

THE MORNING ALBERTAN

TWENTY-FIVE CENTS A MONTH—12 PAGES

CALGARY, TUESDAY, SEPTEMBER 17, 1912

ELEVENTH YEAR—No. 170

MARKETABLE GRAIN IS FAR IN EXCESS OF LAST YEAR

Large Volume of Money Will Pour Into Pockets of Western Canadian Farmers

Outlook for All Lines of Business Throughout Alberta Exceedingly Bright

Earlier Estimates on Yield Fully Sustained by General Crop Reports

ONE of the largest money crops of grain ever harvested in the Dominion of Canada will soon be garnered and safely housed, according to reports received from a number of grain growing centres.

Full statistics on the total local yield and the percentage of first grade grain have as yet not been compiled, but investigations conducted by those who will move the crop and market it, serve to show that the optimistic forecast of a few weeks ago has been realized.

Mr. E. M. Saunders, manager of the local branch of the Canadian Bank of Commerce, who keeps posted on crop conditions and can speak authoritatively, said yesterday that his estimates of a month ago had been realized and that the crop, from a monetary standpoint, would be one of the greatest ever harvested.

More Export Wheat. "This statement is based upon the fact that there is more export wheat this year than for a number of years," said Mr. Saunders.

"While the total yield will not surpass that of last year, the export will be greater. This year the grain is of a higher grade than last year, and there will not be the loss in harvesting that occurred through the seasons last year.

"A month ago I ventured the prediction that more money would be required this year than last in the crop, and from authoritative reports I am convinced that this is now an assured fact."

Other Good Reports. Mr. E. P. Strong, president of the Calgary Grain Exchange, returned yesterday from a trip to Medicine Hat, and has flattering reports on the crop in that vicinity.

"Everything is ideal," said Mr. Strong, "and there will be more wheat marketed this year than there was last year, and the high grade of the crop brings it up to a splendid money crop. I have not received full statistics on the yield, but as near as I can estimate the total yield as given out at Ottawa as 206,029,300 bushels, fully 85,000,000 will come from Alberta, Saskatchewan and Manitoba, the Alberta crop being in excess of that of last year, in point of marketable grain."

Taking the grain crop as a basis financiers see the most prosperous year in a decade for the West, with an abundance of money coming in that will trickle through all channels of trade.

Heads of banking and financial institutions predict another forward movement in all lines of business occasioned by the great amount of money that will be available immediately following the marketing of the crop.

THOSE WHO TOIL NOT MAY SPIN IN THE CITY JAIL

Chief Cuddy is After the Never-Works and Ne'er-Do Wells of Calgary

The Calgary police have declared war on the out-of-work and the men in the city living without visible means of support. Several arrests were made yesterday of men living in this way.

Chief Cuddy has his men out with a net to arrest all persons who cannot account for the way they are doing. The police are watching for men who have a year ago, but the owners have recently brought the machines in to play again.

SMALL BOY WAS KILLED

Franklin, Alta. Sept. 16.—Eight-year-old Robert Veach was accidentally shot and killed by his elder brother George here on Saturday night while the latter was endeavoring to take the wagon away from him.

PROGRESSIVE LEAGUE TO MEET TONIGHT

President Tregillus of the Progressive League, desires it understood that the public meeting of the league will be held at 8:30 o'clock tonight, instead of 8 o'clock.

The announcement that the meeting will be held at 8 o'clock this afternoon is an error. The hour for assembling is deferred half an hour so that the meeting will not interfere with the dinner which is being tendered Mr. Vivian

UPON THE FOOD SUPPLY DEPENDS WELFARE OF OUR RACE

Dr. Bryce Discusses Physical and Mental Strength in Great Cities of Canada

Existing Conditions, He Says, Demand Lessening Cost of Agricultural Production

Toronto, Sept. 16.—Dr. H. B. Bryce, medical superintendent of the Dominion government, delivering his first address before the second annual congress of the Canadian Public Health Association today, asked these questions:

"How shall Canada have her people from physical and mental degeneracy due to industrial activity as seen in the great cities of older civilization?"

