion of the ceremony of signing. The signature had not, however, as a matter of fact been completed, for at that time the smaller nations were still signing in alphabetical order. The proceedings were formally closed at three forty-nine o'clock.

SIGNS UNDER PROTEST.

VERSAILLES, June 28. General Jan Christian Smuts, one of the delegates representing the Union of South Africa, signed the Treaty under protest. He objected to certain territorial settlements, making a lengthy statement. General Smuts said that indemnities stipulated could not be accepted without grave injuries to the industrial revival of Europe. He declared it would be to the interest of Allied Powers to render the stipulations more tolerable and moderate.

TREATY STIPULATIONS.

PARIS, June 28. In the completed Peace Treaty, signed to-day at Versailles the newspapers say, were certain stipulations

which it was hoped would hasten ratification of the treaty by the German National Assembly. The Journal says the Allies, following the German example of 1871, stipulated that the liberation of German prisoners would be dependent upon ratification of the treaty at once. The prisoners would be released without delay.

FLED FROM KELL.

LONDON, June 28. The German submarine destroyer U-21 arrived at Gothenberg yesterday, after having fled from Kell. The commander and fourteen sailors were on board, of whom seven say they intend to go to South America.

THE FINAL SCENE.

VERSAILLES, June 28. World peace was signed and sealed in the historic Hall of Mirrors at Versailles this afternoon, but under circumstances which somewhat dimmed the expectations of those who had worked hard and fought during long years of war and months of negotiations for this achievement. The absence of the Chinese delegates, who at the last moment were unable to reconcile themselves to the Shantung settlement and left the Eastern Empire outside the formal purview of peace, struck the first discordant note in the Assembly. A written protest which General Jan Christian Smuts lodged with his signature was another disappointment to the makers of the treaty. But bulking larger was the attitude of Germany and the German plenipotentiaries which left them, as evident from the official programme of the day and from the expression of M. Clemenceau, still outside any formal reconciliation, and made actual restoration to regular relations and intercourse with the Allied Nations dependent not upon the signature of the preliminaries of peace to-day, but upon ratification by the National Assembly. To M. Clemenceau's stern warning in his opening remarks that they would be expected and held to observe the treaty provisions loyally and completely, the German delegates, through Dr. Haniel Von Haimhausen replied. After returning to the hotel they stated that had they known they would be treated on a different status after signing than the Allied

representatives, as shown by the separate exit before the general body of the conference, they never would have signed. The general tone of sentiment in the historic sitting was one rather of relief at the uncontrollable end of hostilities, than of complete and unalloyed satisfaction.

EX-PREMIER DEAD.

LONDON, June 28. William P. Schriener, Premier of Cape Colony from 1898 to 1900, and former High Commissioner for South Africa in England, died in London to-day.

WOULD TAKE EX-KAISER'S PLACE.

BERLIN, June 28. Dr. Bethmann Hollweg, former German Chancellor, has formally asked the Allied and Associated Powers to place him on trial instead of the former Emperor. The former Chancellor says he assumes responsibility for the acts of Germany during his periods of office and places himself at the disposal of the Allies.

GREEK OFFER TO MOSLEMS.

SALONIKI, June 28. The Greek Government has decided to offer every encouragement possible to Moslems who wish to remain in Greece and renounce their Turkish nationality.

R-34 READY TO CROSS.

WASHINGTON, D.C., June 28. The British dirigible R-34 is expected to arrive in the United States on July fifth or sixth on the first flight across the Atlantic to be undertaken by a lighter than air craft. This announcement was made here to-day by the British Air attaché who requested that American merchant ships on the north Atlantic to radio weather reports to Cape Race for both the outward and return voyage of the dirigible. The R-34 will land at Long Island and will remain only long enough to replenish its fuel and supplies.

WILL PRESENT TEXT TO-MORROW.

PARIS, June 28. The text of the Peace Treaty will be presented to the Chamber of Deputies on July 1 by Premier Clemenceau, L'Echo de Paris says. The former

Premier Viviani is said to have been interested with the drawing up of the general report on the treaty. Premier Lloyd Gorge, the paper adds, will address the British House of Commons on July 1 on the peace negotiations.

DISORDERS IN ROME.

ROME, June 28. Serious disorders marked anti-Government demonstrations in Rome last night. The demonstrators attempted to reach the residence of Premier Nitti, but were driven back by large forces of military police. Order was finally restored after midnight.

SINN FEIN HEADQUARTERS RAIDED.

DUBLIN, June 28. Sinn Fein headquarters was raided this afternoon and the building searched by a large force of military.

In the Night

With Eczema.

You Can Depend on Dr. Chase's Ointment to Bring Relief and Cure.

