### Feildians Defeat Saints.

#### 1500 SPECTATORS WITNESS GAME.

The Feildians won their second league game last night by defeating the Saints by a goal to 2 in the presence of nearly 1500 spectators. The game was not by any means a good one, although occasional flashes of brilliant hockey were to be seen. There was still an absence of any real attempts at combination although at times the Feildians did manage to play together quite well. The only man on the Saints team who made any attempt at combination was Paterson. The individual play was quite good on the whole. Tait, Robertson and E. Munn giving some excellent exhibitions. The goal-tending of Nix Hunt was the feature of the game, however. In the last period particularly, he saved shot after shot in splendid style and undoubtedly helped greatly to keep down the score against his side.

At 7.30 the game was started by Mr. Jack Tobin, who was referee.

#### THE FIRST PERIOD

was quite fast at first, some excellent combination being got in by the Feildians, who bombarded their opponents goal throughout the period. Tait drew first blood for the Feildians, seven minutes after play had begun, by beating Munn with a scorcher from centre ice. Four minutes later Winter who played a hard game right through, picked up the puck near the Saint's goal and scored. Soon after Tait went down ice stickhandling well, and notched up the Feildians third goal. Two minutes later Robertson made a splendid run the whole length of the rink and placed the puck behind Hunt. Shortly before the end of the period the puck came out to Winter from a puck-off on the wing, and he beat Munn for the fourth time. The period ended with the score 4-1 in favor of the Feildians.

#### THE SECOND PERIOD

opened with the Saints attacking their opponent's goal but Hunt was always on the job and cleared well. For the greater part of the period play was a give and take nature, some spectacular hockey being played by both sides. In this period as, indeed, right through the game, a constant repetition of off sides served to make interruptions which detracted a great deal from its interest. Payn notched up the Feildians fifth goal after a nice run through four minutes before time, and a long shot from Winter found the net, scoring six for the Feildians, shortly before the end of the period. When the going went the Feildians were still leading the score being 6-1 in their favour.

#### THE THIRD PERIOD

saw a change of goal-keepers, Voisey, taking the place of Munn the latter replacing Coultas on the right wing. For a time the Feildian defence was hard put to it to keep out their opponents. During this period Hunt's saving was truly marvellous. Time and time again he presented a stonewall front to the Saints, and cleared what seemed almost certain goals. Eleven minutes after the start Tait scored from an excellent shot from the left wing. Two minutes later Errol Munn made a splendid run the length of the rink, stickhandling in fine style, and put the puck behind Hunt for the Saint's second and last goal. A minute later Ewing scored from a wing shot and soon after Winter scored the last goal for the game from a run through on the right wing. When the final gong sounded the score stood at 9 goals to 2 in favour of the Feildians.

The line-up was:—

Saints	Goal.	Feildians
L. Munn	.....	Hunt
Churchill	.....	Defence.
Robertson	.....	H. Rendell
Field	.....	Tait

**COMMENT ON THE GAME.**  
Field played a very good game for the Saints. Robertson and E. Munn were, however, the mainstays of their team, their individual play being very good. Both seem unable to combine.

L. Munn gave the spectators quite a surprise by putting up an excellent game in goal, particularly in the second period.

Tait and Winter played very well indeed, and helped considerably in gaining the victory for their team.

Payn also worked very hard and got in some good play.

Nix Hunt's goal-tending was undoubtedly marvellous. The manner in which he stopped some of the shots he received was nothing short of marvellous.

The ice was undoubtedly the best for the season and the players say that they found it almost too fast.

The rink management are to be congratulated on the excellent arrangements they have made for dealing with the crowd. The doors were opened at 6.30 p.m. and a queue was formed outside the ticket window. Furthermore, a rail extending from the ticket window to the door opening on the arena permitted of only one person going through at a time and thus avoided the confusion which usually predominates there.

Sergeant Long and two constables greatly assisted the rink management in carrying out their arrangements.

### Sugar Control.

The Food Control Board, Sugar Importers, and Prime Minister held a meeting on Wednesday evening to discuss the sugar situation, as a result of which the control of this commodity will be continued indefinitely to make up the losses incurred by an "error of judgment" of the officials of that Board. This means that the Board will continue to disburse their sugar at the price of 22½ cents per lb. With the injustice this is on the public at a time when the cost of living is a serious problem, we do not intend at present to make any comment, as it is up to the public themselves to enter any protest on this head, but there is one serious result from this decision which we would like to point out to those in authority. For some time past the Trade Review has been advocating the desirability of buying home-made products, supporting local industries, and thereby increasing the earning powers of our citizens and insuring steady employment to the wage earners during these troublesome times.

We have been ably supported by the local press, and the Board of Trade in its annual report takes cognizance of our efforts, and goes on record as being in complete accord with this movement, and states that they cannot "too strongly express their feelings that the wholesale and retail trades should leave no stone unturned toward influencing the public to use local made goods more freely than has been the custom hitherto." The price of sugar in New York today is 6½ cents per pound. From this sugar, manufacturers of cakes, candies, Acetated Waters, etc., are making up their stocks to compete with local manufacturing concerns. It can thus be seen that our local factories are faced with very unfair competition, and it will be impossible for them to compete with the imported article when they are in the first instance compelled to pay over three times the price for their raw material.

This naturally will retard the consumption of sugar, and as the Board estimates that it will be necessary at the present rate of consumption, to

keep control until June, it will find with the local factories closed down, that the consumption will not be up to that estimate. We think that in the interest of the employees of those local concerns making candies, cakes and soft drinks, that the Government should give these plants the right either to import their sugar at the best price they could obtain it, or a special price so as to enable them to continue in operation and compete successfully with the imported article; otherwise the effect will be to throw wage earners out of employment and continue the control of sugar indefinitely.—Trade Review.