"How long can a country essentially of raw material, by virtue of geographical location and extent of territory still largely undeveloped, continue to develop normally and prosper when it has shown a displacement of rural population during the last ten years to an extent never witnessed before in the history of any people, and an increase of population rapid even beyond the palmiest days of the United States immigration?"

Answering these questions, Dr. Bryce said the existing conditions demand a lessened cost of agricultural production, careful preparation and conservation of the resources of the land, and an increase of the population of the consumer and producer. More mixed and intensive farming would have a compensating effect on the employment of farm laborers.

Dr. Bryce condemned the big packers for eliminating competition in buying, and the small drovers and butchers, and by getting control of the civic or rural markets.

Dr. J. H. Elliott of Toronto, dealing with tuberculosis, said that all large municipalities should be materially lessened if improved social, hygienic and housing conditions could be secured.

ONTARIO CROPS HURT BY HEAVY RAINS

Potato Crop Cut Down by Potato Blight Which is Serious

Toronto, Sept. 16.—The Ontario Department of Agriculture today issued the first of a series of weekly crop reports which will be supplied by departmental representatives in every district of the province. The heavy rains have done great damage to grain and potato blight will cut down what otherwise would have been a bumper yield. The apple growing counties all report splendid crops, but other fruits do not make as good a showing.

FINE WEATHER

The Canadian meteorological service weather observations, taken at seven o'clock last evening, September 16, Winnipeg time:

Port Arthur, cloudy	56	66
Winnipeg, cloudy	52	62
Minneapolis, cloudy	50	60
Qu'Appelle, fair	50	60
Swift current, clear	50	60
Prince Albert, cloudy	50	60
Battleford, clear	50	60
Medicine Hat, fair	50	60
Calgary, clear	50	60
Edmonton, clear	50	60
Manitoba—Fine, and higher temperature.		
Saskatchewan and Alberta—Fine and moderately warm.		
Finest weather has prevailed today throughout the western provinces, and in Alberta and Western Saskatchewan it has been moderately warm.		
Victoria	50	60
Vancouver	48	58
Kamloops	48	58
Edmonton	52	62
Battleford	42	52
Prince Albert	42	52
Medicine Hat	42	52
Winnipeg	46	56
Port Arthur	46	56
London	46	56
Toronto	46	56
Kingsport	46	56
Ottawa	46	56
Montreal	46	56
Quebec	46	56
St. John	46	56
Halifax	46	56

A NEW COMMERCIAL ORGANIZATION TALKED OF

Financiers and Business Men May Incorporate and Maintain Exhibit

Data on Opportunities for Manufacturing Would be Gathered and Disseminated

Plans as Yet Embryonic, But Working to Something of Tangible Shape

That Calgary in the near future will have a new commercial organization, fully incorporating and having for its object the recruiting of additional capital for investment in the city and environs was the rumor that was floating along Eighth avenue yesterday. Just what form the organization will take on one could not say, but sufficient was learned to forecast that it called for something in the form of a commercial club which would employ experts to guide its destinies and take up the greater work necessary to secure large manufacturing and industries for the city.

While a number of financiers and business men have had the matter under consideration no one has any tangible plan in view. It is claimed that there will soon be a meeting of business men at which the foundation of the organization will be laid and also plans for inaugurating a campaign looking to the accomplishment of the purpose in view.

Among the material to be gathered and tabulated will be the opportunities for manufacturing concerns, showing the field from which they may draw business, cost of building, labor, taxes, and volume of business guaranteed under normal conditions.

Already steps have been taken along these lines, but it is the belief that it will be necessary to employ an expert who has had wide experience in the work and has the prestige that would guarantee results once the movement is started.

Said one manager of a local bank, whose identity he asked to be kept secret until something tangible was worked out: "There is a multitude of opportunities for investment that will be known in a general way, but have not been properly exploited. I believe it will be necessary to incorporate and form a working organization that will reach out over the country to those centers where capital is to be secured."

It will be several days before anything concrete has been worked out when there will likely be a meeting of financiers and business men with a view to launching the new movement.