The obstinacy of eczema is well known. The fact that Dr. Chase's Ointment has been able to cure in even the most severe cases is the best proof of the extraordinary healing powers of this standard ointment.

Cures such as are described in these letters give you some idea of what you may expect from this treatment.

Mrs. Frank Wadge, Midland, Ont., writes: "One of my boys had an attack of eczema, and although I tried different preparations for this trouble, as well as medicines from four doctors, we could not get satisfactory results. Finally, I tried Dr. Chase's Ointment, and from the first I found it gave good results. We used a good treatment of this ointment, and in a short time the eczema was cured. I have also used the ointment with great success for a roughness and rash on my face, which caused me a great deal of trouble. After applying Dr. Chase's Ointment I found instant relief."

"I might also mention that Dr. Chase's Catarrh Powder has proven of great benefit to me. I had difficulty with a stoppage in my nose and head, but the Catarrh Powder relieved it, and I have not been bothered in this way since."

Mrs. P. H. Veale, 19 William street, Hamilton, Ont., writes: "I can highly recommend Dr. Chase's Ointment having used it with splendid results where all others failed. My little girl, aged 3½ years, broke out in small yellow blisters, which turned into scabs. They came out in different places on her face, and although I tried a great many salves and ointments, none did her any good. I got a box of Dr. Chase's Ointment, and after a few applications, I could see the effects of it. Whenever I saw a new spot appearing I would apply the ointment, and before the box was finished she was entirely cured of those horrid sores."

If you would like to try Dr. Chase's Ointment at our expense, send a two-cent stamp to pay postage and we shall mail you a sample box free. Full size box 60 cents at all dealers, or Edmanston, Bates & Co., Limited, Toronto.

Laid to Rest.

WILLIE DUNPHY. The funeral of Willie Dunphy, the victim of the motor accident, at South Side, Holyrood, took place on Saturday and was one of the largest in the history of the town, thus attesting the almost universal sympathy felt for Mr. and Mrs. M. C. Dunphy, the parents of the ill-fated boy. Rev. Father Finn conducted the burial services at the home of the dear dead boy, and this being finished he briefly addressed the assembled mourners speaking feelingly of the sad accident and offering on behalf of himself and the congregation consolation and sympathy to the afflicted parents in their hour of deep sorrow. The funeral appointments were in charge of Undertaker Martin of St. John's who had had his man and horse and beautiful hearse come over from the city to take part in the funeral arrangements and to solemnize the ceremonial. The handsome casket enclosing the remains, were removed from the room by the undertaker and his assistant, and placed on the hearse-in-waiting, and the large funeral procession formed in line to march to the South Side cemetery. The school boys and girls were marshalled by Constable Grouchy and Miss O'Neill (teacher of the High School) and preceded the hearse and the mourning friends and sympathizers followed behind. The route of the large procession was marked by dropped blinds, and when the cemetery was reached, the remains of a dearly beloved boy were interred in the family plot beside those of his grand-parents, the bright rays of the sun illuminating his early grave. To lose such a bright and promising child truly brings a deep and heavy shadow but it must be remembered that light sometimes will break through and that there will be a glad and happy reunion in the great beyond. Willie has gone to a bright and beautiful home beyond the grave, and the spirit of the dear child will only wait a brief period when in sweetest and in love he will meet his mother and father to separate no more. Enough said. Human consolation is weak, but Mr. and Mrs. Dunphy have received a large number of messages and notes of sympathy from all parts of the Dominion breathing sorrow and sympathy at the news of their sad be-

reavement. God bless them in their hour of sorrow, is the wish of AMICUS.

Holyrood, June 24th, 1919. (The Telegram most sincerely sympathizes with the bereaved parents, and adds its message of condolence to those already received.)

The Twilight Mystery.

There is a glow in the northern sky so long after sunset, just now that people are curious to know what it all means. It is not uncommon to attribute it to the "Merry Dancers," or Northern Lights.

The real solution of the mystery is that this is the season of no-night. Since the days of William the Conqueror, it has been recognised that real night begins when the sun is eighteen degrees below the horizon.

At this time of the year that limit is not reached at midnight, and twilight reigns all night in a greater or lesser degree, according to the northern or southern latitude of the observer.

A long spell of dry, calm weather

in May, June, or July, by causing an excessive amount of dust to accumulate in the air, will make the all night twilight much brighter.

The famous "Midnight Glow" of a few years ago was due to this accumulation of dust in the atmosphere during a period of drought.

It should be remembered that while astronomical twilight ends when the sun is eighteen degrees below the horizon, civil twilight ends when the sun has gone down only six degrees. By that time dusk is deep enough to put a stop to outdoor work.
