STOCK MARKETS. U. C. Becher, broker, Bank of Com-merce building, received the following by private wire from Bartlett, Frazier &

Carrington today: New York, Feb. 25-Noon.-There is not very much feature to the stock market, but it lacks weakness and it is not such a large one for the bearish operators as it was during the past day or so. There is no aggressive strength about it, however, and it is doubtful if it could actuwithstand a concerted attack. The opening was better in sympathy with and some covering by shorts helped it. The earlier strength was not maintained, however, and an easier tone developed in the second hour. In the first hour's trading there was considerable activity. Some of the selling of Steel, preferred, today came from Pittsburg, but it was not aggressive. tone of the market in the second hour was quieter, and some stocks were much easier. Reading, Union Pacific and Pennsylvania held relatively well. There is a professional bear clique attacking the Southern Pacific. The market will undoubtedly be bulled during the afternoon. Sales to noon were 277,700 shares.