CAPITALISTS ARE SHOWN OVER CITY

Prominent Men From United States and Eastern Canada Arrive From North

Entertain at Luncheon by Mr. I. W. Kerr After Automobile Tour

Coming from Edmonton, where they are heavily interested both in real estate and commercial enterprises, a party of capitalists arrived in Calgary yesterday and were taken over the city by automobile and afterwards entertained at luncheon by Mr. I. K. Kerr.

In the party are Messrs. H. H. Beck, Toronto; Charles M. Sainsbury, Winnipeg; P. B. Keith, A. J. Keith and Dr. Warner, Au Claire, Wisconsin.

The present trip is for the purpose of seeing the towns and cities in Southern Alberta, the party already having holdings in Winnipeg, Edmonton, and Saskatoon.

SOME CHANGES MADE IN S. ALBERTA BANKS

Lethbridge, Sept. 16.—Mr. G. H. Harman, manager of the Bank of Montreal, at Magrath, will be the new manager at Lethbridge to succeed Mr. F. G. Woods, who has been promoted to the assistant management of the Montreal branch. Mr. Geddes, manager at Cardston, will succeed Mr. Harman at Magrath, and Mr. Belcher, of Winnipeg, will succeed Mr. Geddes at Cardston. Mr. Hartman was formerly an accountant in the Lethbridge office.

Resignation of City Engineer Child Will Be Accepted to Go Into Effect And Successor Selected January 1st

Vacancy Created by Resignation of Dr. A. S. Estey, Medical Health Officer, Begins One Month Hence; Assistant Sanitary Inspector J. J. Dunn is Elevated

Matter of Superintendent Iwerson's Goes Over Pending the Passage of Reorganization Bylaw for Parks Board; Time Also Asked in Which to Produce Evidence

RESIGNATION of City Engineer James T. Child referred back to city commissioners with instructions to fix the date of that official's retirement as January 1, next, and to advertise for a new engineer.

Resignation of Dr. A. S. Estey, medical health officer, accepted, to take effect a month from date, and commissioners instructed to advertise for new officer.

Resignation of Sanitary Inspector Fox accepted, to take effect immediately with month's salary in lieu of thirty days' notice. Assistant Inspector J. J. Dunn appointed to take Mr. Fox's place.

No Action on Iwerson. The foregoing epitomizes the action taken by the city council last night on the various resignations of city officials submitted to the aldermanic body. No action was taken on the report of the parks board demanding that the council show cause why Parks Superintendent Iwerson should be dismissed. A new bylaw providing for the reorganization of the parks board probably will be introduced at the next meeting of the council. Inasmuch as members of the council opposed to Iwerson also have asked for time to produce the evidence against the superintendent, it was thought best to let the matter lie over until the reorganization bylaw comes up.

There was no discussion over any of the resignations except that of City Engineer Child. When the report of the city commissioners was received presenting the city engineer's resignation, but recommending that his services be retained, at least until the season's work was finished, Alderman Morfitt objected on the score that it was indefinite.

"I think the commissioners should fix some definite date for the release of Mr. Child," he said, "both in fairness to the city and the city engineer himself. Inasmuch as the resignation has been accepted, the commissioners should also take steps to advertise for a new engineer."

Alderman Morfitt then moved that the matter be referred back to the commissioners with instructions to fix the date of the engineer's retirement as January 1, next, and to advertise for a new engineer.

Alderman Minchin objected to the clause providing for the advertising for a new engineer. He said the question of advertising for an engineer had been brought up at a previous meeting and voted down. To bring it up again would require the introduction of a notice that a motion to advertise would be offered at a following meeting. After some discussion, City Solicitor Moffatt ruled that Alderman Morfitt's motion was in order and it was put and carried.

