

### DANDRUFF WOULD LIFT OFF IN SHEETS

Hair Dry and Lifeless. Almost All Hair Out on One Side of Head. Used Cuticura Soap and Cuticura Ointment. Hair Coming in Nicely and Scales All Gone.

176 Adelaide St., St. John, N. B.—"I cured my little boy of a bad case of dandruff with Cuticura Soap and Ointment. The dandruff formed on his head soon after birth. The hair was dry and lifeless and almost all out on one side of his head. I washed the little head twice a day with warm water and Cuticura Soap, dried it, and very carefully applied the Cuticura Ointment and in about an hour took a very fine little comb and the dandruff would lift off in sheets and some of the hair would come too. Then I would put some Cuticura Ointment on and let it remain all time to wash the head again. I used a large box of Cuticura Ointment with the Cuticura Soap and his hair was coming in nicely and the scales all gone. Today he has as nice a head of hair and as free from dandruff as you would wish to see." (Signed) Mrs. C. F. Keast, May 30, 1912.

A single cake of Cuticura Soap and box of Cuticura Ointment are often suggested when all else has failed. Sold by druggists and dealers everywhere. Liberal sample of each mailed free, with 32-page Skin Book. Address post card Potter Drug & Chem. Corp., Dept. 32D, Boston, U. S. A.

### FRENCH SENATOR WILL WORK FOR THE POOR AND LOWLY

Would Build Barracks Where the Poor of Paris Could Be Housed

Paris, June 9.—Senator Berenger, the great French reformer, is about to associate his name with a vast scheme for the relief of the out-of-work and destitute, especially those who are burdened with large families. The senator's proposal amounts to creating large barracks for the poor. M. Berenger's attention has been drawn to the subject by the doings of the Tenants' League, and the extreme and un-tenable leader, M. Cochon, who recently amused Paris by escorting evicted workmen with large families through the streets and lodging them at haphazard in the Ministries and other public buildings. There are hundreds of destitute people, and very often respectable workmen, with large families, evicted from their lodgings on quarter's day, the building of workmen's dwellings does not meet the case. Such dwellings are really occupied as a rule by workmen who can afford to pay for a fair amount of comfort. The people on the other hand, who are evicted, especially when they have large families, have got into trouble because they are totally destitute. It can be no question of erecting large and comparatively comfortable dwellings for them. What, then, is to be done? Senator Berenger suggests that they should be treated simply in the way that the temporary housing of soldiers is treated by the military authorities. Temporary or permanent barracks should be constructed where these destitute people could find a shelter. The city of Paris would no doubt soon find many empty acres of ground which it could lease for a nominal rent. With the buildings there should go large playgrounds for the children, and, finally, this sort of workmen's barracks should be supplemented by suitable trade schools, in which the children, when they reach a certain age, should be taught a trade and fitted for life.

### MONTREAL HAS SNOW FALL

Montreal, June 9.—Snow fell for a short time on the streets today, while the temperatures recorded reached from a minimum of 35 in positions exposed to the cold wind prevailing, to 55 in the sheltered spots.

### Appeal is Dismissed.

The appeal in the case of E. Merino against J. H. Farmer was yesterday dismissed in the supreme court on banc, Judge Beck dissenting. The case was in connection with a certain quarter section which Merino had transferred to the Coal Securities Limited for \$2,000 and he was to receive 5,000 shares in the firm. Merino was one of the largest users of the oil in the province and he was to give his advice to the company. Counsel for the defendant did not have to go far with his address when Chief Justice Harvey intimated that the matter was a question of fact and it had been found by Judge Scott at the trial that Merino was dishonest. They would not go against that decision and the appeal was dismissed.

### Real Estate Case.

Judgment was yesterday given by Judge Beck in the case of Hamilton v. York and Baldry, a case which involved lots 5 and 6 in Norwood, Edmonton. Judgment was given for Hamilton and York was ordered to pay the costs of the action for both Hamilton and Baldry. The case arose from the purchase of lots 1-3 in Norwood in 1907 by Hamilton and certain others from York. Later there was an agreement made and York held lots 5 and 6 as a security for some money given to Hamilton, while the other lots went to the others. Without giving notice to either Hamilton or Baldry, the purchaser, the lots held under security were sold by York and Baldry in the fall of last year. His lordship found that the action was a breach of trust on the part of York as no notice had been given.

### WOULD DISQUALIFY FORMER MAYOR FROM BAR

Action of Law Association of Alberta Against Alexander Knox Who Is Said to Have Escaped from Scotland from Fear of Criminal Charges

### COMMISSION IS TO TAKE EVIDENCE IN SCOTLAND

Serious Charges Are Made Against Knox in Affidavits Presented to Supreme Court Which Are All Denied By Counsel for Knox

Application was made in the supreme court on banc yesterday morning by the Law Society of Alberta to have Alexander Knox, barrister, and former mayor of Wetaskiwin, disqualified from practicing at the bar of the province. Charges of misdemeanors while practicing in Aberdeen, Scotland, are made the foundation of the application which was spoken to by Charles F. Adams. It is further alleged that Knox fled Scotland to escape a certain criminal proceedings against him. Their Lordships, after hearing the speeches of counsel, ordered a commission to take certain evidence in Scotland in regard to the matter. The application is supported by a number of affidavits, which are to the effect that Knox is under fear of arrest by the criminal authorities of Scotland in connection with certain embezzlements which he is stated to have made while practicing solicitor in Aberdeen in 1910, and that he fled from the country to escape the British courts of justice.

