

CHIROPRACTIC--The Master-Key to Health.

THE REAL ISSUE

There is just one thing about Chiropractic that sick people are interested in and that is "Will it make me well?" My friend, the common, everyday citizen enjoys the same privilege of opinion that I enjoy. I may argue with him from now till eternity on the merit of the premise upon which Chiropractic is founded. These things we may never agree upon; yet if we both see health come to our mutual friend after he has suffered for years, and if we learn that he has been regularly visiting his Chiropractor, there can be no argument between us on the fact of what it has done for him. Witness this thing often enough and the matter of the Chiropractic premise is a lost issue. My friend may still believe that surgery, medicine, mental suggestion or diet are excellent things, yet he cannot deny that Chiropractic is effective. We find that all our arguments have meant wasted effort and lost time; but the one thing worth while, the only thing that he, as a sick man is concerned about, is that Chiropractic brings health. Whether the Chiropractor followed one curriculum or another is no longer an issue. My friend visits the Chiropractor for just one reason—to regain his health.

How can my friend satisfy himself that Chiropractic is effective, often where everything else has been tried? Let him investigate our National record and the record of his local Chiropractor. Our National record shows us the leading drugless healing system to-day, while in 1894 we had not been born. Our National record shows that we are legally recognized in over half the states in the Union, because your neighbor and mine demanded Chiropractic service. Why this rapid development? Because millions of sane, straight-thinking, common people found themselves getting well under Chiropractic adjustments.

Just as sick people everywhere are interested in the one question "Will it get me well"? So is the Chiropractor interested in the one issue of getting you well. He knows that his greater service to humanity in the future depends on his restoring health to you. You say "Will Chiropractic make me well"? Our answer is our record of growth and this growth is exactly proportionate to the health Chiropractic has brought.

It is your duty to your family and to yourself to become acquainted with this great health science.

Arrows show where Nerve pressure is found in the following disorders:—

1. Slight subluxations at this point will cause so-called headaches, eye diseases, deafness, epilepsy, vertigo, insomnia, wry neck, facial paralysis, locomotor ataxia, etc.
2. A slight subluxation of a vertebra in this part of the spine is the cause of so-called throat trouble, neuralgia, pain in the shoulders and arms, goitre, nervous prostration, influenza, grippe, dizziness, bleeding from nose, disorder of gums, catarrh, etc.
3. The arrow head marked No. 3 locates the part of the spine wherein subluxations will cause so-called bronchitis, felons, pain between the shoulder blades, rheumatism of the arms and shoulders, hay fever, writers' cramp, etc.
4. A vertebral subluxation at this point causes so-called nervousness, heart disease, asthma, pneumonia, tuberculosis, difficult breathing, other lung troubles, etc.
5. Stomach and liver troubles, enlargement of the spleen, pleurisy, gall stones and a score of other troubles, so-called, are caused by subluxations in this part of the spine, sometimes so light as to remain unnoticed by others except the trained Chiropractor.
6. Here we find the cause of dyspepsia of upper bowels, fevers, shingles, hiccoughs, worms, etc.
7. Bright's disease, diabetes, floating kidney, skin disease, boils, eruptions and other diseases, so-called, are caused by nerves being pinched in the spinal openings at this point.
8. Regulations of such troubles as so-called appendicitis, peritonitis, lumbago, etc., follow Chiropractic adjustments at this point.
9. Why have so-called constipation, rectal troubles, sciatica, etc., when Chiropractic adjustments at this part of the spine will remove the cause?
10. A slight slippage of one or both innominate bones will likewise produce so-called sciatica, together with many "diseases" of pelvis and lower extremities.

Object to Non-Union Labor.

NORTH SYDNEY LONGSHOREMEN HAVE GRIEVANCE.

A strike of the local Longshoremen took place yesterday, and as a result the term schr. Russel M. Zinck, loaded with a cargo of 300 puncheons of molasses which she brought here from Barbados Saturday, is now at Sydney unloading.

Yesterday the first hitch between the Longshoremen and the shippers was when a schooner unloading a cargo of fish and oil at the terminus could not be discharged. The men started work, but when they found that a man named Hare, who was not a member of the union, was at work, they immediately informed the agents of the vessel, the Farquhar Trading Co., that unless Hare was at once discharged they would quit work in a body. This request was not granted, Hare being kept on the job, and after the men had left the scene three other non-union men were employed and have ever since been engaged in transferring the cargo to cars in waiting on the siding.

The second hitch took place yesterday afternoon when the Longshoremen working on the molasses-laden schr. Russel M. Zinck stopped work. They objected to two members of the crew from handling the freight. One was a winchman that Capt. Zinck said was conversant with the working of a new winch recently installed, and the other was only doing minor work. However, the men said that it was a violation of the rules and insisted on having the men removed. This the Farquhar Trading Co. refused to do, contending that as the union men were satisfied in allowing members of the crew of the fish schooner to assist, they should not object to only two men working on the Zinck. Both sides were obdurate, and the captain decided to go to Sydney and discharge what molasses is required there, when he will return to finish discharging here by a crew of non-union men. The local copcon say they are willing to do the work.

The union men, who receive 60 cents an hour for day work and 80 for night, contend that if they allowed a breach of the rules to apply in one case, that the various shippers would naturally take it for granted that their rules were no good whatever; that it would be making favors which all would look for, and for this reason say they will not recede from the step taken.—N. S. Herald, Aug. 23.

Our Buyer, on the spot, sends wonderful value in Ladies' Silk Dresses. Be sure to be on the spot at BISHOP'S for a stylish Silk Dress for fifteen dollars. THINK OF THE PRICE.

More Vandalism.

Complaints are numerous from residents of the Waterford Valley concerning vandalism, which has been going on in their gardens for some time. The palings of the garden fences are broken, trees are pulled up, the roots and flower beds are trampled on and ruined. Efforts should be made to effect the arrest of those responsible for these depredations.