ACT IS JUSTIFIABLE, SAYS SENATOR OF ALBOUCE

John Deak Snead Breaks Silence and Discusses Killing of Old Enemy

Amarillo, Texas, Sept. 16.—John Deak Snead, who shot and killed a man on the street here Saturday, broke his silence late today in the Potter county jail. His statement was made just as the funeral of young Boyce was being held. Snead, between cigarettes calmly declared, "There is no use in me discussing the shooting itself. The public knows all regarding that. When my trial for killing Boyce is held, I am positive that the acquittal of the jury and the public. It will win my sympathy. It is I who have suffered most. My act was justifiable."

The lawyers of Snead today practically admitted that when Snead came here he rented the shanty near Polk street and the public knows all regarding that. The duke and duchess commanded an excellent view of the street.

The most sensational development today was brought out when Snead's attorneys indicated that Al Boeyce had been writing Mrs. Lena Snead in an effort to induce her to elope with him for a second time and that they take Snead's two children with them. The rich prisoner's lawyers declare that Snead and they were planning evidence at the trial. Boyce came here from Canada only a week ago, it is claimed, for the purpose of rejoining Mrs. Snead and they were planning to run away together, during the second trial of Snead in Fort Worth for the killing of Captain Boyce. The trial is scheduled to begin November 11. When Snead, learned, through relatives, that Boyce actually had returned to Amarillo he came here immediately and with the cunning and caution of his acute mind planned out every detail of his act so there would be no hitch.

Will of the Hero of Port Arthur

Tokio, Sept. 16.—The will of Gen. Count Maresuke Nogi was published today. The Japanese warrior said that he follows the emperor because his services are no longer required in this world. He had often longed to die, he added, and chooses as the occasion for his departure from this life the present great national calamity under which the country is laboring.

MUST WRAP BREAD, SAY ALDERMEN TO BAKERS

Alderman Hester's New Wrapping Bylaw Passes Council, Despite Objections

Decline to Accept Excuse That Delay Was Required to Install Machinery

Bridge Tenders Are Laid Over to Allow Commissioners to Sift-Mass of Figures

FOLLOWING a short debate, the city council last night passed Alderman Hester's new revised bread wrapping bylaw, prepared in accordance with recent decisions in the courts. Under the new bylaw, all bakers hereafter will be required to wrap their loaves separately.

Some objections were urged on the score that the bylaw should not be enacted until the bakers were given an opportunity to install bread wrapping machines. Alderman Hester pointed out that plenty of opportunity already had been accorded the bakers to secure such machines if they chose.

"The legislative committee has letters from manufacturers showing that they were prepared to furnish these machines last April. Isn't that true, Mr. Brocklebank?" inquired Alderman Hester of Alderman Brocklebank, a member of the committee.

"That's true," responded Ald. Brocklebank. Alderman Minchin objected on the score that the previous bylaw had been knocked out in the police court. He thought the city would be fonder to be gone beyond its powers.

City Has the Power. "The city is empowered by its charter," said Solicitor Moffatt, "to pass laws to preserve the health of the city and prevent the spread of contagious diseases. There is no question but what this law is planned to preserve the health of the city and to prevent the spread of contagious diseases. The only question in the mind of the judges would be whether or not the law is prepared, as reasonable."

When the bylaws providing for a \$75,000 debenture issue for water extensions, and an \$85,000 issue for sewer extensions as voted by the ratepayers came up for their third and final reading, Alderman Brocklebank took the floor.

PRINCESS VIEWED THE MOUNTAINS FROM THE ENGINE

Witnessed Wonderful Scenery of Gorge Along Kicking Horse

Glacier, B. C. Sept. 16.—The first stop made by the government general train after leaving Lagan this morning was at the Great Divide, where Princess Patricia took a photograph of the stream which divides itself and starts on its journey to two oceans.

At Field a stop of four hours was made. The royal party drove to Emerald Lake.

At Palliser this afternoon Princess Patricia, Miss Adams, Mr. W. R. Baker, secretary of the C. P. R., and two aides de camp took their places in chairs on the plot of the engine, and from that position saw the wonderful scenery of the gorge through which the Kicking Horse river and the railway make their way. The duke and duchess viewed the scenery from the observation platform of the car Cornwall.

