

ASTHMA

Quickly Relieved.

Mr. Thomas Bond, Shelburne, North Shore, Que., writes:—
"I suffered for years with asthma, sometimes being unable to lie in bed, but after a treatment of Dr. Chase's Linseed and Turpentine I am now quite well and thank this medicine for restoring me."

Dr. Chase's Syrup

Linseed and Turpentine

All Dealers or G. S. Doyle, St. John's, Nfld.

tion." we won't do any boasting this time, only hope for no more snow blockades or "silver thaws" this season; the latter though looking very beautiful, seems to be a deadly foe to our railway service, worse to contend with than the snow drifts. One cannot but realize what a hard and tedious work it must be for the railway officials and the section-men to make any rapid progress over the line after a "glitter" such as we have had of late; and one can sympathize with their discomfort and with the feelings of unfortunate passengers caught out in the wilds "somewhere in Newfoundland!"

Whooping cough claimed another victim here in Feb. when Mr. and Mrs. John Gushue, of Rocky River, lost a fine boy of three years of age. We extend sympathy to the bereaved parents.

Magistrate Thompson, of Brigus, paid us a flying visit on the 15th inst.

February has been a very good and tempestuous month here, but the bright sunshine on most days, made its severity easier to endure. The temperature was reported to be 20 below zero on one occasion, and some few of the residents lost their vegetables

MINARD'S LINIMENT USED BY VETERINARIANS.

Major Cotton Thanked.

Editor Evening Telegram.
Dear Sir:—After I had learned on Saturday that the "plane" would be going to Botwood, I wired Major Cotton asking him to drop me a paper when he was passing over Port Blandford. However, on Sunday Feb. 26th I was surprised to find that he had done so, and for which I sincerely thank Major Cotton.

Yours truly,
A. J. STONE.
Port Blandford, March 1, 1922.

A HEALTH SAVING REMINDER

Don't Wait until you get the Spanish Influenza

USE

Minard's Liniment

At the first sign of it. Its Healing Qualities are Amazing. THE OLD RELIABLE.

An Expensive Luxury.

The report is given in the city press that Mr. Morgan, who came here last summer to superintend the management of the Railway under a commission, is about to leave again to return to his work with the C.P.R. We cannot see that anything has been done to improve the management of the system, since Mr. Morgan has assumed control, except the expenditure of one million dollars of the money granted by the Government last year to help the company. This money has been mostly spent in ballasting parts of the road that should have been attended to in the ordinary course of keeping up the road. It is said that this sum had been spent on the road up to the end of last year. To all appearances, the system has been run in the same old way, the presence of Mr. Morgan and the generous loan from the people's chest having done but little in the way of improving the system generally. The railway has been a very expensive luxury to the Colony, and the people have to pay for it indirectly as well as directly.—Harbor Grace Standard.

Bell Island and Unemployment.

A MISUNDERSTANDING.

A meeting of the unemployed was held in the Town Hall, Hr. Grace, on the evening of Feb. 23. A large gathering was present and was addressed by the Hon. Dr. Barnes and Mr. F. C. Archibald, M.H.A., Rev. W. R. J. Higgett and others. Mr. Wm. Harris was Chairman and Mr. Harold Martin, Secretary of the meeting. Dr. Barnes made an offer to the men of four days' work a week on Bell Island at the rate of two dollars and ten cents a day, \$2.40 a week. To those who have horses and cannot go to the island, another proposition was made—that of cutting sleepers at the rate of 15 cents each.

These proposals seem to be as good as can be secured, and no doubt they will be accepted by those of our men who are in need and desire work. It was also stated at the meeting by Dr. Barnes that Detective O'Neil had exceeded his authority when he made the statement that \$9 a week was guaranteed by the Government.—Hr. Grace Standard.

A False Alarm.

On Saturday night the Central and West End fire companies were called out by a false alarm. At 9 o'clock an alarm came in from box 339 situated on Hamilton Street. On arriving at the scene there was no one around nor was there any need for the firemen's services apparent.

CRESCENT THEATRE TO-DAY

Icing in barrels and halves. Crystal Dominoes, half size tablets (60-2 lb. cartons).

Market is very firm and a further advance not at all unlikely.

HARVEY & CO., Ltd.

Sealing Train Arrives.

MEN BOARDED SHIPS.

Over 300 sealers reached town early yesterday morning on the train which had been sent to Gambo to bring them here. Most of the men came from Wesleyville and other places in Bonavista Bay, and in many cases, had to walk a considerable distance to connect with the train. A forced stay of three days at Gambo was caused by the engineers' demands. As soon as they arrived in the city the men joined their respective ships and will sign on to-day.

Beauty and the Rouge Pots.

FAMOUS BROADWAY BEAUTY AT THE NICKEL.

The program of pictures and vocal selections at Nickel to-night is one of extraordinary interest. Miss Ruth Chase sings "Hear Ye O Israel," a well-known Sacred selection from Elijah. Mr. George Dale sings "Just That One Hour" and by popular request will repeat "The Pipes of Gordon's Men." Besides this Mr. Dale and Miss Chase will render that celebrated duet "Oh That We Were Maying."

The picture for to-night is a wonderful social drama, featuring beautiful Justine Johnston entitled "The Plaything of Broadway." Many of the most effective scenes are laid on New York's lower East Side, and dozens of children ranging from babies of a few months to half grown boys are shown in these scenes. The story is based on the effort to secure for the poor children of the slums an emergency house or hospital to care for them, and how it was accomplished by a dancing girl in a very sensational way.

Jan. 15, 1922

Salvage Notes.

Although it is but the 9th of the month, we fear it will be well on for March ere these notes are printed, as judging by the storm of the past few days and the snow banks in our vicinity, the trains will be unable to move for days.

Mr. James Moss, Round Head, Salvage, who had been up to the hospital, St. John's, for a facial operation, came home Tuesday, fortunately escaping the worst of the storm. We have heard that Mr. Moss is feeling fine and fit after his sickness, for which we are all profoundly glad.

Ducks, etc., are reported as being more plentiful this year than for a number of seasons past. Unfortunately most of the men are away pit-prop cutting, and so not nearly as many of the birds as customary, have appeared on the menu cards at dinner hour.

In spite of the heavy storms of February, some of the pit-prop cutters are home from Newman's Sound, with their quota of wood—12 cord per man—out to the "bank." Most of the cutters are nearing the finish of their winter's cutting.

Mr. Albert Samson, of Flat Islands, arrived here Tuesday on his way to one of the pit-prop areas, as a Government Inspector. A brother, Mr. W. Samson, is Inspector at some of the Indian Bay areas.

We are glad to note the recovery of Mr. Alf. Moore, of the Telegram staff, as seen by a recent issue of that paper.

To-day, St. Valentine's Day, was observed in the customary manner, and it was "own or be owned" up to midday. Many were the jokes go off by some of our local humorists.

What might easily have led to the loss of the teacher's residence by fire was fortunately discovered ere much damage had been done. The tearing off of a few pieces of clapboard on one end of the house revealed the source of the fire, and a little water soon did the needful.

A concert by the young people of Salvage and Bishop's Harbor, to be staged on Monday night, the 27th, promises to be the local hit of the season.

Feb. 14, 1922.