### Resigned While Mayor.

Knox was mayor of Wetaskiwin in 1912 up till July 21, when he suddenly left the city, leaving behind him his resignation as chief officer of the city. According to the affidavit of A. Stewart Watt, barrister, of Wetaskiwin, Knox stated to him that he wanted to be given out that he was returning to Scotland to face the charges against him. It is said, however, that he was then at San Francisco on his way to Honolulu.

### Serious Charges Made.

Knox returned to Wetaskiwin quite unexpectedly in November of the same year, and it is stated that though he was asked by press and public to explain his departure from Wetaskiwin and his flight from Scotland, he failed to do so.

### Other Affidavits Allege.

Other affidavits allege that Knox was guilty of fraud and embezzlement. It is said that he offered mortgages held by him for a client as security for a loan he wished from a bank in Aberdeen, that he abandoned without paying a mortgage he had undertaken to take over for a client, and that he appropriated certain monies due to a client under a will. In this last case the affidavit states that the lady in whose favor the will was made applied to Knox for part of the money due her in order to provide for her daughter's marriage; that Knox refused, and that the worry caused by this resulted in

### 11,000 HOMESTEADS TAKEN UP IN PAST FIVE MONTHS

Winnipeg, June 9.—During the first five months of this year ending May 31, no less than 11,088 homesteads have been taken up in the west, showing a large increase over any corresponding time in recent years.

The largest entries were made in May, when 3,139 applicants registered their names for free lands; April came second with 2,677; March followed with 2,200; then January with 1,552; and February last with 1,518 entries.

Contrary to general opinion 75 per cent. of these homesteads have been taken up in the prairie provinces by English speaking people. Canada led the way by a small majority, but the year closed followed by Britishers and Americans.

### BRITISH DIRECTORS IN PERU DESERVING OF CENSURE

Report Finds They Have Been Culpably Negligent in Preventing Atrocities

London, June 9.—The British directors of the Peruvian Amazon company, of whom Sir John Lister-Kaye is the best known, are held "deserving of severe censure" by a small majority of the house of commons which investigated the atrocities in the Putumayo rubber fields of Peru. The report issued today absolves the directors from any personal act for which they could be punished under the slave trade law connected with the cruelties which caused the deaths of so many natives in the rubber fields, but it charges them with culpable negligence. The committee holds Julius Cesar Arana, the "rubber king" and Peruvian director of the company, responsible for the atrocities, and expresses the belief that the Putumayo incidents are but a shocking instance of conditions to be found over a wide area in South America, which says the laws against slave dealing need consolidation and extension.

### ROCHE WILL ADD MORE IMMIGRATION OFFICES

London, June 9.—Speaking to the Canadian Associated Press, Hon. Dr. Roche said he had made a tour of the emigration agencies throughout Great Britain, and intended to open several new agencies and generally develop this department on existing lines, alluding to the naval question. Dr. Roche said: "I very naturally regret the senate's action, but do not care to say too much about it. My opponents have been very considerate to my department while I have been away. I think, however, that the senate will ultimately reverse its decision." The lady's death. Moreover, it is stated that Knox's partner in Aberdeen in an affidavit, attributes the failure of the firm to Knox's actions. The defence, represented by A. H. Clarke, K.C., and Alex. Stuart, K.C., of Edmonton, gave a general denial to these statements of the Law Association. A. H. Clarke, K.C., opposed the appointing of a commission to take the evidence of witnesses in Scotland, but their lordships granted the commission.

### COUNTERVAILING DUTY IS PLANNED ON ALL MEATS, WHEAT, AND FLOUR

Democrats Change Their Minds and Will Put Duty on Such Imports Compensatory to Any Duty Charged By Another Country Against the States.

WASHINGTON, June 9.—Revising their policy again, Democratic leaders in the Senate have decided to put a countervailing duty on imports of live stock and grains, fresh meats, flour and other grain products. These agricultural products are to be classed in the free list, in accordance with the recent decision after a conference with President Wilson, but they will be free listed with a string to them. A countervailing duty means that the United States will now charge, on imports of cattle, sheep, hogs, wheat and flour, and such products, a duty compensatory to any duty that may be charged by another country against

### WAR IS INEVITABLE BETWEEN THE BALKAN ALLIES, ASSERTS VIENNA

London, June 9.—War is almost inevitable between the Balkan Allies, according to a Sofia despatch to the Neue Freie Presse, which declares that the solution of the cabinet crisis must not be looked for before June 12. The Danubian cabinet is expected to effect a re-approachment with the triple

alliance, and meanwhile a meeting of the premiers is extremely doubtful. "Excitement prevails. Serbia is allowing the passage of no Bulgarian messages. From today a most dramatic 'state of war' will be observed. All houses must close at 9 o'clock at night."

### King George Entertains Delegates

London, June 9.—At the luncheon given by the King in honor of the Balkan peace delegates Saturday, his majesty expressed the hope that their labors would soon be satisfactorily concluded. At a subsequent meeting of the delegates, however, little progress was made and an adjournment was taken to Monday. The delegates failed to reach an agreement on the form of the protocol draft.