A stop having been made here to enable the royal party to ride out to the Illecillewaet glacier, the train will go on to Revelstoke and remain there until the morning. The first stop of any length tomorrow will be made at Kamloops, which will be reached at 3 in the afternoon.

Three hours will be spent there. A civic address of welcome will be presented to the governor general and responded to by his royal highness. The duke, the duchess and Princess Patricia will then proceed to the Royal Inn and hospital, and the formal opening of the institution will take place. Among the other events on the program for the brief stay of the governor general party in Kamloops are a pageant and historical parade, and a lacrosse match in Coronation Park.

No Americans were hurt. The rebel loss is unknown. General W. S. Schuyler, commanding the department of California, said today that Robbs had informed him that he had "postponed his attack on Agua Prieta in deference to the wishes of the American government."

VIVIAN BANQUET

The town planning commission will give a banquet this evening in honor of Henry Vivian, M. P.

The banquet promises to be a function out of the ordinary. More than 100 acceptances have been received by those in charge.

It will start promptly at 6 o'clock, and will be at an end by 8.00.

The banquet is informal. Any citizen who is interested is welcome to attend. Mr. Vivian will speak on "What Town Planning Will Do For Calgary." There will be no other speakers.

T. R. MUST TELL ABOUT RELATIONS WITH BIG TRUSTS

Must Produce Correspondence Between Himself, Archbold and Perkins

Hearst Expected to Produce Certain Letters From Archbold

Washington, Sept. 16.—John D. Archbold, George W. Perkins and Col. Roosevelt are to be asked by the senate investigating committee to produce any correspondence showing that they were prepared to furnish these machines last April. Isn't that true, Mr. Brocklebank?" inquired Alderman Hester of Alderman Brocklebank, a member of the committee.

Investigation of this phase of the campaign contribution question was authorized by the senate. Previous resolution just before congress adjourned. Chairman Clapp, of the investigation committee after a conference today with Senator Patterson of Ohio, stated that the committee would open this line of inquiry by asking for the production of letters when the names of witnesses named are on the stand.

William R. Hearst is expected by Chairman Clapp to produce copies of Archbold, George W. Perkins and Col. Roosevelt to members of congress by Mr. Archbold. The members of the house and senate who may be called upon to submit their private letters to the committee are those named until after the investigation begins on September 30.

GIRL GAVE BACK RING AND LOVER SUCCEED

Victoria, Sept. 16.—Because of a lovers' quarrel in which his sweetheart, a young girl in Esquimalt returned to him the ring with which they had secretly before plighted their troth, Henry Joseph Cochrane, a native of Ottawa and a member of the naval police at Esquimalt, left house of Naval Officer French at Esquimalt on August 27th last, in the night and was never seen alive again. His body was recovered from the water of Esquimalt harbor yesterday.

PASSENGERS TOOK TO ROCK WHEN STEAMER STUCK

Vancouver, Sept. 16.—The steamer B. X., which runs on the Fraser river from Queen's to Port George, struck a rock on Saturday and was put out of commission. She struck the boulder, swung around and struck the shore, where her passengers climbed onto in five minutes. The water flowed into her hold up to the level of her boilers. She will be repaired within a few weeks.

WHAT THE GREAT WEST DID YESTERDAY

In Regina: Extensions to municipal street railway next year will cost over \$150,000. The paving program totals \$170,000. The contract has been let for an \$85,000 extension to the collegiate.

In Saskatoon: The western superintendent of the Bank of Montreal, after a tour of the prairie provinces, states the crop is in a safe condition, and the bank is ready to assist to finance the farmers.

In Brandon: Improvements on the fair grounds in preparation for the Dominion exhibition next summer include the purchase of 25 additional acres, a new race-track, new brick, steel and concrete grand stand, to seat five thousand, three new buildings, to cost \$150,000.

In Winnipeg: Manitoba will make a large display of vegetables at the Dry Farming Congress at Lethbridge next month. Tenders have been called for a bridge across the Red River. The Canadian Pacific is building over the Kamistogua river, the largest Bascule type bridge ever constructed. A by-law has been passed for the extension of the electrical system to cost \$750,000.

