The newspaper press of Russia is by no means so wide in its circulation as might fairly be expected from so great and progressive an empire. They have but one daily journal which circulates over 10,000, and that is the Moscow Gazette. No St. Petersbug paper prints over 4,000 copies.

It is now generally admitted by honest physicians, that when once comsumption is fairly fastened upon the lungs, no human power-can save the patient from death. They also say that about fifty per cent. of those who die from this disease can trace the cause to a neglected cough or cold, which might have been curred by a small bottle of Liquid Opodeldoe, or what is the same thing, Johnson's Anonyne Liniment.

Anonyne Limment.

Consumption. Bronchitis, General Debility.—Caution.—Hypophosphites.—Fellows' Compound Syrup of Hypophosphites.—As this preparation is entirely different in its combination and effects from all other remedies called Hypophosphites, the public are cautioned that the genuine has the name of "Fellows & Co." blown on the bottle. The signature of the inventor, James I Fellows, is written with red ink across each label, and the price is \$1.50 per bottle.

The price is \$1.50 per bottle.

**Poverty is bad, but the worst kind of poverty is poverty of the blood; this makes a man "poor indeed," for it takes away his strength, courage and energy; but enrich the blood with its vital element, *Iron*, by taking the Peruvian Syrup (a protoxide of iron), and you will feel rich and "as good as anybody." Try it.