BOXING BYLAW GETS ITS DEATH BLOW FROM COUNCIL

By Vote of Seven to Four Substitute for the Anti-Boxing Measure is Turned Down

Rev. Sanford E. Marshall Characterizes Contests as "Commercialized Sport"

Alderman Minchin Defends His Course in Introducing Draft of Instruction

BY a vote of seven to four the city council last night killed the bylaw designed to permit boxing contests within the city limits.

"We have heard a good deal about clean boxing recently. Now gentlemen, speaking frankly, as we understand this recent contest held on the outskirts of our city, and a similar one at Bassano, we all know that it is simply prize fighting masquerading under the term of boxing."

In the foregoing words, Rev. Sanford E. Marshall scored what he termed "commercializing of sport" before the city council. The proposed boxing bylaw was before the alderman for consideration and they made short work of it when the vote was had. The vote was as follows:

For the boxing bylaw—Brocklebank, Minchin, Ramsay, Brown. Against the boxing bylaw—Whately, McDougall, Elvey, Morfitt, Samis, Caracallan, Hester.

Provided for Commission. The proposed boxing bylaw was originally offered by Alderman Minchin as a substitute for the anti-boxing bylaw, which absolutely prohibits any kind of boxing within the city limits. The proposed new bylaw would have put boxing under the regulation of a commission of three. It was evident last week that the boxing bylaw had no chance of enactment and it was intended not to bring the matter up at all.

Evidently supposing that the plan was to get the bylaw passed at some meeting when they were absent, Alderman Morfitt moved that the bylaw be adopted. Alderman Samis seconded the motion. Both Morfitt and Samis then explained that they had done so merely to get the bylaw before the council, as they both intended to vote against it.

"There have been attempts made in the past to put this bylaw over when some of the aldermen were absent. Now is a good time to settle it when we're all here," declared Mr. Samis. Alderman Minchin resented the insinuation.

"I want to tell you gentlemen and the members of this council," said Minchin, "that I never intended to have a motion here without giving notice two weeks in advance. Furthermore, I did not introduce this boxing bylaw as soon as some of the aldermen went on their vacation. It was not brought in until a short time ago and I brought it in when I thought they would be here, as it was announced they were expected. In regard to the appeal meeting that was called, I did not even know that one had been called until I was notified to come up here."

Alderman Minchin went on to declare that he was for the bylaw and dwelt on its merits. In conclusion, he announced that he wanted the year and days taken.

Rev. Mr. Marshall was then invited to speak and addressed the aldermen for a few minutes. He dwelt on the fact that the Ministerial association particularly objected to was the commercialization of sport. What the contest was for a cash prize or a championship prize, its object apparently was to reduce the sport to professional and commercial status. He said that the Ministerial association was protesting against the recent so-called "contests" as prize fights under masquerade. He pointed out that the larger American cities were prohibiting prize fighting and boxing and many of them even prohibited the exhibition of prize fight moving pictures. In the new city of Calgary that is building he thought every citizen should do his best to make "the city the equal of any on the continent and the citizens looked to the aldermen, as their city fathers, to do the wise thing and protect them. The vote on the bylaw was then taken and it was killed.

HOPEFUL FOR PEACE IN ITALY-TURKISH WAR

Good Progress Reported in Peace Negotiations Now Under Way

Geneva, Switzerland, Sept. 16.—Reports of a rupture in the Italo-Turkish peace negotiations are unfounded. On the contrary unexpected good progress has been made towards an agreement for peace. Several points, which at first appeared irreconcilable have been settled and after today's meeting at Ouchy, a village on Lake Geneva, the negotiators' conversations appeared to be most hopeful of reaching a settlement.

G. T. P. HAS NOT PURCHASED YUKON RAILWAY

Vancouver, B. C., Sept. 16.—W. B. Clegg, a Chicago banker today denied that the Grand Trunk Pacific railway had purchased the White Pass & Yukon railway of which he is a director. He said that next year the White Pass company would erect a chain of hotels along the Yukon river to Fairbank, the centre of the Alaskan mining region.
